 - (d) performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and
 - (e) training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.
- 13.2 Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.

14. Spare parts

- 14.1 As specified in the SCC, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the supplier:
- (a) such spare parts as the purchaser may elect to purchase from the supplier, provided that this election shall not relieve the supplier of any warranty obligations under the contract; and
 - (b) in the event of termination of production of the spare parts:
 - (i) Advance notification to the purchaser of the pending termination, in sufficient time to permit the purchaser to procure needed requirements; and

- (ii) following such termination, furnishing at no cost to the purchaser, the blueprints, drawings, and specifications of the spare parts, if requested.

15. Warranty

- 15.1 The supplier warrants that the goods supplied under the contract are new, unused, of the most recent or current models, and that they incorporate all recent improvements in design and materials unless provided otherwise in the contract. The supplier further warrants that all goods supplied under this contract shall have no defect arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications), or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.
- 15.2 This warranty shall remain valid for 12 (twelve) months after the goods, or any portion thereof, as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for 18 (eighteen) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in the SCC.
- 15.3 The purchaser shall notify the supplier promptly, in writing, of any claims arising under this warranty.
- 15.4 Upon receipt of such notice, the supplier shall, within the period specified in the SCC and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.
- 15.5 If the supplier, having been notified, fails to remedy the defect(s) within the period specified in the SCC, the purchaser may proceed to take such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

16. Payment

- 16.1 The method and conditions of payment to be made to the supplier under this contract shall be specified in the SCC.
- 16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfilment of any other obligations stipulated in the contract.
- 16.3 Payments shall be made promptly by the purchaser, but in no case later than 30 (thirty) days after submission of an invoice or claim by the supplier.
- 16.4 Payment will be made in Rand unless otherwise stipulated in the SCC.

17. Prices

- 17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices tendered by the supplier in his bid, with the exception of any price adjustments authorized in the SCC or in the purchaser's request for bid validity extension, as the case may be.

18. Contract Amendments

- 18.1 No variation in or modification of the terms of the contract shall be made except by written amendment signed by the parties concerned.

19. Assignment

- 19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.

20. Subcontracts

20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contract if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.

21. Delays in the supplier's performance

21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.

21.2 If at any time during the performance of the contract, the supplier or its subSupplier(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his or her discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.

21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.

21.4 The right is reserved to procure, outside of the contract, small quantities of supplies; or to have minor essential services executed if an emergency arises, or the supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.

21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.

21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without cancelling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and, without prejudice to his other rights, be entitled to claim damages from the supplier.

22. Penalties

22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services, using the current prime interest rate, calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods,

works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

23.4 If a purchaser intends imposing a restriction on a supplier or any person associated with the supplier, the supplier will be allowed a time period of not more than 14 (fourteen) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated 14 (fourteen) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.

23.5 Any restriction imposed on any person by the Accounting Officer/Authority will, at the discretion of the Accounting Officer/Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person is or was, in the opinion of the Accounting Officer/Authority, actively associated.

23.6 If a restriction is imposed, the purchaser must, within 5 (five) working days of such imposition, furnish the National Treasury with the following information:

- (i) the name and address of the supplier and/or person restricted by the purchaser;
- (ii) the date of commencement of the restriction;
- (iii) the period of restriction; and
- (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, Act 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period of not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction, and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

24. Anti-dumping and countervailing duties and rights

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidised import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall, on demand, be paid forthwith by the Supplier to the State, or the State may deduct such amounts from moneys (if any) which may otherwise be due to the Supplier in regard to supplies or services which he or she delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which may be due to him or her.

25. Force majeure

25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if, and to the extent that, his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.

25.2 If a force majeure situation arises, the supplier shall notify the purchaser promptly, in writing, of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall

continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26. Termination for insolvency

26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

27. Settlement of Disputes

27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve such dispute or difference amicably, by mutual consultation.

27.2 If, after 30 (thirty) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.

27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.

27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.

27.5 Notwithstanding any reference to mediation and/or court proceedings herein,
(a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
(b) the purchaser shall pay the supplier any monies due to the supplier.

28. Limitation of Liability

28.1 Except in cases of criminal negligence or wilful misconduct, and in the case of infringement pursuant to Clause 6:

- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and
- (b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.

