Foreword by the Executive Mayor

The Service Delivery and Budget Implementation Plan is one of the most important tools we have to turn vision into action. It is the bridge between our five-year Integrated Development Plan, our annual budget, and the projects and programmes that residents experience in their communities every day.

It ensures that our priorities remain firmly aligned with our resources, while providing a clear framework to measure progress, strengthen accountability and demonstrate responsible stewardship of public funds.

In the final year of this term of office, this SDBIP carries particular significance. Almost five years ago, we set out with an ambitious vision of building a city of hope for all who live here. Today, many of the major projects made possible by our record-breaking infrastructure investments are taking shape across Cape Town, while others are nearing completion. This critical work across water and sanitation, electricity, public transport and housing is becoming increasingly visible in communities across our city.

This momentum matters. The progress we have built over the course of this term provides a strong foundation, not only for concluding the term successfully, but for preparing Cape Town for the opportunities and challenges that lie ahead. Long-term infrastructure cannot be delivered overnight. It requires careful planning, disciplined implementation and consistent investment over many years. The SDBIP plays a vital role in ensuring that every project remains focused on delivering measurable outcomes that improve the daily lives of residents.

Equally important is the culture of accountability that underpins this plan. The City of Cape Town has earned the trust of residents by maintaining high standards of governance, transparency and financial management. The SDBIP strengthens that commitment by setting clear performance targets, monitoring delivery throughout the year and ensuring that every department remains focused on achieving the outcomes that matter most.

Our ambition extends beyond delivering services. We are creating the conditions for economic growth, expanding opportunities for more people, supporting those most in need and building a city that is more resilient, more inclusive and better prepared for the future.

As we approach the end of this term, we remain firmly focused on maintaining the momentum that has brought us this far. Every project completed, every service improved and every opportunity created enables us to build South Africa's one city that works. In doing so, we are not only building a better Cape Town – we are showing what is possible in our country when good governance, long-term planning and accountable delivery come together in service of the people.

Geordin Hill-Lewis
Executive Mayor

Message from the City Manager

The City of Cape Town's ("City's") Integrated Development Plan 2022-2027 ("IDP") sets out our vision of building a city of hope for all – a prosperous, inclusive and healthy city where people can see their hopes of a better future for themselves, their children and their communities become a reality.

As we enter the 2026/27 financial year, we also enter the final year of implementation of this five-year IDP. This marks an important milestone, as it represents the final opportunity to fulfil our original promise. It also provides us with an opportunity to reflect on the progress we have made to date, the lessons we have learnt on the journey and the impact we have achieved and have delivered for the residents of Cape Town.

It also challenges us to finish this term of office with a continued dedication to service excellence and to provide a solid baseline for the next IDP.

This Service Delivery and Budget Implementation Plan ("SDBIP") translates the City's vision into measurable actions and outcomes for the 2026/27 financial year. It is the instrument through which we give practical effect to our commitments and ensure that public resources are directed towards the priorities that matter most to our residents, investors and stakeholders.

This SDBIP is built around the City's six priorities of Economic growth; Basic services; Safety; Housing; Public space, environment and amenities; and Transport, supported by the foundations of A resilient city; A more spatially integrated and inclusive city; and A capable and collaborative city government. Together, these priorities and foundations provide the roadmap for building a thriving, inclusive and dynamic city.

In this concluding year, we will continue to invest in critical infrastructure, reliable basic services, energy security, affordable housing, public transport, community safety and environmental sustainability. Remaining committed to creating the conditions for economic growth and job creation, while providing meaningful support to our most vulnerable residents, will ensure sustainability for our city.

To every City employee, I encourage you to live the City values and remain true to the vision of the IDP during this final year of its implementation. Every programme delivered, every project completed, every service request resolved and every interaction with a resident contributes to building a city of hope. The success of this plan depends not only on strategies and budgets, but on the dedication, professionalism and integrity with which each of us serves.

As we conclude this IDP cycle, let us continue to make a meaningful difference in the lives of our residents. Let us remain focused on delivering results, improving dignity, creating opportunities and strengthening trust in the City administration.

Together, we will continue to fulfil the promises, undertakings and commitments contained in this SDBIP and ensure that public funds are stewarded responsibly for the benefit of all who call Cape Town home.

Lungelo Mbandazayo
City Manager

1. Introduction

The City of Cape Town is shaping its future with a clear strategic vision, outlined in its five-year Integrated Development Plan (IDP). To bring the IDP to life, the Service Delivery and Budget Implementation Plan (SDBIP) translates the City's priorities into action, ensuring its budget is effectively utilised. Through extensive consultation with stakeholders and residents, the City

has identified six key priorities: Economic growth; Basic services; Safety; Housing; Public space, environment and amenities; and Transport. These priorities are supported by three foundational pillars: A resilient city; A more spatially integrated and inclusive city; and A capable and collaborative city government. Each of the 16 objectives in the plan is linked to these priorities and foundations,

driving meaningful initiatives and programmes. The SDBIP functions as a structured roadmap, with its top layer – known as the City’s corporate scorecard – defining measurable performance indicators and service delivery targets. These objectives are assigned to top management, ensuring accountability and progress tracking throughout the financial year (from 1 July 2026 to 30 June 2027).

At its core, the City’s SDBIP aims to expand opportunities for residents by creating an enabling environment for economic growth and jobs, and providing critical support to those in need. By implementing these objectives, the City of Cape Town is working towards a thriving, inclusive, and dynamic future in building the city of hope.

2. Legislative imperative

Section 53(1)(c)(ii) of the Local Government: Municipal Finance Management Act (MFMA) defines the SDBIP as a detailed plan approved by the mayor of a municipality for implementing municipal service delivery and the annual municipal budget.

In terms of the MFMA, the SDBIP must indicate:

(a) monthly projections of:

- (i) revenue to be collected, by source; and
- (ii) operational and capital expenditure, by vote;

(b) service delivery targets and performance indicators for each quarter; and

(c) other prescribed matters.

The financial and non-financial performance objectives for municipal entities are submitted to the parent municipality in terms of section 93B(b) of the Municipal Systems Act (MSA) and section 87(5)(d) of the MFMA.

3. Purpose

The purpose of this book is to provide a background on the role of the SDBIP, and to explain the relationship between service delivery and budget implementation on the one hand and relevant legislative policies and prescripts on the other.

The document is aimed at the general public and councillors. The corporate SDBIP is the strategic measure against which the City will be held accountable over the remaining years of the five-year IDP cycle. To this end, it is linked to senior managers' performance agreements. The plan facilitates oversight over the municipality's financial and non-financial performance. It allows the City Manager

to monitor the performance of executive directors; it enables the Executive Mayor or Council to monitor the performance of the City Manager; and it lets the community monitor the performance of the municipality as a whole.

The IDP objectives are the foundation of the corporate, directorate and departmental SDBIPs, as well as the entities' achievements for the financial year. The SDBIP planning process undertaken at directorate and departmental level yields a business plan and a scorecard, which include indicators, targets and resource allocation (budgets) for these various City environments. Resources are allocated at a corporate level, pulled through to the SDBIP and budget, and underpinned by programmes and projects.

The targets for 2026/27 are elaborated on under the quarterly targets set in the annual corporate scorecard. Definitions are also provided to broaden readers' understanding of the indicators.

The corporate SDBIP consists of the following components:

- The 2026/27 corporate scorecard
- The 2026/27 MFMA Circular 88 (C88) output and compliance scorecard
- The 2026/27 municipal entities' scorecards:
 - Cape Town Stadium (CTS) and Cape Town International Convention Centre (CTICC)

The scorecards reflect the measurable key performance indicators, quarterly and annual targets, and relevant budget information.

The three-year capital budget is broken down into the priorities of the IDP, which represent the first level of linkage between the IDP and the budget. While too detailed to be included in this report, further levels of linkage are elaborated on in the directorate and departmental business plans. The projected monthly cash flow is broken down into revenue by source and expenditure by directorate (vote).

The capital budget allocations per area, subcouncil and ward are presented in the following way in the book:

- Annexure A1 – Ward and suburb detail
- Annexure A2 – Capital budget allocations per area, subcouncil and ward

As such, the City's SDBIP complies with National Treasury's publishing requirements.

4. Link to the IDP and the budget

The City's five-year implementation plan is informed by 16 objectives. The diagram below indicates how the strategic plan is translated into the implementation plan. The 16 objectives describe what success looks like in realising the vision of a city of hope. The programmes and initiatives/ projects under each of these objectives are the ways in which the City intends to contribute towards these objectives.

The following diagram shows the structure of the implementation plan, and how it is aligned for implementation:

Figure 1: Structure of the IDP implementation plan

Note that the programmes, projects and initiatives contained in the implementation plan are those that are of key significance in achieving the objectives of this five-year plan. This IDP does not list all of the City's mandated duties. However, ordinary, day-to-day activities, programmes and projects arising from the City's mandated duties will still be linked to the budget via the IDP's objectives.

5. Priorities

The City's 16 objectives linked to its priorities and foundations are as follows:

	ECONOMIC GROWTH OBJECTIVE 1: Increased jobs and investment in the Cape Town economy
	BASIC SERVICES OBJECTIVE 2: Improved access to quality and reliable basic services OBJECTIVE 3: End load-shedding in Cape Town over time OBJECTIVE 4: Well-managed and modernised infrastructure to support economic growth
	SAFETY OBJECTIVE 5: Effective law enforcement to make communities safer OBJECTIVE 6: Strengthen partnerships for safer communities
	HOUSING OBJECTIVE 7: Increased supply of affordable, well-located homes OBJECTIVE 8: Safer, better-quality homes in informal settlements and backyards over time
	PUBLIC SPACE, ENVIRONMENT AND AMENITIES OBJECTIVE 9: Healthy and sustainable environment OBJECTIVE 10: Clean and healthy waterways and beaches OBJECTIVE 11: Quality and safe parks and recreation facilities supported by community partnerships
	TRANSPORT OBJECTIVE 12: A sustainable transport system that is integrated, efficient and provides safe and affordable travel options for all OBJECTIVE 13: Safe and quality roads for pedestrians, cyclists and vehicles
	OBJECTIVE 14: A RESILIENT CITY
	OBJECTIVE 15: A MORE SPATIALLY INTEGRATED AND INCLUSIVE CITY
	OBJECTIVE 16: A CAPABLE AND COLLABORATIVE CITY GOVERNMENT

6. The performance management system

The City uses performance management to drive improvements and translate its vision and strategies into actions. As this is an iterative process, performance management is also used to determine whether City actions are leading to the intended outcomes as articulated in its strategic vision and objectives. The performance management system equips leaders, managers, workers and stakeholders with techniques for regularly planning,

continuously monitoring and periodically measuring, reviewing, reporting and evaluating the performance of the City. Key performance indicators are developed and targets are set to measure the economy, efficiency and effectiveness of service delivery. It is against these measures that the community can monitor the municipality and hold it accountable. The system also provides a mechanism for managing expectations.

The performance management system used in the City is much wider and more robust than what is depicted in the corporate scorecard. The corporate scorecard can only include indicators for outcomes which are solely the City's responsibility to deliver on. Medium- to long-term outcomes are realised by a combination of efforts that includes many stakeholders and, therefore, predominantly not in the City's 'area of control', but in the City's 'area of concern'. These medium- to long-term outcomes and impacts do not feature as part of the corporate scorecard but are monitored as trends. In addition, the corporate scorecard can only include indicators that are supported by data that are owned and

managed by the City and can be audited. Stats SA data are based on a very high degree of estimates and assumptions that are not supported by sufficient, reliable physical evidence at transactional level. However, it is accepted by National Treasury and the Auditor-General for reporting on legislative indicators, such as Circular 88.

The City of Cape Town tracks a range of trends, such as the rate of unemployment and foreign direct investments. These are not included on the scorecard as they are not the sole responsibility of the City, but are tracked within the broader monitoring and evaluation system.

Figure 2: The City's performance management cycle and process

6.1 PLANNING PERFORMANCE

By planning its performance, the City ensures that a clear strategic direction is set and maintained.

Planning is informed by community feedback, which is obtained in line with relevant legislation and approved policy. Community involvement helps the City identify its service delivery priorities.

