OFFICE OF CHAIRPERSON: SUBCOUNCIL 4

Chairman's Report of Sub Council 4 Parow Council Chambers

24 January 2019

Good Morning Councillors, Subcouncil Staff, invited guests, friends and the media.

I want to wish everyone a prosperous New Year and that you had a well deserve rest. I also need to congratulate each councillor place in the new organogram, into new portfolios.

Your presence at the Subcouncil Meeting is much appreciated.

Dam Levels

Dams levels in the Metropole had decrease by 1.2% and I urge all of you to still use water sparingly.

The data collected on the status of our dams is independently available from the National Department of Water and Sanitation and is published in local newspapers.

Ward Allocation projects.

We are at the last 6 months of the financial year and on our PCER it still display that the spending pattern is of great concern

The amount of outstanding work and invoices raise a major concern as it is evident with the trend and rate that the officials approaching the allocations is alarming.

Some of the projects have still have a zero percentage spending and it will be highly impossible to spend all this money in the next 3 months.

I urge councilors to interact with the departments and officials to see the realization of the projects that you have identified. Councilors, please allocate your funds wisely in the next financial years so that a legacy is left behind.

I have send a strong worded email to the ED and the Mayco member on the refusal of officials to attend a legitimate meeting at our sub-council.

Safety & Security.

The City of Cape Town had a major success in the Safety & Security department during the festive period by confiscating a record number of alcohol on the beaches.

Drunken driving remains one of our biggest concerns and perpetrators do not adhere to our laws of the country.

Illegal Dumping

It is one of the worst situations in our areas and the enforcement thereof need to be discuss with all seriousness. Pleaple are using every single corner to dump , whatever rubble they have.

Please report illegal dumping to 0860103089(option1)

Water & sanitation.

Water is the most precious commodity and should not be wasted,

We had to many burst pipe in Sub-council 4, due to infrastructure development and lose to many clean drinking water. The turnaround strategy is also of concern and needs to be address as a matter of urgency.

Please report any water & sanitation related queries to 0860103089 (option 2.)

Lastly, Sandile Patrick Bebe & Siyamthemba Ndlezana is the Community Facilitators in the Excecutive mayors office for Stakeholders management.

Their contact details is Office : 021 400 9485 & Mobile : 064 152 0810

1. THE CITY'S ORGANISATIONAL TRANSFORMATION PLAN IS BUILT ON VALUES:

- City Built by Accessibility
- City Built by Accountability
- City Built by Integrity
- City Built by Service Excellence
- City Built by Trust

I thank you

CHAIRPERSON: CLLR CHRIS JORDAAN