29. Governing language

29.1 The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.

30. Applicable Law

30.1 The contract shall be interpreted in accordance with South African laws, unless otherwise specified in the SCC.

31. Notices

31.1 Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail, and any other notice to him shall be posted by ordinary mail, to the address furnished in his bid or to the address notified later by him in writing; and such posting shall be deemed to be proper service of such notice.

31.2 The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice

32. Taxes and Duties

32.1 A foreign supplier shall be entirely responsible for all taxes, stamp duties, licence fees, and other such levies imposed outside the purchaser's country.

32.2 A local supplier shall be entirely responsible for all taxes, duties, licence fees, etc., incurred until delivery of the contracted goods to the purchaser.

32.3 No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid the Department must be in possession of a tax clearance certificate submitted by the bidder. This certificate must be an original issued by the South African Revenue Services.

33. National Industrial Participation (NIP) Programme

33.1 The NIP Programme administered by the Department of Trade and Industry shall be applicable to all contracts that are subject to the NIP obligation.

34 Prohibition of Restrictive practices

34.1 In terms of section 4 (1) (b) (iii) of the Competition Act, Act 89 of 1998, as amended, an agreement between or concerted practice by firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder(s) is/are or a Supplier(s) was/were involved in collusive bidding (or bid rigging).

34.2 If a bidder(s) or Supplier(s), based on reasonable grounds or evidence obtained by the purchaser, has/have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act, Act 89 of 1998.

34.3 If a bidder(s) or Supplier(s) has/have been found guilty by the Competition Commission of the restrictive practice referred to above, the purchaser may, in addition and without prejudice to any other remedy provided for, invalidate the bid(s) for such item(s) offered, and/or terminate the contract in whole or part, and/or restrict the bidder(s) or Supplier(s) from conducting business with the public sector for a period not exceeding 10 (ten) years and/or claim damages from the bidder(s) or Supplier(s) concerned.

PART 4: SPECIFICATIONS

13.1 INTRODUCTION AND BACKGROUND

The City of Cape Town provides a range of public services that broadly require the use of a private mobile data network service (APN), together with related mobile data services and ancillary mobile devices. This includes:

- A Private Mobile Data Network service (sometimes referred to as an “APN”)
- Mobile Internet Services
- SMS Services
- Mobile Data Routers and ancillary hardware devices to enhance the signal strength of mobile data networks

The city wishes to appoint a service provider/s from which the city can procure these services from as and when needed. The selected service provider(s) must:

- Have the technical capability to offer such a service
- Provide a service that meets the City's requirements
- Provide a service that meets the City's contractual, technical and operating requirements.

13.2 CATEGORY A – SUPPLY OF PRIVATE MOBILE NETWORK SERVICES (APN)

Staff of the City of Cape Town, mobile and other nomadic workers who use computers and networked devices require secure access to the corporate network in order to send and receive e-mail, and to access specific applications and information available on the City's intranet. It is the responsibility of the IS&T Telecommunications Branch to ensure that a secure mobile data network service is available for the use of these workers. The purpose of this schedule is to procure such services from qualified and experienced service providers as and when needed.

The Service provider must, therefore, be able to offer, deliver and support multiple segregated private networks (APNs) to which the City can connect its mobile devices. Each network must keep the City's data separate from public traffic, and provide a direct connection back to the City's internal networks. It therefore effectively extends the reach of the City's Corporate network throughout the Cape Town metro area.

Access to this network must be under the control of the City - the City must therefore have control over the wireless devices that have access to its network, as it does with any other computing or communications device.

Network connectivity to City Data Centers

The service provider must provide the APN backhaul links (fibre) from the provider's network to both the following city locations:

- Cape Town Civic Centre Data Centre Network Room (-33.92087518434042, 18.42886381213812)
- Goodwood Data Centre Network Room (-33.896410291502406, 18.56209030758278)

This is to ensure full redundancy of the connectivity to at least two separate entry points into the service provider's network and city. Service providers will be required to provide fibre-based interconnection. The connectivity service must be capable of supporting uninterrupted data with a minimum speed of **2Gbps** (Connectivity from Service Provider to City). The Service Provider will increase the bandwidth of the link as data usage and/or throughput increases at the request of the City at no additional cost to the City. These backhaul links will be used to provision APN services and carry the APN traffic to and

from the City network. It will be the responsibility of the service provider to ensure that the backhaul connectivity has enough capacity (bandwidth).

