7. BACKGROUND/ MOTIVATION

The Environmental Management Department is already managing erf 1063 Macassar in terms of alien vegetation, fire suspension, land invasion, etc.

The erf contains high quality endangered Cape Flats Dune Strandveld (CFDS).

CFDS is endemic to Cape Town, but unfortunately only 7% of the original extent is conserved making the conservation of every remnant critical to reach the national conservation target of 24%.

As the applicant department is already managing the property, the reservation of the erf for Biodiversity will not have an effect on the said department's budget.

8. DISCUSSION

The application was duly circulated to the effected services departments for comments/objections.

No objection was received and there is thus no reason why the reservation cannot be recommended for approval.

9. COMMENTS FROM THE SERVICE BRANCHES
