

MOTION OF EXIGENCY TO SUBCOUNCIL 03 AT IT'S MEETING ON

DATE: 17 October 2019

SUBJECT HEADING: REQUEST TO ADDRESS CAPACITY CONSTRAINTS TO EXPEDITE WATER RELATED REINSTATEMENT OF ROADS AND PAVEMENTS IN SUB COUNCIL 3

SUBMITTED BY: CLLR CHERYL VISSER (WARD 1 COUNCILLOR)

BACKGROUND

Ward 1 is experiencing a lack of service delivery in reinstatement of roads and pavements where work has been done on water infrastructure due to water pipe bursts, maintenance and upgrades.

At the Sub Council 3 Activity day on 15 October 2019, the Sub Council was informed that at a depot level in the Northern District, there are insufficient staff to supervise with inter alia tenderers doing these reinstatements. This leads to poor service delivery. Some of the work has been dormant for many months and in some cases years.

MOTION

- A. Against this background, I hereby request that the Sub Council resolve to support the motion to request that Director Michael Webster (Department Water and Sanitation) and Director Henry Du Plessis (Department Roads Infrastructure & Management) urgently intervene in getting staff appointed at this level to expedite service delivery as it is at a very visible level.
- B. That City of Cape Town Water and Sanitation Department provide an updated explanatory letter regarding the status quo and the way forward with reinstatements (The letter issued on 23/4/2019 is outdated)
- C. That feedback be provided to some extent as to when the outstanding reinstatements will receive the necessary attention it needs

In the spirit of co-operative governance this request is submitted.