The service provider must provide an on-premise router for each individual backhaul fibre link and any additional switches required to terminate the individual APNs, to which the City of Cape Town network should be connected. The routers/switches should be capable of handling the network capacity. The tenderer will be responsible for the management and maintenance of the router device, including but not limited to:

- Firmware updates
- End of life (EOL) replacements
- Spares and device replacements
- Ensure that the router has enough capacity to handle the traffic utilization, at least 2Gbps. Any router capacity or device upgrades will be a "0" (Zero) additional cost to the City.

Tenderers need to ensure that the cost of the backhaul fibre connectivity, edge devices and redundancy/failover are included in the initial and monthly costs.

APN Services

IT will be necessary for the City to set up multiple APN services in order for mobile users to access distinct private networks, as may be required by different departments within the City

The Corporate APN (primary APN) needs to be scalable to provide a mobile data service for up to 10,000 users; 10% of these users are expected to be priority users (i.e. Safety and Security Users). The network(s) must be able to grow in data capacity (bandwidth). To ensure service operations under duress, the service provider's underlying network must be able to cope with unexpected surges in traffic capacity demand.

For each APN service procured from the service provider:

- The City expects a 99% service availability uptime per APN for a given calendar month.
- Any planned downtime must be communicated 1 calendar in advance.
- Each procured APN, will use the two backhaul fibre connections for redundancy and failover.
- The City expects the service provider to ensure that the city's APN traffic is isolated, secured and segregated from other traffic (public) traversing the service provider's network
- All APN services should have no breakout to the Internet, (excluding forward APN where static public IPs are required)

Radius Service

The City of Cape Town requires the provisioning of a complete RADIUS service for user authentication and allocation of fixed IP addresses to each SIM provisioned to the APNs, the City expects the tenderer to supply, host, support, maintain and manage the RADIUS solution, including hardware, software and labour.

Tenderers must consider labour, hardware and software costs as part of the initial and monthly costs for the radius service, DO NOT submit additional labour, hardware and software costs.

Only users who have been provisioned to access the APN should be able to do so. The City will provide the service provider with a range of private IP addresses for use with the RADIUS server system.

Resources, Support and Maintenance

The service provider will provide the city with the necessary resources to ensure the availability of the APN service/s, which includes:

- Unlimited hours per month for support, consultation and maintenance
- 24 x 7 Availability of technical resource/s to resolve issues
- Service Delivery Manager that will be responsible for escalation management and case resolutions.

The City will provide first line support to users. The Service Provider is required to provide a 'help desk' or similar facility to designated City staff, which must have priority access to second level and technical support.

Tenderers must comply with the following:

Severity	Description
P1	Total APN Outage, no service. Planned outages that exceed the maintenance window will be regarded as P1.
P2	APN services degradation with severe impact to users
P3	APN services degradation with little or no impact to users
P4	All other APN service related general queries
Change Requests	Internal change requests to city owned/rented infrastructure will follow the City's Change Request process.

Severity	Time to Respond	Time to Restore	Penalty points
P1	10 Minutes	30 Minutes	1 penalty point for not meeting "time to restore", there after:
P2	30 Minutes	2 Hours	
P3	1 Hour	48 Hours	1 penalty point for every "Time to Restore" issue is not resolved
P4	24 Hours	NA	

Example: P2 Issue – Degraded APN service for 8 hours

Time To Restore Breach (2 hours) = 1 penalty point.

Time To Restore Breach (Remaining 6 hours/2 hours time to restore) = 3 penalty points

Total Penalty Points = 4

Credit % per penalty point	Total Credit %	Penalty
<u>0.25% credit</u>	<i>Total Credits % = Credit per penalty x total penalty points for previous month:</i> <u>1% Total credit = 0.25 x 4</u>	<i>Total Credit of 1% to be applied against the following months invoice for the related service item. Credit to be applied as discount</i>

* Downtime/outage will be measured from the time city reports the issue up until both city and service provider confirms services are restored. At contract commencement service provider may use its own tools to measure uptime and voice quality, but this will be at no additional cost to the city other than the prices submitted in pricing schedules.