The performance planning cycle delivers a five-year, annually reviewed IDP (including a corporate scorecard with definitions), an annual SDBIP at corporate, directorate and departmental level, performance indicator measurement sheets, section 57 performance plans, and individual performance assessments.

At the planning stage, the City determines priorities, objectives, performance indicators and targets, which are all interlinked. Indicators measure the extent to which objectives are being achieved, and must reflect performance in relation to outcomes, outputs and inputs. National general indicators must also be included, and until auditable and cost-effective systems are in place to measure these, proxy indicators are used. Indicators must be measurable, relevant, objective and precise. Indicators that appear on the corporate scorecard are described in the performance indicator measurement sheets. These sheets also include

a description of the system supporting the indicators, the source data, and stakeholders' roles and responsibilities.

Targets, in turn, set the level of performance to be achieved within a defined period.

The products of the planning cycle – the IDP, SDBIPs, performance plans, etc. – tie in with one another to ensure top-to-bottom implementation. IDP objectives and performance indicators, for instance, cascade into the directorate and departmental SDBIPs, as well as into the performance plans of the City Manager and section 57 appointees.

The final, measurable performance indicators for 2026/27 were approved by the Executive Mayor on 27 July 2026 as part of the corporate SDBIP.

6.2 MONITORING, MEASURING, EVALUATING AND REVIEWING PERFORMANCE

Performance measurement and evaluation is the ongoing process to collect, collate and analyse organisational performance data in order to determine whether the City has met, exceeded or missed its planned targets. This takes place on a quarterly and an annual basis.

Performance evaluation results are discussed at regular management meetings to establish:

- Year-to-date performance progress and reasons for variances for both under- or overperformance.
- Remedial action (effective methods of correction or enhancement), if any, which needs to be taken to achieve the agreed performance targets.

A date for implementation and a responsible person will be identified. Finally, indicators and targets may be reviewed if changing circumstances so require, and in accordance with a prescribed process. In general, however, reviews are limited to major organisational changes and budget adjustments.

6.3 REPORTING PERFORMANCE

Actual achievement of the targets set for the City's objectives is reported on a quarterly basis, where appropriate. These reports, in turn, serve as the basis for quarterly and annual performance reports.

Quarterly performance reports are produced at corporate, directorate and departmental level, for submission to the relevant Council committees.

The Integrated Annual Report is reviewed by the Auditor-General and submitted to the relevant Council committees, the Municipal Public Accounts Committee and the broad community for comment.

6.4 AUDITING AND OVERSIGHT PERFORMANCE

Internal Audit and the Audit Committee (including the Performance Management Committee) review the Organisational Performance Management (OPM) system for functionality, performance information and compliance. The Auditor-General performs an annual audit on the Integrated Annual Report and expresses an audit opinion on the financial and non-financial information. The Municipal Public Accounts Committee (MPAC) reviews the Integrated Annual Report and provides oversight.

7. City scorecards

The City scorecards present a high-level service delivery breakdown for the entire administration and its municipal entities.

The priorities are broken down into IDP objectives, which are further broken down into programmes and projects.

7.1 2026/27 ONE-YEAR CORPORATE, MFMA C88 AND THE MUNICIPAL ENTITIES' SCORECARDS

The following information is tabulated in the annual scorecards, in this particular order:

- Priority
- IDP objective
- Key performance indicator (KPI)
- Audited baseline 2023/24
- Audited baseline 2024/25
- Quarterly targets 2026/27

The City and its municipal entities are held accountable against the quarterly corporate targets.

Service delivery targets and performance indicators in the corporate scorecard cascade into the scorecards of directorates, departments and executive directors (section 57 employees), which are used for internal monitoring of the organisation.

7.2 INDICATOR DEFINITIONS FOR THE 2026/27 ONE-YEAR CORPORATE, MFMA C88 AND THE MUNICIPAL ENTITIES' SCORECARDS

Indicator definitions, and the standard, norm or benchmark of indicators are provided to clarify and contextualise measurements. In terms of Municipal Finance Management Act Circular 88, issued 30 November 2017, section 2.8 and addendum 5 of 2023, section 4.2, prescribe the integration of Circular 88 indicators into the strategic planning documents of the municipality. Furthermore it aligns to the emerging risk issued by the Auditor-General's requirement during the 2022/23 audit.

Note: Amendments are bold and deletions are strikethrough, which were approved by Council via the 2026/27 IDP process.

7.3 2026/27 ONE-YEAR CORPORATE SCORECARD

PRIORITY: ECONOMIC GROWTH

Let's make Cape Town the easiest place to do business and create jobs in Africa
Objective 1: Increased jobs and investment in the Cape Town economy

KEY PERFORMANCE INDICATOR	BASELINE	BASELINE	TARGET				RESPONSIBLE DIRECTORATE
	2023/24	2024/25	QUARTER 1	QUARTER 2	QUARTER 3	QUARTER 4	
1.A Average number of days taken to process building plan applications of less than 500 square metres (HS2.22)	22,81	22,11	25	25	25	25	Spatial Planning and Environment

2026/27 ONE-YEAR CORPORATE SCORECARD DEFINITIONS

All 2022-2027 approved corporate scorecard indicators are included for completeness. The 2026/27 amendments are in bold and deletions are strikethrough.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	1.A Average number of days taken to process building plan applications of less than 500 square metres (HS2.22)	The indicator measures the number of days a building plan application to the municipality takes to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. Measures of the time taken to process appeals of the initial decision, sometimes expressed in relation to "amendment letters" or in terms of a "date of first refusal", are not included within the measurement. Each submission of a complete building plan application starts a new processing cycle for the purpose of the indicator.
	1.B Average number of days taken to process building applications of 500 square metres or more (LED3.13)	The indicator measures the number of days building plan applications of 500 square metres or more take to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. Whether a large building plan application is for commercial or residential purposes does not have a bearing as the proxy of 500 square metres or more is used in this instance. Measures of the time taken to process appeals of the initial decision, sometimes expressed in relation to "amendment letters" or in terms of a "date of first refusal", are not included within the measurement. Each submission of a complete building plan application starts a new processing cycle for the purpose of the indicator.
	1.C Percentage of revenue clearance certificates issued within 10 working days from time of completed application received (LED3.21)	The percentage of revenue clearance certificates issued by the municipality within 10 working days of a completed submission. A revenue clearance certificate is issued by the relevant local municipality, and reflects all of the debts collected on the property, including rates. The purpose of this document is to prove that all the outstanding debt on the property has been paid by the seller. A completed submission refers to the point in time when all necessary information has been supplied in relation to the certificate. The 10 days, in this instance, refer to 10 working days, not days of the week.
	1.D Commercial electricity services applications finalised within industry standard timeframes (%) ~~[REMOVED]~~	Measures the percentage of commercial electricity services applications finalised within industry standard timeframes as set by National Rationalised Standard (NRS 047). Refers specifically to the time taken from the acceptance of quotation until supply is finalised. The exact length of the timeframe is determined by agreement with the customer.
	1.E Council-approved trading plans developed or revised for informal trading (number)	Measures the number of Council-approved trading plans developed or revised for informal trading. A trading plan demarcates trading areas within a particular ward or precinct, thereby giving security of tenure to traders and allowing the City to undertake necessary infrastructure upgrades to the facilities to enable dignified and accessible trading opportunities. Trading plans undergo an extensive public consultative process with all stakeholders in an area and they are deemed completed when they are finally passed by full Council.
	1.F Regulatory impact assessments completed (number)	Measures the number of regulatory impact assessments completed on the City's current by-laws and policies to ensure that they do not impose an unnecessary cost or burden on businesses. They include recommendations, which will need to be implemented by the relevant department. The regulatory impact assessments are deemed completed when they are signed off by the delegated authority in both the Economic Growth Directorate and the relevant line directorate.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
	1.G Number of work opportunities created through public employment programmes (incl. EPWP, CWP and other related employment programmes) (LED1.21)	Simple count of the number of short-term work opportunities provided through the municipality by public employment programmes such as the Expanded Public Works Programme, Community Works Programme and other related infrastructure initiatives. EPWP is a nationwide programme covering all spheres of government and SOEs. EPWP projects employ workers on a temporary or ongoing basis with government, contractors, or other non-governmental organisations under the Ministerial Conditions of Employment for the EPWP or learnership employment conditions. The CWP was established to provide an employment safety net to eligible members of target communities by offering them a minimum number of regular days of work each month. The programme targets unemployed and underemployed people. The stipends participants receive supplement their existing livelihood means and provide them with a basic level of income security. The indicator tracks the number of unique work opportunities generated within the quarter, regardless of the duration.
	1.H Average time taken to finalise informal trading permits (LED3.12)	The indicator measures the average amount of time (taken in days) to finalise informal trading permits within a municipality from the point of complete application to the point of adjudication. An informal trading permit is a permission provided by the municipality to small-scale businesses with limited trading intentions to operate under certain conditions, usually in terms of a by-law, policy or plan governing informal trading in the municipality.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 2. IMPROVED ACCESS TO QUALITY AND RELIABLE BASIC SERVICES	2.A Taps provided in informal settlements (number) (NKPI)	Measures the number of taps provided in informal settlements during the period under review. Some taps may, however, have been vandalised or removed after provision. Proxy measure for NKPI per MSA Regulation 10(a).
	2.B Toilets provided in informal settlements (number) (NKPI)	Measures the number of toilets provided in informal settlements during the period under review. Some toilets may, however, have been vandalised or removed after provision. Proxy measure for NKPI per MSA Regulation 10(a).
	2.C Percentage of recognised informal settlements receiving basic waste removal services (ENV3.11)	The proportion of recognised informal settlements within the municipal area which are receiving at least a basic standard of service for refuse collection and cleaning services all weeks in the year. A "recognised informal settlement" refers to any process whereby the municipality officially documents the existence of the informal settlement and its obligations with regard to servicing its residents. This excludes "known" settlements that may emerge in the course of the reporting as a result of land invasions or on private property which the municipality is not responsible for. If the informal settlement has not received a basic standard of service in duration of more than one week, it should not be counted. Informal settlements that have experienced delayed collection of more than a week, or skipped weeks, are not considered to have received a basic standard of refuse removal.
	2.D Subsidised electricity connections installed (number) (NKPI)	Measures the number of subsidised electricity connections installed per annum in informal settlements, public rental stock backyard dwellings (pilot) and low-cost housing. Proxy measure for NKPI per MSA Regulation 10(a).
	2.E Capacity of additional approved (grid-tied) alternative energy sources (small-scale embedded generation (SSEG)) – Megavolt-ampere (MVA) ~~Installed capacity of approved embedded generators on the municipal distribution network (EE4.12)~~	Measures the total capacity of the additional approved (grid-tied) small-scale embedded generation (SSEG) installations in the municipal distribution network measured in Megavolt-ampere, during the reporting period. (SSEG refers to alternative energy sources, predominantly solar and wind.) ~~The total capacity of the embedded generation installations in the municipal distribution network in mega-volt ampere.~~
	2.F Percentage of valid customer applications for new electricity connections processed in terms of municipal service standards (EE1.13)	This indicator measures the number of valid customer applications for new electricity connections processed within the municipal standard timeframes in relation to the total number of customer applications for new electricity connections. A 'valid customer application' for a new electricity connection refers to an application for which a quote has been supplied and payment made by the applicant, at which point the application becomes 'valid' regardless of whether it is commercial or residential. An electricity connection processed refers to the sequence of procedures between the point of payment for a valid application and obtaining a final connection (end). This refers to procedures within the control of the municipal administration only and excludes processes that sit with the applicant. The indicator measures the percentage of all valid applications where the time taken between the point of payment and the conclusion of the municipal processes leading up to the customer final connection fall within municipal standard timeframes, as differentiated per the relevant facilities and categories of the applicant.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 3. END LOAD-SHEDDING IN CAPE TOWN OVER TIME	3.A Load-shedding level variance (%)	Load-shedding level variance measures the amount of additional energy generated by the City and its contracted suppliers during load-shedding as a percentage of the total demand reduction required by Eskom to keep the network stable.
4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	4.A Sewer reticulation pipeline replaced (metres)	Measures the metres of sewer reticulation pipeline that are replaced.
	4.B Percentage of drinking water samples complying to SANS 241 (WS4.1)	The percentage of water samples measured that comply with the SANS 241 requirements over a 12-month period for the defined parameters. See the SANS 241 requirements for a detailed breakdown of the various tests involved and the associated standard limits for application.
	4.B Compliance with drinking water quality standards (%)	Measures the potable water sample pass-rate according to the SANS 241 standard.
	4.C Total augmented water capacity in megalitres per day	Measures the augmented water production capacity brought online from New Water Programme schemes since the adoption of the Cape Town Water Strategy in 2020 measured in megalitres per day (M _{ED}) as a cumulative total.
	4.D Valid applications for residential water services closed within the response standard (%) (NKPI)	Measures the number of valid applications for residential water services closed within the standard days, expressed as a percentage of the total number of valid applications for residential water services received. Valid applications are residential/domestic applications where service notifications have been created for the water service and down-payment for the service has been received. Proxy measure for NKPI per MSA Regulation 10(a).
	4.E Valid applications for residential sewerage services closed within the response standard (%) (NKPI)	Measures the number of valid applications for residential sewerage services closed within the standard days, expressed as a percentage of the total number of valid applications for residential sewerage services received. Valid applications are residential/domestic applications where service notifications have been created for the sewerage service and down-payment for the service has been received. Proxy measure for NKPI per MSA Regulation 10(a).
	4.F Service requests for non-collection of refuse resolved within three working days (%) (NKPI)	Measures the number of non-collections for refuse removal, reported and closed within three working days, expressed as a percentage.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 SAFETY 5. EFFECTIVE LAW ENFORCEMENT TO MAKE COMMUNITIES SAFER	5.A Drone flights used for safety and security activities (number)	Measures the drone flights used for approved safety and security activities through utilisation of partnerships and contracts, in which the drone technology offers enhanced situational awareness and evidence gathering to the benefit of community safety. Seasonal (weather) constraints, as well as the unknown nature of S&S operations will dictate different quarterly utilisation statistics.
	5.B Roadblocks focused on drinking-and-driving offences (number)	Measures the number of roadblocks held with the focus on addressing drinking-and-driving offences of motorists.
	5.C Closed-circuit television (CCTV) detected incidents relayed to responders (number)	Measures the number of incidents detected on CCTV that were relayed to responders. CCTV incidents monitored by the two CCTV centres require a response in order to deal with an incident. All incidents that require a response must be relayed to the relevant department that can deal with the incident accordingly, i.e. crime, traffic, by-law, fire, other. The number of incidents detected and relayed/ passed on to responders for attention.
6. STRENGTHEN PARTNERSHIPS FOR SAFER COMMUNITIES	6.A New auxiliary law enforcement volunteers recruited (number)	Measures the number of new auxiliary law enforcement volunteers recruited. Volunteers include law enforcement and support officers, in terms of the City's Auxiliary Law Enforcement Policy.
	6.B Client satisfaction survey for neighbourhood watch support programme (%)	Measures the percentage client satisfaction achieved, by means of a survey after every community engagement, in respect of the main deliverables of the neighbourhood watch support programme, i.e. (a) Crime prevention training; (b) Patrol and crime prevention equipment issued; (c) Guidance provided in respect of Department of Community Safety (DoCS) accreditation; and (d) Guidance provided in respect of crime prevention initiatives.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 HOUSING 7. INCREASED SUPPLY OF AFFORDABLE, WELL-LOCATED HOMES	7.A Well-located land parcels released to the private sector for affordable housing (number)	Measures the number of well-located land parcels released to the private sector. Land parcel refers to a single and finite immovable asset with a measurable extent. Land parcel is confirmed as released through final award notification, allowing the developer to commence with development. A land parcel is not necessarily restricted to a singular erf but a developable parcel of land.
	7.B Human settlement top structure (houses) provided (number) per housing programme	Measures the number of human settlement top structures provided per housing programme. Top structures are defined as any built structure providing shelter to a household in a human settlements development by means of any national housing programme, where the main source of funding is the Human Settlements Development Grant (HSDG) in terms of the Division of Revenue Act (DoRA) for such purpose. Definition of a human settlements opportunity per housing programme: A human settlements opportunity is incremental access to and/or delivery of one of the following housing products: (A) subsidy housing (BNG), which provides a minimum 40 m² house; (B) People's Housing Process (PHP) are beneficiaries who maximise their housing subsidy by building or organising the building of their homes themselves; (C) social housing is new rental units, delivered by the City's social housing partners; (D) rental housing, which is community residential units (CRUs), upgrading and redevelopment of existing rental units and hostels; and (E) gap housing is a serviced site, or affordable units for sale.
	7.C Formal housing serviced sites provided (number)	Measures the number of formal serviced sites provided. A serviced site is defined as any property providing municipal services (road, water and sewerage) on an individual basis to a household, including high-density residential sites, as well as other non-residential sites related to integrated human settlements developments. The main source of funding for serviced sites is the Urban Settlements Development Grant (USDG) and the Informal Settlement Upgrading Partnership Grant (ISUPG) in terms of the Division of Revenue Act (DoRA) for such purpose.
	7.D Hectares of land acquired for human settlements in the municipal area (HS1.13)	Hectares of land acquired for human settlements development within the municipal area. Therefore, this refers to land acquired in an agreement between at least two parties for which purchase and sales agreement or donation agreements or expropriation notices have been concluded. The land is understood to have been acquired with the intention of advancing human settlements development within the municipal area, subject to the subsequent completion of any outstanding planning and approval processes.
	7.E Number of title deeds registered to beneficiaries (HS1.22)	The number of title deeds registered to beneficiaries within a municipality during the period under assessment. A title deed is a document that proves legal ownership of a property in South Africa. This refers to title deeds registered to beneficiaries of human settlements programmes within the municipal area.
8. SAFER, BETTER-QUALITY HOMES IN INFORMAL SETTLEMENTS AND BACKYARDS OVER TIME	8.A Informal settlement sites serviced (number)	Measures incremental access to better services as part of an informal settlement upgrading programme: Incremental upgrade of informal areas, which provides a serviced site with or without tenure in accordance with the informal settlement upgrading programme as part of the National Housing Code. A 'serviced site' is defined as a site to which the following services were provided: • Road • Water • Sewerage

