1	<b>2010 WORLD CUP PUBLIC TRANSPORT SERVICES</b>							
	Airport service	per trip	The airport shuttle service will be required to transport 8 200 people per day between the Airport and the Main Transport Hub in the CBD at a peak flow rate of 480 pax / hour. This service will use the ordered IRT vehicles at a direct cost to the passenger	50.00	50.00			No
	Inner City Loop service	per trip	Existing inner city public transport services are required to be "topped up" to provide additional linkages between the official FIFA Fan Fest, the GP Stadium, the FIFA Hotel, the Convention Centre, the V&A Waterfront and a significant amount of accommodation in the Inner City, reducing the dependency on private vehicles in the CBD.	8.00	8.00			No