Tenderers are to take note of the penalty points applied when the response times and/or targets are breached. The city reserves the right to extend the resolution time at the city's own discretion, the city may decide not to apply any or all penalty points for individual calls at its own discretion, this may apply under certain conditions whereby the city agrees that the service disruption is beyond the tenderer's control or the tenderer has provided valid reasons and action plan to resolve issue/s. Please refer to the (22) Penalty clause under the Special conditions of contract as to how the penalty points will be applied.

MOBILE INTERNET ACCESS DATA BUNDLES – CATEGORY A.2

City staff will also require to access the Internet remotely as and when needed. It is the responsibility of the IS&T Telecommunications Branch to ensure that they are able to offer such a service. The APN service provider/s will also be required to offer Internet Data Bundles on individual SIM's, APN and non-APN enabled SIMs, it will be the user's responsibility to switch from one APN to another.

- All data bundles will be on a month to month basis, the city will not enter into any long term contracts for internet data bundles.
- All hardware costs must be excluded, as the city intends to outright buy mobile modems and routers as and when needed from the service provider via Category A.4
- Service providers must allow the city to cancel any Mobile Internet Data within 24 hours of the request reaching the service provider. All billing for that bundle must stop at the end of the billing month in which the cancellation was requested.

The City requires 100% coverage and service availability in the geographic area that encompasses the Cape Town metropolitan area, including the Table Mountain National Park, but excluding the Cape Point Nature Reserve.

The City would prefer full LTE coverage but understands the current geographic limitations. The City minimum requirement is therefore a 3G/HSPA/LTE mobile data service, with data link speeds better than 10 Mbps. EDGE mobile data services are not acceptable.

The 'quality of service' should be the highest level possible given the technical constraints of a mobile 3G or LTE network, i.e.

- Connections should be established quickly
- Connections should not be dropped
- Data transfer should be fast (i.e. 'broadband' speeds of at least 10Mbps)

Note: Should the city feel that certain staff or devices are not receiving adequate network speeds due to poor reception and coverage, the city has the right to order an Internet Mobile Data Bundle (including modem/router) from the next highest ranked standby tenderer.

MOBILE ACCESS HARDWARE – CATEGORY A.4

The city intends to outright purchase any end user hardware, such as mobile router and modems as and when needed. All devices must carry 12 month replacement warranty that must be resolved within 14 days.

All supplied devices must be compatible with the service provider's network, it will be the sole responsibility of the service provider to ensure this, and resolve any issues.

SMS BUNDLES – CATEGORY A.5

City staff, city sites and electronic devices will also require to access SMS services as and when needed. It is the responsibility of the IS&T Telecommunications Branch to ensure that they are able to offer such a service.

- All data bundles will be on a month to month basis, the city will not enter into any long term contracts for fixed internet data bundles.
- All hardware costs must be excluded, as the city intends to outright buy mobile modems and routers as and when needed from the service provider via Category A.4
- Service providers must allow the city to cancel any SMS Bundles within 24 hours of the request reaching the service provider. All billing for that bundle must stop at the end of the billing month in which the cancellation was requested.
- Service provider must be able to enable spend limits for OOB SMS or Non-Bundle SMS.

13.3 CATEGORY B – SUPPLY OF FIXED MOBILE INTERNET SERVICES

City staff will also require to access the Internet remotely from a fixed locations as and when required. It is the responsibility of the IS&T Telecommunications Branch to ensure that they are able to offer such a service.

- All data bundles will be on a month to month basis, the city will not enter into any long term contracts for fixed internet data bundles.
- All hardware costs must be excluded, as the city intends to outright buy mobile modems and routers as and when needed from the service provider via Category B.2
- Service providers must allow the city to cancel any Fixed Mobile Internet Data within 24 hours of the request reaching the service provider. All billing for that bundle must stop at the end of the billing month in which the cancellation was requested.

The City requires 100% coverage and service availability in the geographic area that encompasses the Cape Town metropolitan area, including the Table Mountain National Park, but excluding the Cape Point Nature Reserve.