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 PUBLIC SPACE, ENVIRONMENT AND AMENITIES 9. HEALTHY AND SUSTAINABLE ENVIRONMENT	9.A Percentage of biodiversity priority areas protected (ENV4.21)	The proportion of land identified through municipal strategic environmental assessments and EMFs as biodiversity priority areas, which is protected through some mechanism. Mechanisms may include stewardship agreements, conventional protected areas, and biodiversity agreements, among others.
	9.B Percentage of biodiversity priority areas within the municipality (ENV4.11)	Proportional share of land cover categories aggregated to relate to biological priority areas within the municipality, relative to the total municipal area. It indicates the presence of available habitats across a municipal area important for maintaining ecological processes, expressed in ha. A decline over time indicates a loss of land supporting biodiversity and local ecosystems. Biodiversity priority areas, or areas of high biodiversity importance, are defined by SANBI (2016) as "Natural or semi-natural areas in the landscape or seascape that are important for conserving a representative sample of ecosystems and species, for maintaining ecological processes, or for the provision of ecosystem services."
	9.C Severe/moderate dehydration in children under the age of five presenting at City health facilities with diarrhoea (%)	Measures the percentage of children under five years with diarrhoea presenting to City health facilities that have severe or moderate dehydration.
10. CLEAN AND HEALTHY WATERWAYS AND BEACHES	10.A Percentage of coastline with protection measures in place (ENV5.11)	The percentage of coastline with protection measures in place within the municipal area. Protection measures refer to measures for protecting the coastal environment from activities that may detrimentally affect it and are inclusive of periodic maintenance. Protection measures are divided into four main categories: Hard (options influence coastal processes to stop or reduce the rate of coastal erosion.); Soft (aim to dissipate wave energy by mirroring natural forces and maintaining the natural topography of the coast); Combined (combining hard and soft solutions is sometimes necessary to improve the efficiency of the options and provide an environmentally and economically acceptable coastal protection system); and Innovative (exploited advancements in specific areas of engineering associated with erosion control namely geotextiles and beach drainage). Protection measures are therefore inclusive of managed retreat too.
	10.B Days in a year that vleis are open (%)	Measures the percentage of days in a year that the Rietvlei, Zeekoievlei and Zandvlei are open to intermediate contact recreation, excluding dredging and other management activities.
11. QUALITY AND SAFE PARKS AND RECREATION FACILITIES SUPPORTED BY COMMUNITY PARTNERSHIPS	11.A Recreation and Parks open spaces mowed according to annual mowing plan (%)	Measures the implementation of the Recreation and Parks Department's public open space mowing activities during the year compared to what was planned on the mowing schedule. The minimum mowing cycle targets, and ability to meet these targets, are directly linked to the budget available for the project. The measurement is the frequency of actual mowing versus what was planned on the mowing schedule, measured as a percentage. Actual implementation to be compared to what was planned, using minimum mowing standards as articulated in the departments documented "standards per facility type".
 TRANSPORT 12. A SUSTAINABLE TRANSPORT SYSTEM THAT IS INTEGRATED, EFFICIENT AND PROVIDES SAFE AND AFFORDABLE TRAVEL OPTIONS FOR ALL	12.A Passengers transported for each kilometre scheduled on MyCiTi buses (ratio)	Measures the ratio of the passengers transported for each kilometre scheduled on MyCiTi buses. The aim is to have more passengers travelling per kilometre scheduled on the MyCiTi transport system. The purpose of the indicator is to measure efficiency improvements in the usage of MyCiTi buses.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 TRANSPORT 12. A SUSTAINABLE TRANSPORT SYSTEM THAT IS INTEGRATED, EFFICIENT AND PROVIDES SAFE AND AFFORDABLE TRAVEL OPTIONS FOR ALL	12.B Passenger journeys travelled on MyCiTi buses (number)	Measures the number of passenger journeys travelled on MyCiTi buses. An efficient, integrated transport system is measured in part through the increase in passenger journeys undertaken. A passenger journey is calculated from the first boarding of a bus at a feeder stop or main station to the last exit from a bus at a feeder stop or main station, including any transfers between buses (single journey).
	12.C Road corridors on which traffic signal timing plans are updated (number)	Measures the number of road corridors on which the traffic signal timing plans were updated to account for the impact of changing traffic volumes and patterns on the manner in which traffic signals are coordinated.
13. SAFE AND QUALITY ROADS FOR PEDESTRIANS, CYCLISTS AND VEHICLES	13.A Surfaced road resurfaced (km)	Measures the km of surfaced roads resurfaced.
	13.B Number of potholes reported per 10 km of municipal road network	The indicator measures the number of potholes reported to the municipality normalised for the length of the municipality's surfaced road network. A municipal road network typically consists of residential roads and roads in built-up areas within its borders, that allow for the movement of goods, services and people that are the responsibility of the municipality to maintain. Potholes are defined as a depression in a road surface, usually asphalt pavement, where traffic has removed broken pieces of the pavement. It is usually the result of water in the underlying soil structure and traffic passing over the affected area. This indicator does not count multiple reports of the same pothole at the same location. Each municipality may have different systems or protocols to determine when it receives multiple reports for the same pothole. The Standard Operating Procedure by the municipality for the indicator should be instructive in this regard.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A RESILIENT CITY 14. A RESILIENT CITY	14.A Public safety awareness and preparedness sessions held in the communities (number)	Measures the number of public and safety awareness sessions with communities based on various risk profiles, community-based risk assessments and social media contact.
	14.B New Disaster Risk Management volunteers recruited (number)	Measures the number of disaster risk management volunteer members recruited from the community and, after appropriate training, officially appointed as volunteers.
	14.C Stormwater cleaning budget spent (%)	Measures the percentage budget spent on stormwater cleaning.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A MORE SPATIALLY INTEGRATED AND INCLUSIVE CITY 15. A MORE SPATIALLY INTEGRATED AND INCLUSIVE CITY	15.A Local neighbourhood development plans approved for mixed use development (number) 15.A Local neighbourhood plans approved for mixed use development (number)	Measures the number of local neighbourhood development plans approved by Council. A local neighbourhood development plan could be a spatial development framework, a precinct plan, site development plan, development application or overlay zone that identifies areas for, among others, mixed-use development. Measures the number of local neighbourhood plans approved by Council. A local neighbourhood plan could be a spatial development framework or a precinct plan that identifies areas for, amongst others, mixed use development, which would facilitate integration of land use.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	16.A Community satisfaction citywide survey (score 1-5)	Measures the score on the community satisfaction citywide survey. A statistically valid, scientifically defensible score from the annual survey of residents' perceptions of the overall performance of the City's safety and security services. The measure is given against a non-symmetrical Likert scale, where 1 is poor, 2 is fair, 3 is good, 4 is very good, and 5 is excellent. The objective is to improve the current customer satisfaction level.
	16.B Opinion of independent rating agency	Measure the opinion of the independent rating agency. A report that reflects the creditworthiness of an institution to repay long-term and short-term liabilities. Credit ratings provide an analysis of the City's key financial data and are performed by an independent agency to assess the City's ability to meet short and long-term financial obligations. Indicator standard/norm/benchmark: The highest rating possible for local government, which is also subject to the country's sovereign rating.
	16.C Audit outcome (GG3.1)	The audit opinion is defined by the Auditor-General. It is given across a qualitative, ordinal scale including: Unqualified with no findings; Unqualified with findings; Qualified with findings; Adverse with findings; and Disclaimed with findings. For those who have not completed the process 'Outstanding audits' are recorded.
	16.D Total capital expenditure as a percentage of total capital budget less contingencies (%) (FM1.11)	This indicator measures the extent to which budgeted capital expenditure has been spent during the financial year. Capital expenditure is all costs incurred by the municipality to acquire, upgrade, and renew physical assets such as property, plants, buildings, technology, or equipment.
	16.E Cash/cost coverage ratio (NKPI) (FM3.11)	Measures the cash/cost coverage ratio. The ratio indicates the ability to meet at least monthly fixed operating commitments from cash and short-term investments, without collecting any additional revenue during that month (excluding unspent conditional grants). Proxy measure for NKPI per MSA Regulation 10(g). The ratio indicates the municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term investments, without collecting any additional revenue during that month.
	16.F Net debtors to annual income (NKPI)	Measures the net debtors to annual income. Net current debtors are a measurement of the net amounts due to the City that are realistically expected to be recovered. Proxy measure for NKPI per MSA Regulation 10(g).

