| 1.A Percentage of building plans approved within statutory timeframes (30-60 days) | 1.1 (e) | Percentage of applications approved within statutory timeframes (30 – 60 days). The objective is to improve approval time of the applications. This improvement is in the trend over the cause of the five year term of the Integrated Development Plan, but targeted annually as the weighted average percentage achieved for the specific year. The approval of Building plans is measured within the statutory time frames of < 500 m2 (30 days) and > 500 m2 (60 days). Refer Section A7 of the National Building Regulations Act (Act 103 of 1977).                                                                                                                                                                                                                                                                                                                                                                                    |
