

SAVING WATER IS A WAY OF LIFE

Quick reference card for water leaks

How do you check if you have a water leak?

1

Close all taps.

4

If there is a difference in the reading you have a leak. You will need a plumber to find and fix the leak.

2

Check and record your meter reading.

53210423

3

Wait a short period (10 minutes) and take another reading. Make sure no one opens a tap or flushes the toilet.

SAVING WATER IS A WAY OF LIFE

Quick reference card for water management device (WMD)

4

Call the City's call centre 0860 103 089 (provide your erf no, account no, name, address and tel no.).

1

Close all taps.

What must you do if you run out of water?

3

Wait until the next morning. If the water supply is not restored, refer to step 4.

2

Use water from standby supply (remember: fill up your container with a fresh supply every morning).
