TIPS TO HELP YOU DRIVE EFFICIENTLY

1. Service your vehicle regularly.
2. Check your tyre pressure monthly.
3. Remove unnecessary weight from your vehicle.
4. Close your windows especially at higher speeds and remove empty roof racks.
5. Use air conditioning sparingly.
6. Reduce idling.
7. Avoid speeding and drive smoothly.
8. When accelerating, change gears as early as possible.
9. Try to anticipate traffic flow to avoid unnecessary stopping or starting.
10. Walk, cycle, car pool or take public transport.