The City would prefer full LTE coverage but understands the current geographic limitations. The City minimum requirement is therefore a 3G/HSPA/LTE mobile data service, with data link speeds better than 10 Mbps. EDGE mobile data services are not acceptable.

The 'quality of service' should be the highest level possible given the technical constraints of a mobile 3G or LTE network, i.e.

- Connections should be established quickly
- Connections should not be dropped
- Data transfer should be fast (i.e. 'broadband' speeds of at least 10Mbps)

Note: Should the city feel that certain staff or devices are not receiving adequate network speeds due to poor reception and coverage, or for business continue reasons, the city has the right to order an Fixed Mobile Internet Data Bundle (including modem/router) from the next highest ranked standby tenderer/s.

13.5 REPORTING AND SERVICE OBLIGATIONS

Service reviews and monthly meetings.

- The tenderer/s and city will agree at contract commencement of the date and time of the monthly performance review, services and operational meetings.
- The tenderer/s will be responsible for scheduling the performance review sessions, preferably a virtual session.
- The tenderer/s will be responsible for taking and distributing these minutes. Minutes must be distributed within 7 days from meeting date.

Reporting

The Service Provider must prepare a Summary Report providing an overview of the relevant statistics and analytics each month for the previous Calendar Month, and make this available as and when needed via web portal, the service provider will also be required to present this information at the monthly service review meetings. Reports must include but not limited to:

- Number of outages
- Calls logged, open calls.
- APN Availability per APN service
- Bandwidth Utilization, Errors, Discards of APN links
- Fault statistic for the month
- Internet Bundle Accounts

The Service Provider may be requested to provide detailed information about a particular account. Upon receipt of a written request from the City of Cape Town, the Service Provider must deliver requested information within five Working Days.

The service provider also must provide live graphical statistics of the bandwidth usage for each of the APNs, via each of the backhaul link connections between the service provider's points of presence and the City of Cape Town's corporate network.

Service Desk

The supplier must have a service desk throughout the contract period, the service desk must be available:

- 24/7 365 Days to log service impact calls
- City business hours (Mon – Fri 7am to 5pm, excluding public holidays) for operational requests.

The supplier must allow the city to interact with the service desk in which ever means necessary, the city has the right to refuse to interact with automated platforms, in such cases the supplier must provide mutually agreed alternate contact arrangements.

The service desk must be operated and managed by the supplier. Should a supplier use a 3rd party infrastructure then the service desk of the supplier will remain the single point of contact for the city.

Tenderers are to submit, either with their tender submission (attached to Schedule 15F), or within a specified timeframe after being requested to do so; proof of their service desk, which can be:

- Call logging process on official tenderer's letterhead; or
- Call logging process on official tenderer's brochure

Change Management

Service Providers must notify the City's TOC in advance of any changes that will occur on the provider's infrastructure that may impact the City's services. The service provider will perform no configuration changes that will directly affect the City's APN service during the City's change freeze period unless the change is of a critical nature to maintain the availability of the City's APN service. This freeze period will be provided to the service provider in advance.

Technical and Service Delivery Workforce

Tenderers must have the required resources to ensure the account is managed, services are delivered and contract adhered to:

- Account Manager – Overall management of the account
- Service Delivery Manager - Ensure all services are being delivered and issues resolved.
- Network Solutions Architect/Senior Engineer – Provide technical assistance and guidance during the contract period.

The Account and Service Delivery Manager/s must be directly employed or contracted with the bidder.

In order to determine whether the bidder has the required skilled resources as per the required specifications, tenderers MUST submit the completed Schedule 15F either with their tender submission or within a specified timeframe after being requested to do so.

Business Continuity

The service provider must inform the City of any key staff changes i.e.:

- Account Manager
- Service Delivery Manager
- Technical resources
- Any onsite resources, if applicable

Site inspections and coverage testing

Should the city experience coverage issues for all schedules, the service provider/s will perform the necessary coverage/quality tests which will include a site visit at no extra cost to the city. The service provider will endeavour to resolve such issues, including the supply of antennas as per Category A.4 or B.2 to improve the service.

Billing

The City will provide user information to the service provider to allow it to authenticate and manage individual users. The following billing and statistical information must be provided on a monthly basis for the service in a suitable digital format:
