ACTION: N NGELE

**6. A) ROLL OUT OF WI-FI ON EPIC
B) ROLL OUT OF FIBRE NETWORK PLAN PER
SUBCOUNCIL AND THE IMPACT ON THE SAFE CITY**

Mr T Bosman provided the portfolio committee with the following status report and responded to questions for clarification in that regard:

“STATUS OF BROADBAND INFRASTRUCTURE AND PUBLIC WI-FI AND IMPACT ON SAFETY AND SECURITY

A. Broadband infrastructure

- Current status of the project is that 900 Km of fibre was rolled out to connect 400 city buildings connected with high speed fibre links.
- The project was stopped in 2018 due to an AG finding of incorrect financial approval as well as the need to review the project to ensure an effective and efficient project after 5 years, market changes, changed needs and technology changes.
- The concept design was completed in February 2020 and draft budgets submitted for the project
- The detailed design is planned for completion in September 2020 where after a report will be submitted to Council to start the project from March 2021
- The project will entail connecting a further 385 city sites over the next 10 years. (This is all city buildings requiring connectivity)
- Why is it important for the city to own and operate its own fibre network:
 - To obtain the high capacity (Giga Hertz) bandwidth at affordable prices
 - To obtain the high reliability required for a municipality with essential services (99,99)
 - To have the flexibility to cater for the city's future needs for CCTV, Traffic signals, water telemetry, OT networks and a smart city of the future
 - Very important to obtain independence from 3rd parties and the accompanied limitation of SCM, MFMA and legal processes
- It is important to note that in the interim it is business as normal in that voice and internet services are delivered as normal and requirements for additional data links to new buildings can be met via tenders for 3rd party services in the short term.

B. Public Wi-Fi

- The current public Wi-Fi service continues to be delivered at 286 different city sites such as Civic Centres, Libraries, Clinics, Cash Offices and other buildings where the public has access. (Smart Cape in Libraries and Cell C at other facilities)
- Due to contractual issues with tenders no new Smart cape or Public Wi-Fi devices can be installed until a new tender is in place, estimated at September 2020
- Due to no budget available all such requests must be funded by the users at this time.
- The current Public Wi-Fi rollout is restricted to wherever the city corporate network is available as there is no funding for public Wi-Fi.
- A new business plan for public Wi-Fi in public spaces are being developed. (Transport interchanges, public squares, sport facilities, community Halls, etc.) For this a separate fibre infrastructure is required and is thus very expensive.
- The service we plan to run on this is the city's Smart cape internet service to include free Wi-Fi for the public and possibly other services such as buying electricity reporting faults, etc.
- It is anticipated that the business plan for this will be implemented in the 2021/2022 financial year.

Discussion and questions for clarification, in essence, related to the impact on the roll-out of CCTV cameras.

RESOLVED that the Safety and Security portfolio committee receives a status update on broadband infrastructure during the October 2020 cycle of portfolio committee meetings.

ACTION: T BOSMAN; R BOSMAN; C KESSON

7. UPDATE ON FILLING OF SENIOR MANAGER POSITION(S)**CONTROL ROOM OPERATOR**

The committee noted that the newly appointed Epic Manager, Mr A Mortimer is currently undergoing induction. Further that Director Robberts would provide a status update during the next meeting on progress with filling the Control Room Operator position.

RESOLVED that the portfolio committee be kept updated in respect of filling the position of Control Room Operator.

ACTION: R BOSMAN; P ROBBERTS

8. EVENTS DEPARTMENT:

- **PROPOSALS FOR INFRASTRUCTURAL MODERNISATION**
- **BUSINESS PLAN FOR FILM CAPE TOWN**

Ms De Souza-Zilwa reported on the status of the business study on establishing Film Cape Town as an entity, either internally or externally. It was inter alia reported that should Film Cape Town be established as an internal entity, the salaries for 9 – 10 people would amount to approximately R5 Million. In the instance of it being taken external, salaries would amount to approximately R12 Million – R15 Million. An Initial estimate for an external commission or entity including operations, capital costs and salaries is between R22 Million – R25 Million.

Ms De Souza-Zilwa reported that in terms of modernisation, the IS&T department has advised that the Events Department is number 62 on the list and could not be accommodated this year. It was noted that a further challenge is whether to develop the project internally on SAP or whether to go out on tender externally.

Cllr Golding requested to be provided with progress dates in respect of the business plan.

Cllr Golding, supported by the portfolio committee, was of the view that it is unacceptable that the Events Department cannot be accommodated by IS&T during 2020 and requested the ED: Safety and Security to set up a meeting with the ED: Corporate Service and the IS&T department to discuss and motivate that the Events Department be prioritised and be brought forward on the list.

RESOLVED that the ED: Safety and Security arranges a meeting with the IS&T department to discuss and motivate that the Events Department's Infrastructural Modernisation Project be prioritised and brought forward on the list.

Mr Bosman pointed out that the City is engaging with SANPARKS through the ED: Spatial Planning and Environment, Mr O Asmal in terms of Table Mountain, as it falls within his area of responsibility.

Cllr A Adams reported that he has attended a meeting with the Minister, the Table Mountain Forum and other stakeholders in respect of issues relating to Table Mountain. He elaborated that the minister had established 6 task teams that will identify challenges in terms of safety, maintenance, environmental matters, permits and fisheries. The task teams will be meeting on a regular basis and will provide report back to the Minister in terms of challenges on 15 April 2020. It was noted that Cllr Adams will be serving on the task team for safety.

RESOLVED that the Safety and Security Portfolio Committee receive status reports on the outcome of engagements with relevant stakeholders in terms of addressing safety challenges on Table Mountain.

SAFS 08/03/20 REPORT ON THE FUNCTIONING OF THE MUNICIPAL COURTS FOR THE PERIOD 1 OCTOBER 2019 – 31 DECEMBER 2020

The report was introduced and highlights as contained in the report were pointed out. The committee inter alia noted that the main reason for struck-off cases at all the courts were jurisdiction. The matter has been taken up with the service provider to change the mobile devices to reflect the correct locations.

Cllr Golding requested that section 56 notices for Strand be investigated.

Cllr Bresler pointed out that the definition states that a struck-off case is due to an officer's error, which is not necessarily the case as it has been reported earlier that it is due to mobile devices not reflecting correct locations. The chairperson requested that the definition be defined to include all other reasons.

RESOLVED that the contents of the report on the Functioning of the Municipal Courts for the period 1 October 2019 – 31 December 2020, be noted, with comments.

AREA WEST:

Law Enforcement received a court order to enforce their municipal by-laws against all refugees at Green Market Square Cape Town. The week of 24th – 28th February 2020 Law Enforcement started with assistance by transporting refugees to a city facility for verification process of refugees by DHA in the 7days leading to the last day determined by the court for municipal Bylaws to be enforced. The City is therefore continued its operation to enforce an order granted by the Western Cape high court Judge Daniel Thulare in respect of the refugees who have been illegally occupying open spaces & sidewalk in & around the Greenmarket. The court order granted on 17 February 2020 gave the City the go ahead to enforce its by-laws in the Greenmarket Square area. This operation was completed Sunday successful in green market square, but it was then followed by an illegal invasion again by refugees at St. Mary's Church opposite Parliament.

The church laid a charge of trespassing, and the City then supported the South African Police Service in removing the group of refugees from the church premises. Overnight, a group of the refugees settled on open land in the vicinity of the Cape Peninsula University of Technology. The City's enforcement agencies have since started an operation to move them from this piece of land. I need to reiterate a few points, as per the court order:

1. The refugees who have been moved from Greenmarket Square are not allowed any conduct in contravention of the City's by-laws anywhere else in the city.
2. That any such conduct would be in contempt of the court order
3. That neither the City, or any other agency, has to provide alternative accommodation to the group

As indicated in our original communication on this matter on Sunday 1 March 2020, we appeal to the refugees to return to the areas they were living in before the initial sit-in protest in St. George's Mall. There were no arrests during the operation at Greenmarket Square. Following the invasion of St. Mary's, arrests were made – the South African Police Service would be best placed to speak to the number of arrests and the charges. During the current operation, three arrests have been made – three males aged 17, 38 and 41, charged with assault on a police officer in contravention of a court order and resisting arrest.

This is an extremely volatile situation, which the City is trying to manage as best as possible and we appeal to everyone concerned to please allow our staff to execute their duties, in line with the court order, that applies to including all journalists as well who are present taking pictures and recording videos during any operation,

not to interfere or hinder officers while doing their duties with camera equipment or any form obstruction during enforcement of the law by officers.

There was in February a British national who overdosed himself with cocaine and was found on the beach and was rescued, LE responded to assist at coastal park dumpsite Muizenberg – protesters were stoning security and wanting to set vehicles and buildings alight. 6 suspects arrested by SAPS. On the 13th February 2020 LE deployed 103 officers at the SONA in the CBD of Cape Town.

AREA NORTH

The accused of the Tazne van Wyk case appeared in Goodwood court, large crowd became riotous and LE responded to assist SAPS in crowd control. Later the day LE responded to Parow Rd, Parow where two alleged drug houses were set alight by the protesters. It is alleged that Tazne van Wyk was kept there;

29th Feb officers were deployed at the funeral of Tazne van Wyk. No incidents happened; Melkbosstrand – in a secluded area a body of a woman was found who committed suicide.

AREA EAST

Kuilsriver - 22/02/2020 Protest action between the Rasta's members and SAPS at about 05h00 the morning. Rubble and tyres was burning. All role player Metro Police, Traffic Services and Law Enforcement with the main custodians SAPS.

ASSISTANCE PROTEST DELFT FEBRUARY 2020

Delft officers were dispatched via Control room of a protest at Voorbrug Delft 7&9 Delft and Khayelitsha officers were redeployed to assist in Bonteheuwel regarding the outbreak of Gang violence in the areas. Delft and Khayelitsha members rendered assistance in Delft Kerango and Satina crescent in a shooting incident of Athi Vellem (18yrs) and Nomvuyo Vellem . Ambulance and SAPS attended.