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	16.G Debt (total borrowings) to total operating revenue (NKPI) 16.G Percentage of total operating revenue to finance total debt (Total debt (Borrowing) / Total operating revenue) (FM2.1)	Measures the debt to total revenue. The purpose of the ratio is to provide assurance that sufficient revenue will be generated to repay liabilities. Proxy measure for NKPI per MSA Regulation 10(g). The purpose of the indicator is to provide assurance that sufficient revenue will be generated to repay liabilities. Alternatively, it assesses the municipality's affordability of the total borrowings.
	16.H Kilometres of fibre infrastructure for broadband connectivity installed (km)	Measures the kilometres of fibre cable installed by the City; this excludes all private sector infrastructure networks.
	16.I Employees from the Employee Equity (EE) designated groups in the three highest levels of management (%) (NKPI)	Measures the percentage of employees from employee equity (EE) target (designated) groups employed in the three highest levels of management, in compliance with the City's approved EE plan and EE Act. Management level 1 – City Manager and executive directors Management level 2 – Portfolio managers and directors Management level 3 – Managers Proxy measure for NKPI per MSA Regulation 10(e).
	16.J Budget spent on implementation of Workplace Skills Plan (%) (NKPI)	Measures the percentage of budget spent on the Workplace Skills Plan. The Workplace Skills Plan outlines the planned education, training and development interventions for the organisation. Its purpose is to formally plan and allocate budget for appropriate training interventions that will address the needs arising out of local government's skills sector plan, the IDP, the individual departmental staffing strategies, individual employees' personal development plans and the employment equity plan. Proxy measure for NKPI per MSA Regulation 10(f).
	16.K Percentage of official complaints responded to through the municipal complaint management system (GG2.31)	The number of official complaints responded to as per the municipality defined norms and standards, as a percentage of the number of official complaints received. A complaint is any formal grievance, concern or issue registered with the municipality as per its established systems and protocols. An official complaint, in this instance, should be formally logged within the Municipal Complaints Management System. "Norms and standards" refer to the municipality's agreed ability to respond promptly and appropriately to the complaints from the public, in line with protocols determined by the municipality, whether or not this is consistent with any external guidance or benchmarking. Note that resolution refers to an official municipal response to the complaint and does not provide for a determination of "satisfaction" with the municipal response on the part of the public.

7.4 2026/27 ONE-YEAR MFMA CIRCULAR 88 OUTPUT SCORECARD

PRIORITY: ECONOMIC GROWTH

Let's make Cape Town the easiest place to do business and create jobs in Africa
Objective 1: Increased jobs and investment in the Cape Town economy

KEY PERFORMANCE INDICATOR	BASELINE	BASELINE	TARGET				RESPONSIBLE DIRECTORATE
	2023/24	2024/25	QUARTER 1	QUARTER 2	QUARTER 3	QUARTER 4	
HS2.22 Average number of days taken to process building plan applications of less than 500 square metres	22,81	22,11	25	25	25	25	Spatial Planning and Environment
LED1.11 Percentage of total municipal operating expenditure spent on contracted service providers physically residing within the municipal area	88%	86,02%	80%	80%	80%	80%	Finance
LED1.21 Number of work opportunities created through public employment programmes (incl. EPWP, CWP and other related employment programmes)	43 962	40 053	7 500	12 500	22 500	30 000	Urban Waste Management
LED1.31 Number of individuals connected to apprenticeships, learnerships and structured educational programmes through municipal interventions	440	1 594	661	693	724	747	Corporate Services
LED2.11 Percentage of budgeted rates revenue collected	99,1%	97,48%	23%	46%	69%	92%	Finance
LED2.12 Percentage of the municipality's operating budget spent on indigent relief for free basic services	Barrier ¹	Barrier ¹	1,40%	3,17%	4,95%	7,06%	Finance
LED3.11 Average time taken to finalise business licence applications	49,70	49,66	60	60	60	60	Community Services and Health
LED3.12 Average time taken to finalise informal trading permits	41,20	28,72	24	24	24	24	Economic Growth

ENV4.21 Percentage of biodiversity priority areas protected	65,27%	68,13%	A/T ²	A/T ²	A/T ²	65,8%	Spatial Planning and Environment

¹ Barrier – A baseline of barrier indicates that the indicator was a barrier - the City experienced system and/or data limitations.

² A/T – Annual target

³ Exempted - Indicators were exempted for external reporting by National Treasury.

Objective 10: Clean and healthy waterways and beaches							
KEY PERFORMANCE INDICATOR	BASELINE	BASELINE	TARGET				RESPONSIBLE DIRECTORATE
	2023/24	2024/25	QUARTER 1	QUARTER 2	QUARTER 3	QUARTER 4	
ENV5.11 Percentage of coastline with protection measures in place	6,27%	6,27%	6,27%	6,27%	6,27%	6,27%	Spatial Planning and Environment
ENV5.12 Number of coastal water samples taken for monitoring purposes	860	488	861	1 749	2 637	396 ⁴	Spatial Planning and Environment
ENV5.21 Number of inland water samples taken for monitoring purposes	Barrier ¹	3 429	575	1 155	1 825	2 300	Water and Sanitation

PRIORITY: TRANSPORT

Let's improve urban mobility through safe, reliable and affordable public transport and well-maintained roads

Objective 12: A sustainable transport system that is integrated, efficient and provides safe and affordable travel options for all

KEY PERFORMANCE INDICATOR	BASELINE	BASELINE	TARGET				RESPONSIBLE DIRECTORATE
	2023/24	2024/25	QUARTER 1	QUARTER 2	QUARTER 3	QUARTER 4	
TR4.21 Percentage of municipal bus services 'on time'	Barrier ¹	Barrier ¹	80%	80%	80%	80%	Urban Mobility
TR5.11 Number of scheduled public transport access points added	0	0	A/T ²	A/T ²	A/T ²	0	Urban Mobility
TR5.31 Percentage of scheduled municipal bus trips that are universally accessible	82%	Barrier ¹	Barrier ¹	Barrier ¹	Barrier ¹	Barrier ¹	Urban Mobility
System limitation as it is not feasible to report in accordance with the technical indicator description. The measurement of universally accessible trips is not clear relating to the deployment of boarding bridges. Steps: During the various engagements held in 2025, National Treasury (NT) indicated that technical guidance would be sought from the Department of Transport related to any definitional revisions for universal accessibility and accessibility provisions that should apply. They did indicate that the matter would be addressed at the Transport and Roads Technical Working Group, however the City's concerns have not yet been addressed. The City will further engage NT for guidance on the indicator. Estimated date of audit readiness: 2027/28							

Objective 13: Safe and quality roads for pedestrians, cyclists and vehicles							
KEY PERFORMANCE INDICATOR	BASELINE	BASELINE	TARGET				RESPONSIBLE DIRECTORATE
	2023/24	2024/25	QUARTER 1	QUARTER 2	QUARTER 3	QUARTER 4	
TR6.11 Percentage of unsurfaced road graded	Barrier ¹	116,62%	30%	65%	90%	100% ⁵	Urban Mobility

2026/27 ONE-YEAR MFMA CIRCULAR 88 OUTPUT SCORECARD DEFINITIONS

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	HS2. Improved functionality of the residential property market	HS2.22 Average number of days taken to process building plan applications of less than 500 square metres	The indicator measures the number of days a building plan application to the municipality takes to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. Measures of the time taken to process appeals of the initial decision, sometimes expressed in relation to "amendment letters" or in terms of a "date of first refusal" are not included within the measurement. Each submission of a complete building plan application starts a new processing cycle for the purpose of the indicator.
	LED1. Growing inclusive local economies	LED1.11 Percentage of total municipal operating expenditure spent on contracted service providers physically residing within the municipal area	This indicator measures the value of municipal operating expenditure that has been spent on payments to contracted organisations with a physical address within the municipal area as a percentage of the total operating expenditure on payments to all contracted organisations. Contracted service providers are inclusive of consultancy services and refer to services rendered by any entity outside of the municipality secured through a public procurement process.
	LED1. Growing inclusive local economies	LED1.21 Number of work opportunities created through public employment programmes (incl. EPWP, CWP and other related employment programmes)	Simple count of the number of short-term work opportunities provided through the municipality by public employment programmes such as the Expanded Public Works Programme, Community Works Programme and other related infrastructure initiatives. EPWP is a nationwide programme covering all spheres of government and SOEs. EPWP projects employ workers on a temporary or ongoing basis with government, contractors, or other non-governmental organisations under the Ministerial Conditions of Employment for the EPWP or learnership employment conditions. The CWP was established to provide an employment safety net to eligible members of target communities by offering them a minimum number of regular days of work each month. The programme targets unemployed and underemployed people. The stipends participants receive supplement their existing livelihood means and provide them with a basic level of income security. The indicator tracks the number of unique work opportunities generated within the quarter, regardless of the duration.
	LED1. Growing inclusive local economies	LED1.31 Number of individuals connected to apprenticeships, learnerships and structured educational programmes through municipal interventions	The number of individuals connected to apprenticeships, structured educational programmes and learnerships through municipal interventions. Municipal interventions refer to any project, programme or initiative intended to facilitate or implement change among the target population. Apprenticeships, structured educational programmes and learnerships, in this instance, refer specifically to structured learning processes for gaining theoretical knowledge and practical skills in the workplace leading to an accreditation or qualification recognised in terms of the National Qualifications Authority.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	LED2. Improved levels of economic activity in municipal economic spaces	LED2.11 Percentage of budgeted rates revenue collected	The R-value of the rates revenue as a percentage of the total rates revenue operating budget. Municipal property rates are an amount levied on the market value of immovable property (that is, land and buildings). Revenue, in this instance, refers to income collected by the municipality in R-value within the designated financial period. The operating rates revenue budget refers to the amount of the municipal operational budget, which was targeted within the municipal budget as approved by Council for the financial year.
	LED2. Improved levels of economic activity in municipal economic spaces	LED2.12 Percentage of the municipality's operating budget spent on indigent relief for free basic services	The amount municipal operating budget expended on free basic services to indigent households (R-value) as a percentage of the total operating budget of the municipality for the period. Free basic services are understood in terms of water, sanitation, electricity and waste removal services only.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.11 Average time taken to finalise business license applications	The indicator measures the average number of working days a business owner can expect to wait from the date of submission of a complete business license application to the date of outcome of licensing decision from the municipality. Business license applications refer to those businesses applying in terms of the Business Act of 1991. A 'complete application' refers to the point at which all of the required administrative information has been supplied, allowing the municipality to proceed with the processing. A 'finalised' application refers to an application where the municipality has taken a decision to approve or deny the application. An application is considered finalised at the point of the decision, regardless of the time between the decision and the communication of the application outcome.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.12 Average time taken to finalise informal trading permits	The indicator measures the average amount of time (taken in days) to finalise informal trading permits within a municipality from the point of complete application to the point of adjudication. An informal trading permit is a permission provided by the municipality to small-scale businesses with limited trading intentions to operate under certain conditions, usually in terms of a by-law, policy or plan governing informal trading in the municipality.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	LED3. Improved levels of economic activity in municipal economic spaces	LED3.13 Average number of days taken to process building applications of 500 square metres or more	The indicator measures the number of days building plan applications of 500 square metres or more take to be processed, from the date of submission of all required information to the date of communication of the initial adjudication results of that application, on average, per application. Whether a large building plan application is for commercial or residential purposes does not have a bearing as the proxy of 500 square metres or more is used in this instance. Measures of the time taken to process appeals of the initial decision, sometimes expressed in relation to "amendment letters" or in terms of a "date of first refusal" are not included within the measurement. Each submission of a complete building plan application starts a new processing cycle for the purpose of the indicator.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.21 Percentage of revenue clearance certificates issued within 10 working days from time of completed application received	The percentage of revenue clearance certificates issued by the municipality within 10 working days of a completed submission. A revenue clearance certificate is issued by the relevant local municipality, and reflects all of the debts collected on the property, including rates. The purpose of this document is to prove that all the outstanding debt on the property has been paid by the seller. A completed submission refers to the point in time when all necessary information has been supplied in relation to the certificate. The 10 days, in this instance, refer to 10 working days, not days of the week.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.31 Average number of days from the point of advertising to the letter of award per 80/20 procurement process	The average number of days from the point of advertising to the letter of award per 80/20 procurement process. An 80/20 procurement process refers to public procurement as per the terms of the Preferential Procurement Regulations in terms of the Preferential Procurement Policy Framework Act for bids where an 80/20 Broad-Based Black Economic Empowerment (B-BBEE) threshold of between R30 000 and R50 million applies. This would apply to tenders awarded within the financial year, and where disputes to the outcome of the tender process were not raised. This does not apply to requests for quotations.
	LED3. Improved levels of economic activity in municipal economic spaces	LED3.32 Percentage of municipal payments made to service providers who submitted complete forms within 30-[MN1.1]days of invoice submission	The percentage of municipal payments made to service providers within 30-days of complete invoice submission. The indicator measures the number of payments made on the basis of invoice submissions to the municipality within the accepted standard of 30 days or less. This measures 30 calendar days from the time of submission of an accurate invoice.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 2. IMPROVED ACCESS TO QUALITY AND RELIABLE BASIC SERVICES	EE2. Improved affordability of electricity	EE2.11 Percentage of total residential electricity provision allocated as Free Basic Electricity (FBE)	This indicator measures the reliance of municipal residents on FBE for access to electricity by measuring how much electricity provided by the municipality in MWh is subsidised through FBE. In other words, this indicator measures the extent of free electricity provided by the municipality to its residents as a percentage of the overall total amount of electricity sold to residential customers. This is inclusive of free allocations to indigent households. FBE is an amount of electricity determined by municipal policy provided on a monthly basis for free with the aim of assisting poor households to meet basic needs. Depending on the municipal policy, FBE may or may not be targeted exclusively at poor households.
	EE3. Improved reliability of electricity services	ENV3.11 Percentage of recognised informal settlements receiving basic waste removal services	The proportion of recognised informal settlements within the municipal area which are receiving at least a basic standard of service for refuse collection all weeks in the year. A "recognised informal settlement" refers to any process whereby the municipality officially documents the existence of the informal settlement and its obligations with regard to servicing its residents. This excludes "known" settlements that may emerge in the course of the reporting as a result of land invasions or on private property which the municipality is not responsible for. If the informal settlement has not received a basic standard of service in duration of more than one week, it should not be counted. Informal settlements that have experienced delayed collection of more than a week, or skipped weeks, are not considered to have received a basic standard of refuse removal.
 BASIC SERVICES 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	EE4. Improved energy sustainability	EE4.41 Industrial and commercial metering performance	The indicator measures the progress and maturity of the billing part of the revenue cycle that is active and in operation that should migrate towards a perfect (100%) score. It tracks industrial and commercial meters in full billing operation at point of delivery (POD) as a percentage of the total industrial and commercial customers. This is measured monthly but calculated as an annual average proportion. The sum of the industrial and commercial meters that meet this condition monthly are divided by the total number of industrial and commercial customers aggregated over the 12 billing cycles of the year.
	EE4. Improved energy sustainability	EE4.42 Prepayment efficiency	The indicator tracks the performance of the vending system selling prepaid tokens to customers monthly. The indicator measures whether the prepayment meters in the system are active and receive tokens for energy purchases on a monthly basis. The indicator is seeking to encourage maximum efficiency for prepayment sales.
	EE4. Improved energy sustainability	EE4.43 Percentage of automated meter reading coverage	The indicator measures the automated meter reading (AMR) that is operating as a percentage of total installed industrial and commercial metering.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	EE1. Improved access to electricity	EE1.11 Number of dwellings provided with connections to mains electricity supply by the municipality	The number of new residential electricity connections to dwellings energised by the municipality.
	EE1. Improved access to electricity	EE1.13 Percentage of valid customer applications for new electricity connections processed in terms of municipal service standards	This indicator measures the number of valid customer applications for new electricity connections processed within the municipal standard timeframes in relation to the total number of customer applications for new electricity connections. A 'valid customer application' for a new electricity connection refers to an application for which a quote has been supplied and payment made by the applicant, at which point the application becomes 'valid' regardless of whether it is commercial or residential. An electricity connection processed refers to the sequence of procedures between the point of payment for a valid application and obtaining a final connection (end). This refers to procedures within the control of the municipal administration only and excludes processes that sit with the applicant. The indicator measures the percentage of all valid applications where the time taken between the point of payment and the conclusion of the municipal processes leading up to the customer final connection fall within municipal standard timeframes, as differentiated per the relevant facilities and categories of the applicant.
	EE3. Improved reliability of electricity services	EE3.11 Percentage of unplanned outages that are restored to supply within industry standard timeframes	The proportion of unplanned electricity outages where at least 98% of the customers affected by the outage have their electricity supply restored within 24 hours of the incident. The industry standard NRS 047 specifies the restoration of electricity supply to differing proportions of affected customers within the standards of 1,5; 3,5; 7,5; 24; and 168 hours or less. This indicator tracks the 24-hour standard whereby at least 98% of customers affected by an unplanned outage have had their electricity restored. An unplanned outage is defined as a network event that occurs when a piece of equipment is taken out of service immediately, either automatically or as soon as switching operations can be performed, as a direct result of emergency conditions or a major natural event, such as risk to life or equipment.
	EE3. Improved reliability of electricity services	EE3.21 Percentage of planned maintenance performed	This is a measure of the actual executed maintenance jobs planned as a percentage of budgeted planned maintenance effort in scheduled 'jobs'. A 'job' is a planned maintenance task scheduled by the municipality.
	WS1. Improved access to sanitation	WS1.11 Number of new sanitation connections meeting minimum standards	The total number of new sanitation connections (defined as connections to a flush toilet connected to the sewerage system or connected to an on-site sanitation system like a septic tank or a VIP toilet) made by the municipality. This is inclusive of new sanitation connections to communal facilities that meet basic sanitation standards.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	WS2. Improved access to water	WS2.11 Number of new water connections meeting minimum standards	Total number of new water connections meeting minimum standards (supply of water is piped (tap) water inside dwelling/institution, piped (tap) water inside yard, and/or communal standpipe: <200 m) made by the municipality. This is inclusive of new water connections to communal facilities that meet minimum standards.
	WS3. Improved quality of water and sanitation services	WS3.11 Percentage of callouts responded to within 24 hours (sanitation/ wastewater)	Percentage callouts (inclusive of outages logged with the municipality and complaints related to outages) responded to within 24 hours (sanitation/ wastewater). Responded to means that someone is on site and has initiated a process of resolving the matter within 24 hours. This does not mean the callout was resolved, only that the matter was logged, appraised and responded to within 24 hours of notification.
	WS3. Improved quality of water and sanitation services	WS3.21 Percentage of callouts responded to within 48 hours (water)	Percentage callouts (outages inclusive of complaints logged over outages) responded to within 48 hours (water). Responded to means that someone is on site and has initiated a process of resolving the matter within 48 hours. This does not mean the callout was resolved, only that the matter was logged, appraised and responded to within 48 hours of notification.
	WS4. Improved quality of water (incl. wastewater)	WS4.11 The percentage of water treatment capacity unused	The percentage of water treatment capacity unused. Water treatment capacity refers to the maximum amount of water that a facility can safely process. The indicator measures the difference between the maximum amount the infrastructure can handle in terms of its available design capacity and the amount currently in use, as a percentage of the total capacity. 'Available design capacity' refers to the overall design capacity that is available on a daily basis. If part of the treatment facility requires refurbishment or is not in operation this should be excluded from 'available design capacity'.
	WS4. Improved quality of water (incl. wastewater)	WS4.21 Percentage of trade effluent producers inspected for compliance	Number of industrial producers with trade effluent that are inspected during the assessment period as a percentage of the total number of registered industrial producers with trade effluent, at the end of the municipal financial year. Inspections are only counted once per registered industry organisation, regardless of whether multiple inspections follow from the original visit.
	WS4. Improved quality of water (incl. wastewater)	WS4.31 Percentage of wastewater treatment capacity unused	Wastewater treatment capacity refers to the maximum amount of sewage that a facility is allowed to treat or to direct to a particular reuse or effluent disposal system. This refers to the collective available design capacity of all facilities servicing the municipal area. 'Available design capacity' refers to the overall design capacity that is available on a daily basis. If part of the treatment facility requires refurbishment or is not in operation, this should be excluded from 'available design capacity'.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	WS4. Improved quality of water (incl. wastewater)	WS5.21 Infrastructure Leakage Index	The Infrastructure Leakage Index is derived from the structural and operational characteristics of the entire water infrastructure network. It is measured in terms of the real water loss from the supply network of physical distribution systems.
	WS4. Improved quality of water (incl. wastewater)	WS5.31 Percentage of total water connections metered	The number of metered water connections as a percentage of the total number of connections in the municipality.
	WS5. Improved water sustainability	WS5.32 Percentage of metering performance	The percentage of water connections metered and billed monthly on actual monthly readings. This indicator evaluates the financial sustainability and water use efficiency of municipalities by tracking accurate metering, and billing practices. This is inclusive of all billed metered water connections, whether residential, commercial, industrial and/or Free Basic water connections.
	ENV2. Minimised solid waste	ENV2.31 Percentage functionality of municipal weighbridge infrastructure	The indicator tracks the presence and functionality of weighbridges at all active municipal landfills and transfer station sites. Weighbridge uptime per site is measured in days and is used as a proxy for data availability, the veracity of waste mass, vehicle trips, and logistics performance. Functionality of municipal weighbridges per site is therefore measured in the number of weighbridge uptime days based on calibrated status of the weighbridge. Calibration status is determined on the basis of a valid calibration certificate for each weighbridge within the 12 months preceding the date of reporting. The uptime days for weighbridges with without valid certificates will not be considered functional. There may be multiple weighbridges operating in parallel at a single site – typically at least two. Compliance is therefore assessed at site level rather than individual weighbridge. Transfer station – A facility where waste is temporarily stored before it is transported more economically to either recycling centres or landfills (Municipal Waste Sector Plan, 2012). Landfill site – An authorised site for the controlled disposal of waste materials, also known as a waste disposal site (Municipal Waste Sector Plan, 2012).

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	ENV2. Minimised solid waste	ENV2.32 Percentage compliance of waste management facilities	This indicator measures the degree of compliance of waste management facilities with the auditing, monitoring, and reporting requirements mandated under the National Environmental Management: Waste Act (NEM:WA) of 2008 and associated norms and standards. Specifically, it requires: • Completion and submission of both internal and external environmental audit reports by licensed or registered waste management facilities, in accordance with the frequency and scope prescribed by their licences or applicable norms and standards; • Submission of audit reports to the competent authority within stipulated timelines; • Public disclosure of external audit reports to ensure transparency and accountability to local communities and stakeholders; and • Facilities that are not licensed or registered receive a score of zero, to incentivise formal compliance and registration. A waste management facility is any facility that requires a waste management licence OR a norms and standards registration, as both these categories of facility (and associated waste management activities) have prescribed external auditing requirement in terms of NEM:WA(2008). A general waste storage facility means a storage facility that has a capacity to store in excess of 100 m3 of general waste continuously. Drop-off site – A facility where the public is able to drop off garden refuse, source separated recyclables and bulky waste, for which there is no kerb-side collection service. These are formal, constructed sites. These sites are for residents only and trade waste is not accepted.
	ENV2. Minimised solid waste	ENV2.33 Percentage of landfill sites with airspace monitoring	The indicator measures whether municipalities conduct and maintain annual topographical surveys and airspace assessments for all operational landfill sites. This looks at the number of operational landfill sites with valid topographical and airspace assessment reports – those are reports produced within the last 12 months (within the financial year of reporting). This is calculated as a proportion of the overall number of operational landfill sites, regardless of whether they are compliant waste management facilities. While the calculation is based solely on the availability of survey reports for sites, the indicator supports broader objectives, including informed landfill operations, long-term capacity planning, and accurate financial provisioning for rehabilitation liabilities.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 SAFETY 5. EFFECTIVE LAW ENFORCEMENT TO MAKE COMMUNITIES SAFER	FD1. Mitigated effects of fires and disasters	FD1.11 Percentage compliance with the required attendance time for structural firefighting incidents	Structural fire incidents are defined as incidents of fire outbreaks in habitable formal structures (buildings that have approved building plans) and habitable informal structures (informal residential dwellings where no approved building plans exist). The indicator measures the percentage of times that these incidents receive a response within the 14-minute standard. This measure of the attendance time is the difference between the time of call (the time an official call or notice is received at the official call or reporting centre) and the arrival time (refers to the time captured for the first arriving firefighting response unit regardless from where dispatched or regardless of order of dispatch). The indicator therefore measures the number of all incidents where the attendance time was 14 minutes or less as a percentage of all incidents. Attendance time is the difference between the time of call and the time of arrival of the first arriving firefighting response unit at the given address of the incident, i.e. Attendance time = Time of arrival at given address - Time call received by ECC personnel and equipment in minutes and seconds for the year (numerator) divided by the number of fire department responses in the same year (denominator).

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 HOUSING 7. INCREASED SUPPLY OF AFFORDABLE, WELL-LOCATED HOMES	HS1. Improved access to adequate housing	HS1.11 Number of subsidised housing units constructed using various human settlements programmes	The number of all subsidised housing units (in terms of minimum levels of service) constructed within the municipal area in the reporting period. Constructed within the municipal area refers to all housing units with finished construction within the municipal area built in terms of the various human settlements programmes for which the provincial government receives the Human Settlements Development Grant (HSDG). This refers to any unit in which a subsidisation on the housing unit is provided, inclusive of all human settlements programmes.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 HOUSING 7. INCREASED SUPPLY OF AFFORDABLE, WELL-LOCATED HOMES	HS1. Improved access to adequate housing	HS1.12 Number of serviced sites	A site refers to a pre-determined area where basic services can be provided, there is some degree of security of tenure, and to which a household can be situated or relocated and/or upgraded. This refers to the number of all sites serviced with a new connection(s) achieving water and sanitation to a basic level of service, as well as road access, within the municipality. These sites do not include the construction of top structures. A basic level of service is defined as an individual service to each site for water and sanitation (not shared) meeting the national minimum standard (the regulations in terms of the Water Services Act in the case of water and sanitation), or the minimum standards defined by the municipality, whichever is higher. The indicator only measures from the point when the specified basic services have been connected, regardless of the timeframes between when water and sanitation connections and road access are provided. This refers to direct connections only and does not provide for indirect connections.
	HS1. Improved access to adequate housing	HS1.13 Hectares of land acquired for human settlements in the municipal area	Hectares of land acquired for human settlements development within the municipal area. Therefore, this refers to land acquired in an agreement between at least two parties for which purchase and sales agreement or donation agreements or expropriation notices have been concluded, inclusive of finalised devolution processes. The land is understood to have been acquired with the intention of advancing human settlements development within the municipal area, subject to the subsequent completion of any outstanding planning and approval processes.
	HS1. Improved access to adequate housing	HS1.22 Number of title deeds registered to beneficiaries	The number of title deeds registered to beneficiaries within a municipality during the period under assessment. A title deed is a document that proves legal ownership of a property in South Africa. This refers to title deeds registered to beneficiaries of human settlements programmes within the municipal area.
	HS2. Improved functionality of the residential property market	HS2.21 Number of residential properties developed through state-subsidised human settlements programmes entering the municipal valuation roll	The indicator is defined as the number of residential properties that have entered the municipal valuation roll, inclusive of the supplementary valuation roll, following from incremental interventions in terms of the National Housing Code (2009). This includes "zero-rated" properties that enter the municipal valuation roll after completion of human settlements programme outputs (e.g. housing units). This does not include all those benefiting only from financial interventions, but focuses on the outputs of housing programmes specifically. It is inclusive of properties developed through informal settlement upgrading and formalisation processes that result in properties being added to the municipal valuation roll.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 HOUSING 8. SAFER, BETTER-QUALITY HOMES IN INFORMAL SETTLEMENTS AND BACKYARDS OVER TIME	HS1. Improved access to adequate housing	HS1.31 Number of informal settlements assessed (enumerated and classified)	The number of designated informal settlements within the municipal area enumerated and classified according to the NUSP categorisation, or equivalent. Enumeration includes the collection of household level data of informal settlement residents, as well as the levels and status of services in the settlement.
	HS1. Improved access to adequate housing	HS1.32 Number of informal settlements upgraded to Phase 2	This indicator measures the number of informal settlements upgraded to Phase 2, in terms of the Housing Code – Upgrading Informal Settlements, Phase 2: Project Initiation. “...Upgraded to Phase 2” is achieved when all the milestones as per Upgrading Informal Settlements Phase 2 have been implemented within an informal settlement. This is inclusive of the following: acquisition of land where required; undertaking of a clear socioeconomic and demographic profile/survey of the settlement; establishing an agreement between the community and municipality; installation of interim services to provide basic water and sanitation services to households on an interim basis; conducting of pre-planning studies to determine detailed geotechnical conditions; and the undertaking of an environmental impact assessment to support planning processes.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 PUBLIC SPACE, ENVIRONMENT AND AMENITIES 9. HEALTHY AND SUSTAINABLE ENVIRONMENT	ENV1. Improved air quality	ENV1.12 Percentage of AQ monitoring stations providing adequate data over a reporting year	The proportion of air quality (AQ) monitoring stations that are sufficiently functional to provide an accurate indication of air quality over a full reporting year in the municipal area is assessed. Currently, functionality is defined as the capability to provide at least 75% of a full year's worth of anticipated, validated data. In cases where a monitoring station does not plan to collect data for specific air quality measurements, it should not be judged against parameters for which it is not positioned to collect data. The 75% data requirement is specific to each respective station's planned samples for the year.
	ENV4. Biodiversity is conserved and enhanced	ENV4.11 Percentage of biodiversity priority areas within the municipality	Proportional share of land cover categories aggregated to relate to biological priority areas within the municipality, relative to the total municipal area. It indicates the presence of available habitats across a municipal area important for maintaining ecological processes, expressed in ha. A decline over time indicates a loss of land supporting biodiversity and local ecosystems. Biodiversity priority areas, or areas of high biodiversity importance, are defined by SANBI (2016) as "Natural or semi-natural areas in the landscape or seascape that are important for conserving a representative sample of ecosystems and species, for maintaining ecological processes, or for the provision of ecosystem services".

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
9. HEALTHY AND SUSTAINABLE ENVIRONMENT	ENV4. Biodiversity is conserved and enhanced	ENV4.21 Percentage of biodiversity priority areas protected	The proportion of land identified through municipal strategic environmental assessments and EMFs as biodiversity priority areas, which is protected through some mechanism. Mechanisms may include stewardship agreements, conventional protected areas, and biodiversity agreements, among others.
	ENV5. Coastal and inland water resources maintained	ENV5.11 Percentage of coastline with protection measures in place	The percentage of coastline with protection measures in place within the municipal area. Protection measures refer to measures for protecting the coastal environment from activities that may detrimentally affect it and are inclusive of periodic maintenance. Protection measures are divided into four main categories: Hard (options influence coastal processes to stop or reduce the rate of coastal erosion.); Soft (aim to dissipate wave energy by mirroring natural forces and maintaining the natural topography of the coast); Combined (combining hard and soft solutions is sometimes necessary to improve the efficiency of the options and provide an environmentally and economically acceptable coastal protection system); and Innovative (exploited advancements in specific areas of engineering associated with erosion control namely geotextiles and beach drainage). Protection measures are therefore inclusive of managed retreat too.
10. CLEAN AND HEALTHY WATERWAYS AND BEACHES	ENV5. Coastal and inland water resources maintained	ENV5.12 Number of coastal water samples taken for monitoring purposes	The number of coastal and water samples taken for monitoring purposes in the municipality. "Water samples taken", in this instance, refers to samples that have been taken for water quality testing. This refers to the number of samples tested for all relevant monitoring purposes; it does not refer to the number of itemised tests conducted per sample.
	ENV5. Coastal and inland water resources maintained	ENV5.21 Number of inland water samples taken for monitoring purposes	The number of inland water samples taken for monitoring purposes in the municipality. "Water samples taken", in this instance, refers to samples that have been taken for water quality testing. This refers to the number of samples tested for all relevant monitoring purposes, it does not refer to the number of itemised tests conducted per sample.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 12: A SUSTAINABLE TRANSPORT SYSTEM THAT IS INTEGRATED, EFFICIENT AND PROVIDES SAFE AND AFFORDABLE TRAVEL OPTIONS FOR ALL	TR4. Improved satisfaction with public transport services	TR4.21 Percentage of municipal bus services 'on time'	The percentage of all scheduled municipal bus service departures 'on-time'. 'Scheduled' refers to the time at which the bus is expected to depart. 'On time' is understood to be within a window of two minutes ahead of the scheduled departure time, and up to five minutes after the scheduled departure time. In the event that a municipality does not track 'departures', but does track 'arrivals' at the end destination, arrivals may be substituted uniformly across the TID, but this should be specified in the Standard Operating Procedure for the indicator.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 TRANSPORT 12: A SUSTAINABLE TRANSPORT SYSTEM THAT IS INTEGRATED, EFFICIENT AND PROVIDES SAFE AND AFFORDABLE TRAVEL OPTIONS FOR ALL	TR5. Improved access to public transport (incl. NMT)	TR5.11 Number of scheduled public transport access points added	The number of new public transport access points which has been constructed and operational in terms of the municipality's functional responsibilities (thus excluding commuter rail stations). A scheduled public transport service in this regard refers to a bus service provided by the municipal fleet (contracted or owned) at periodic intervals.
	TR5. Improved access to public transport (incl. NMT)	TR5.31 Percentage of scheduled municipal bus trips that are universally accessible	The proportion of scheduled municipal bus trips in the municipal area served by municipality-owned and/or contracted fleet that are universally accessible across the length of their routes. A municipal bus trip refers to a service that runs from a departure point at the start of a route to an arrivals point at the end with various bus service stops on the way. The indicator measures the proportion of all scheduled bus trips that are considered universally accessible – that is every scheduled bus service stop on the route has received a service that is universally accessible for the bus trip. A universally accessible service stop meets the following conditions: 1) It is serviced by a scheduled bus with accessibility provisions; and 2) Boarding bridges meet the accessibility provisions of the bus service. The indicator value is a proportion of all scheduled bus trips for all routes.
	TR6. Improved quality of municipal road network	TR6.11 Percentage of unsurfaced road graded	The length of unsurfaced road which has been graded as a percentage of overall unsurfaced road network. Unsurfaced road is understood as a road without a prepared, durable surface intended to withstand traffic volume, usually a tar macadam (asphalt) or concrete surface. Usually dirt, gravel or natural surface. Road "graded" is the process of restoring the driving surface of a gravel or natural surface road to a desired smoothness and shape by removing irregularities such as corrugations and potholes and redistributing gravel. Usually dirt, gravel or natural surface.
13. SAFE AND QUALITY ROADS FOR PEDESTRIANS, CYCLISTS AND VEHICLES	TR6. Improved quality of municipal road network	TR6.12 Percentage of surfaced municipal road lanes which have been resurfaced and resealed	The distance of surfaced municipal road lanes (class 3–5) in kilometres which has been resurfaced and resealed in relation to the total road lane length. A lane is part of a carriageway that is designated to be used by a single line of vehicles to control and guide drivers and reduce traffic conflicts. Lane widths may vary in width from 3,1 m at their narrowest, to 5,5 m lanes in higher-order mixed-usage streets. Total municipal road length is measured on a per lane basis, so a road that is four-lanes wide for 1 km has a total network length of 4 km for the purpose of this indicator.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
	TR6. Improved quality of municipal road network	TR6.13 Km of new municipal road network	The distance of new municipal road network completed in kilometres within the municipal area, by the municipality (inclusive of all its departments and implementing agents). This is inclusive of both surfaced and unsurfaced roads built and completed by the municipality. A surfaced road refers to road installed with a durable surface material intended to sustain traffic, usually pavement or concrete. Total municipal road network length is measured irrespective of the road lanes for this indicator.
	TR6. Improved quality of municipal road network	TR6.21 Percentage of reported pothole complaints resolved within standard municipal response time	The percentage of reported pothole complaints resolved within the standard time, as a percentage of all potholes reported. A reported pothole complaint refers to the report as the incidence, not the number of potholes, that may be referred to in a given report. Municipal standard response times and operating procedures for service providers who may undertake this work for the municipality are confirmed at the municipal level in terms of the municipality's Standard Operating Procedure for measuring the indicator.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	GG1. Improved municipal capability	GG1.21 Staff vacancy rate	The number of unfilled posts in the municipal organisational structure as a percentage of the total number of employee posts in the municipality's organisational structure. The unfilled posts are inclusive of temporary and contract positions that appear on the municipality's approved organisational structure. They are exclusive of unfunded vacant positions on the municipality's approved organisational structure.
	GG1. Improved municipal capability	GG1.22 Percentage of vacant posts filled within 6 months	The percentage of posts for which an appointment decision has been made within six months of the authority to proceed with filling the post. 'Vacant posts' in this instance, refers to all budgeted posts on the municipal organogram for which a recruitment process has been initiated. A position is considered 'filled' when a recruitment decision is made and an offer of appointment formally accepted by a recruit, regardless of the start date. 'Authority to proceed with filling a post' refers to the point of time at which the relevant official authorises the filling of a vacancy in terms of relevant municipal policies and procedures. This refers to an individual post and does not apply to bulk recruitments.
	GG2. Improved municipal responsiveness	GG2.11 Percentage of ward committees with 6 or more ward committee members (excluding the ward councillor)	The percentage of ward committees that had 6 or more members, excluding the ward councillor, as a proportion of the total number of wards at the last day of the reporting period.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	GG2. Improved municipal responsiveness	GG2.12 Percentage of wards that have held quarterly councillor-convened community meetings	The number of wards where ward councillors convened at least one community meeting in the quarter as per statutory requirements, as a percentage of all the wards in the municipality. Community meetings refer to any public meeting for which public notice is given, held in the councillor's ward, and at which the ward councillor convenes the meeting. For the purposes of the indicator, a ward cannot report more councillor-convened community meetings than the quarter which is being reported against.
	GG2. Improved municipal responsiveness	GG2.31 Percentage of official complaints responded to through the municipal complaint management system	The number of official complaints responded to as per the municipality defined norms and standards, as a percentage of the number of official complaints received. A complaint is any formal grievance, concern or issue registered with the municipality as per its established systems and protocols. An official complaint, in this instance, should be formally logged within the Municipal Complaints Management System. "Norms and standards" refer to a municipality's agreed ability to respond promptly and appropriately to the complaints from the public, in line with protocols determined by the municipality, whether or not this is consistent with any external guidance or benchmarking. Note that resolution refers to an official municipal response to the complaint and does not provide for a determination of "satisfaction" with the municipal response on the part of the public.
	GG3. Improved municipal administration	GG3.11 Number of repeat audit findings	"Repeat" findings refer to those findings which have persisted from one year of reporting to the next. These are identified as repeat findings by the Auditor-General on the following administrative areas, including but not limited to: i) Annual financial statements and annual report ii) Strategic planning and performance iii) Consequence management iv) Human resource management
	GG3. Improved municipal administration	GG3.12 Percentage of councillors who have declared their financial interests	The percentage of all councillors that have declared their financial interests for the financial year being reported against. Financial interests refer to all relevant financial matters or dealings which may create the potential for a conflict of interest.
	GG5. Zero tolerance of fraud and corruption	GG5.11 Number of active suspensions longer than three months	Refers to the total number of active suspensions at the time of reporting that were initiated more than three months prior and had not yet been resolved.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.11 Total capital expenditure as a percentage of total capital budget	This indicator measures the extent to which budgeted capital expenditure has been spent during the financial year. Capital expenditure is all costs incurred by the municipality for acquiring, upgrading, and renewing assets such as property, equipment, plants, buildings, intangible assets, investment property or any other assets meeting the definition of assets in terms of GRAP.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	FM1. Enhanced municipal budgeting and budget implementation	FM1.12 Total operating expenditure as a percentage of total operating expenditure budget	The indicator measures the extent to which operating expenditure has been spent during the financial year. Operating expenditure (non-capital spending) is costs, which the municipality incurs through its operations.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.13 Total operating revenue as a percentage of total operating revenue budget	The indicator measures the extent of actual operating revenue (excl. capital revenue) generated in relation to budgeted operating revenue during the financial year. Operating revenue is revenue generated from sale of goods or services, taxes or intergovernmental transfers.
	FM1. Enhanced municipal budgeting and budget implementation	FM1.14 Service charges and property rates revenue as a percentage of service charges and property rates revenue budget	The ratio measures the extent of actual service charges and property rates revenue generated in relation to budgeted service charges and property rates revenue during the financial year. Service charges include revenue generated from sale of water, electricity, refuse and sanitation. Property rates include revenue generated from rates and taxes charged on properties.
	FM2. Improved financial sustainability and liability management	FM2.21 Cash backed reserves reconciliation at year end	This indicator measures if there is a cash surplus at the end of the financial year after accounting for all commitments. Commitments refer to items that must be cash-backed such as unspent conditional grants, unspent borrowing, VAT, working capital requirements, sinking fund or reserves approved by Council. Data elements, for the purpose of this indicator, are drawn from the data contained in annual financial statements.
	FM3. Improved liquidity management	FM3.11 Cash/cost coverage ratio	The ratio tracks how long it can take the municipality to pay at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue, during that month.
	FM3. Improved liquidity management	FM3.12 Current ratio (current assets/current liabilities)	The ratio is used to assess the municipality's ability to pay back its short-term liabilities (debt and payables) with its short-term assets (cash, inventory, receivables).
	FM3. Improved liquidity management	FM3.13 Trade payables to cash ratio	The ratio indicates the municipality's capacity to pay its creditors with cash and equivalent only.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	FM3. Improved liquidity management	FM3.14 Liquidity ratio	This ratio only considers a municipality's most liquid assets – cash and investments. These are the assets that are most readily available to a municipality to pay short-term obligations. It is a stricter and more conservative measure because cash and cash equivalent is only used in the calculation.
	FM4. Improved expenditure management	FM4.31 Creditors payment period	This indicator reflects the average number of days taken for trade creditors to be paid. It is a useful indicator to measure the cash flow or liquidity position of a municipality. Total outstanding creditors is total amount owed (capital and operating expenditure) by the municipality. Section 65 of the MFMA prescribe municipalities to pay all monies owed within 30 days of receiving an invoice.
	FM5. Improved asset management	FM5.11 Percentage of total capital expenditure funded from own funding (Internally generated funds + Borrowings)	The ratio measures the level to which the municipality's total capital expenditure is funded through internally generated funds and borrowings. It also assess the level at which a municipality is able to generate own funds to finance revenue generating assets to enhance and sustain revenue streams.
	FM5. Improved asset management	FM5.12 Percentage of total capital expenditure funded from capital conditional grants	This ratio measures to what extent a municipality depend on grants to deliver services to its communities. Conditional grants are transfers and subsidies given to municipalities by national or provincial departments as well as other external agencies for specific purposes.
	FM5. Improved asset management	FM5.21 Percentage of total capital expenditure on renewal/upgrading of existing Assets	This indicator measures the extent to which the municipality prioritise or protects its existing infrastructure assets. Renewal/upgrading of existing assets refer to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as restoration of the service potential of the asset.
	FM5. Improved asset management	FM5.22 Renewal/Upgrading of existing assets as a percentage of depreciation/asset impairment	This indicator measures the extent at which the municipality prioritise or protects its existing infrastructure assets. Renewal, upgrading or replacement of existing assets refer to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as replacement of an asset.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	FM5. Improved asset management	FM5.31 Repairs and maintenance as a percentage of property, plant equipment and investment property	This indicator measures the extent at which the municipality spent on repairs and maintenance of infrastructure assets relative to its asset base. Repairs and maintenance is a group of accounts consisting of labour costs, material costs, etc.
	FM5. Improved asset management	FM5.31 Repairs and maintenance as a percentage of property, plant equipment and investment property	This indicator measures the extent at which the municipality spent on repairs and maintenance of infrastructure assets relative to its asset base. Repairs and maintenance is a group of accounts consisting of labour costs, material costs, etc.
	FM6. Improved supply chain management	FM6.12 Percentage of awarded tenders [over R200k], published on the municipality's website	This indicator measures the extent to which the municipality is open and transparent in the awarding of contracts by advertising details of the winning company on the municipality's website. This indicator also measures the municipality's compliance to MFMA section 75(1)(g).
	FM6. Improved supply chain management	FM6.13 Percentage of tender cancellations	This indicator measures the percentage of tender cancellations in relation to the total number of tender business cases that was recorded, advertised and closed.
	FM7. Improved revenue and debtors management	FM7.11 Debtors payment period	Net debtor days refer to the average number of days required for a municipality to receive payment from its consumers for bills/invoices issued to them for services.
	FM7. Improved revenue and debtors management	FM7.12 Collection rate ratio	The ratio measures the revenue collection level of a municipality. It considers the level of increase or decrease of gross debtors relative to annual billed revenue. In addition, in order to determine the real collection rate, bad debts written off is taken into consideration.
	FM7. Improved revenue and debtors management	FM7.31 Net surplus/deficit margin for electricity	Electricity is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing electricity services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the abovementioned categories. Overhead costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.

PRIORITY OBJECTIVES	CIRCULAR 88 OUTCOMES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	FM7. Improved revenue and debtors management	FM7.32 Net surplus/deficit margin for water	Water is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing water services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the abovementioned categories. Overheard costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.
	FM7. Improved revenue and debtors management	FM7.33 Net surplus/deficit margin for wastewater	Wastewater is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing wastewater and sanitation services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the abovementioned categories. Overheard costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.
	FM7. Improved revenue and debtors management	FM7.34 Net surplus/deficit margin for refuse	Refuse is measured separately to track the extent to which the municipality generates surplus or deficit. Total expenditure, in this context, refers to direct costs, overhead costs and capital financing costs incurred in providing refuse services. Direct costs includes employee related costs, bulk purchases, repairs and maintenance, contracted services, debt impairment, depreciation and other costs not grouped under the abovementioned categories. Overheard costs, also referred to as indirect costs, are costs that are not directly attributable to a service but are incurred in running a municipality as a whole, for example office space or computer software and all charges or recoveries. Capital financing costs are costs associated with financing infrastructure expansion or rehabilitation of existing assets, for example interest and redemption charges.

7.5 2026/27 ONE-YEAR MFMA CIRCULAR 88 COMPLIANCE SCORECARD

Quarterly and annual targets are not required as per MFMA Circular 88, however quarterly and/or annual reporting to National Treasury is compulsory.

PRIORITY: ECONOMIC GROWTH Let's make Cape Town the easiest place to do business and create jobs in Africa Objective 1: Increased jobs and investment in the Cape Town economy 				
KEY PERFORMANCE INDICATOR	BASELINE 2023/24	BASELINE 2024/25	FREQUENCY OF REPORTING	RESPONSIBLE DIRECTORATE
C8 (GG) Number of councillors completed training	315	183	Quarterly	Corporate Services
C9 (GG) Number of municipal officials completed training	12 220	18 555	Quarterly	Corporate Services
C29 (LED) Number of approved applications for rezoning a property for commercial purposes	149	101	Quarterly	Spatial Planning and Environment
C76 (LED) Number of SMMEs and informal businesses benefitting from municipal digitisation support programmes rolled out directly or in partnership with other stakeholders	322	893	Quarterly	Economic Growth
C81 (LED) Number of new business license applications	2 054	2 027	Quarterly	Community Services and Health
C82 (LED) Value of Commercial Projects Constructed by adding all of the estimated costs of construction values on building permits	1 280 784 877	2 766 563 173	Annual	Spatial Planning and Environment
C83 (LED) Number of building plans approved after first review	3 575	1 875	Quarterly	Spatial Planning and Environment
C84 (LED) Number of building plans submitted for review	22 158	20 590	Quarterly	Spatial Planning and Environment
C85 (LED) Number of business licenses renewed	Barrier ¹	Barrier ¹	Quarterly	Community Services and Health
The Western Cape Province and City of Cape Town legislation do not make provision for business licences to be renewed. As a result, reporting on this indicator is deemed "not applicable" for the City.				
C95 (FM) Number of residential properties in the billing system	846 418	859 214	Annual	Finance
C96 (FM) Number of non-residential properties in the billing system	172 390	165 105	Annual	Finance
C97 (FM) Number of properties in the valuation roll	943 873	952 414	Annual	Finance
C98 (LED) Number of building plan applications approved	16 049	16 704	Quarterly	Spatial Planning and Environment

¹ Barrier – A baseline of barrier indicates that the indicator was a barrier – the City experienced system and/or data limitations.

PRIORITY: BASIC SERVICES

Let's get the basics right as the foundation of a healthy and prosperous city
Objective 2: Improved access to quality and reliable basic services

KEY PERFORMANCE INDICATOR	BASELINE 2023/24	BASELINE 2024/25	FREQUENCY OF REPORTING	RESPONSIBLE DIRECTORATE
C61 (WS) Total number of chemical toilets in operation	14 691	14 693	Quarterly	Water and Sanitation

² Exempted – Indicators were exempted for external reporting by National Treasury.

2026/27 ONE-YEAR CIRCULAR 88 COMPLIANCE SCORECARD DEFINITIONS

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	C8 (GG) Number of councillors completed training	The number of councillors that have received training. A councillor is an individual who is elected to represent their local community and runs their local council. Training can be of any duration, length and need not be formally accredited.
	C9 (GG) Number of municipal officials completed training	The number of municipal officials that have received training. A municipal official is a person in the employ of the municipality who has been delegated to perform any function of the municipality or any function for which the municipality is responsible. Training can be of any duration, length and need not be formally accredited.
	C29 (LED) Number of approved applications for rezoning a property for commercial purposes	The number of applications for rezoning a property for commercial purposes approved. Rezoning a property for commercial purposes is when the initial classification assigned for the use of a property (e.g. for residential purposes) is adjusted so that it permits business to be conducted on the property.
	C76 (LED) Number of SMMEs and informal businesses benefitting from municipal digitisation support programmes rolled out directly or in partnership with other stakeholders	The number of SMMEs and informal businesses benefitting from municipal digitisation support programmes rolled out directly or in partnership with other stakeholders within the municipal area. Digitisation support programmes can include: digital infrastructure provision, digital platforms, digital financial services, digital entrepreneurship support and digital skills development. SMME stands for small, medium and micro-enterprises. These businesses range from formally registered, informal and non-VAT registered organisations. Small to medium-sized businesses typically employ over a hundred people and are comparable to the small- and medium- sized enterprises (SME) segment found in developed countries. Micro-enterprises, on the other hand, typically encompass survivalist self-employed persons from the poorest layers of the population. This measures any business who has registered with the municipality to benefit from support for digitisation.
	C81 (LED) Number of new business license applications	The number of new business license applications received by the municipality. Business license applications may be required by the municipality as it relates to food provision and other industries. This measures only the 'new' business licence applications received by the municipality. By applying for a license as a 'new' business, the indicator measures new formal economic ventures pursued within the municipality. The indicator measures only those 'new' license applications and does not track renewals.
	C82 (LED) Value of commercial projects constructed by adding all of the estimated costs of construction values on building permits	Municipal construction permits require the capturing of estimated costs for construction. This indicator aggregates all of the estimated costs for the construction permits granted by the municipality.
	C83 (LED) Number of building plans approved after first review	The building plan review process is a coordinated process for the review of projects and building plans which generally result in the issuance of a building permit. The process coordinates the review of staff representatives typically from Planning, Building, Engineering and Fire functions. This team reviews each project for compliance with applicable plans and code requirements. Where a building plan of any size, whether commercial or residential, is approved based on one round of municipal review, it is tracked for the purpose of this indicator.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	C84 (LED) Number of building plans submitted for review	The total number of building plans submitted for review to the municipality. The building plan review process is a coordinated process for the review of projects and building plans which, when adjudicated as "approved", generally results in the issuance of a building permit. The process coordinates the review of staff representatives typically from Planning, Building, Engineering and Fire functions. This team reviews each project for compliance with applicable plans and code requirements. This indicator gives a measure of the scale of building plan submissions in total.
	C85 (LED) Number of business licenses renewed	The number of business licenses renewed within the municipal area. Business licenses are permits issued by the municipality that allow individuals or companies to conduct business within the municipal area. It is the authorisation to operate a business issued by the local government, in line with local by-laws and provisions.
	C95 (FM) Number of residential properties in the billing system	The indicator measures the number of unique properties zoned for residential purposes by the municipality that reflects on the billing system of the municipality. This includes residential properties that are zero-rated.
	C96 (FM) Number of non-residential properties in the billing system	The indicator measures the number of unique properties zoned for non-residential purposes by the municipality that reflects on the billing system of the municipality. This includes non-residential properties that are zero-rated.
	C97 (FM) Number of properties in the valuation roll	The indicator measures the number of unique properties reflected on the municipal valuation roll. This includes residential properties that are zero-rated and draws from Supplementary valuation rolls in years between official valuations.
	C98 (LED) Number of building plan applications approved	The number of building plans approved by the municipality. The building plan review process is a coordinated process for the review of projects and building plans which, when adjudicated as "approved", generally results in the issuance of a building permit. An approved building plan application excludes those applications that receive an "amendment letter" or "date of first refusal".

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 2: IMPROVED ACCESS TO QUALITY AND RELIABLE BASIC SERVICES	C61 (WS) Total number of chemical toilets in operation	The total number of chemical toilets in operation. A chemical toilet collects human excreta in a holding tank and uses chemicals to minimize odours. These toilets are usually, but not always, self-contained and portable. A chemical toilet must be emptied at least twice weekly (per Regulation 7(4)(d) of the Revised Compulsory National Water and Sanitation Standards, 2025).
	C62 (WS) Total number of ventilation improved pit toilets (VIPs)	A VIP refers to a Ventilation Improve Pit Toilet which meets minimum standards in terms of the ventilation of the pit and toilet structure.
	C63 (WS) Total volume of water delivered by water trucks	The total volume of water (in kilolitres) delivered by water truck to a municipal area. A water truck is a vehicle designed with a water container for storing and transporting water for consumptive purposes.
	C99 (EE) Number of electricity connection applications received	The number of new electricity connection applications received by the municipality. This measures only the new applications received by the municipality, regardless of whether they are 'valid' or complete.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 3: END LOAD SHEDDING IN CAPE TOWN OVER TIME	C57 (EE) Number of registered electricity consumers with an embedded generation system	The number of registered municipal electricity consumers with an embedded generation electricity system. An embedded generation system refers to small-scale electricity production localised to a site (or sites) within the electricity distribution network, close to the place of consumption. The indicator tracks the total number of registered consumers able to access electricity through alternative means, beyond municipal supply. (Frequency: Quarterly)
	C58 (EE) Total non-technical electricity losses in MWh (estimate)	Total non-technical electricity losses in MWh. Electricity loss is a measure of unaccounted for energy. Non-technical electricity losses are caused by actions external to the power system and consist primarily of electricity theft, faulty or inaccurate meters, and errors in accounting and record-keeping. Therefore, by its very nature this indicator will rely on stated assumptions. Municipalities are to generate a measure of non-technical electricity losses in MWh on the basis of their existing procedures in terms of Standard Operating Procedures, while documenting the assumptions or parameters that inform such a measure.
	C59 (EE) Number of municipal buildings that consume renewable energy	The number of municipal buildings consuming own renewable electricity or embedded generation. Renewable electricity is understood as renewable own generation and/or embedded generation within municipal buildings themselves. Embedded generation refers to the small-scale production of power connected within the electricity distribution network, located close to the place of consumption. Renewable own generation is electricity generation technology which harnesses a naturally existing energy flux, such as wind, sun, heat, or tides, and converts that flux to electricity for specific own supply, not for sale to customers. Where embedded generation supplies a complex of free-standing structures, all individual structures can be counted as buildings. This is inclusive of buildings leased by the municipality, as well as municipality-owned buildings. (Frequency: Quarterly)
	C105 (EE) Installed capacity of approved embedded generators on the municipal distribution network	The total capacity of the embedded generation installations in the municipal distribution network in Megavolt-ampere

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	C46 (ENV) Number of approved waste management posts in the municipality	The number of approved waste management posts. Waste management includes the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process. An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 BASIC SERVICES 4. WELL-MANAGED AND MODERNISED INFRASTRUCTURE TO SUPPORT ECONOMIC GROWTH	C47 (ENV) Number of waste management posts filled	The number of waste management posts filled in terms of the approved structure. Waste management includes the activities and actions required to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process. (Frequency: Quarterly)
	C60 (WS) Total number of sewer connections	The total number of connections to the sewerage system in the municipal area. A connection is any connection through which a consumer gains access to sanitation services and includes an individual consumer installation and a bulk or communal connection (as per the definition of "user connection" in the Revised Compulsory National Water and Sanitation Standards, 2025).
	C106 (HS) Number of KMs of additional stormwater drains installed	This indicator measures the length of stormwater drains in kilometres that have been installed by the municipality in addition to the previously existing infrastructure, over the reporting period. Stormwater is rainwater or melted snow that runs off streets, lawns and other sites. The indicator tracks the length of drainage installed by the municipality as part of stormwater management.
	C107 (HS) Number of additional high-mast lights installed	A high-mast light refers to a tall lighting pole, typically in excess of 15 metres, to illuminate a large, outdoor area. The indicator tracks the number of additional high-mast lights installed by the municipality.
	C108 (HS) Number of additional street lights installed	A street light refers to a lighting pole, typically between 4 to 12 meters, used to illuminate a public area. The indicator tracks the number of additional street lights installed by the municipality.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 SAFETY 5. EFFECTIVE LAW ENFORCEMENT TO MAKE COMMUNITIES SAFER	C67 (FD) Number of paid full-time firefighters employed by the municipality	The number of paid full-time firefighters employed by the municipality. A firefighter is a rescuer extensively trained in firefighting, primarily to extinguish hazardous fires that threaten life, property, and the environment as well as to rescue people and animals from dangerous situations. This could be either permanent or fixed-term employment, on a full-time basis. (Frequency: Quarterly)
	C73 (FD) Number of structural fires occurring in informal settlements	The indicator measures the number of fires which occurred or originated in an area considered to be an informal settlement by the municipality and affected structures in that area. Structural fire incidents are defined as incidents of fire outbreaks in habitable structures, regardless of their formality (e.g. a fire on a formal structure within an area considered to be an informal settlement would still be counted as the indicator measures the number of fires). (Frequency: Quarterly)
	C74 (FD) Number of dwellings in informal settlements affected by structural fires (estimate)	The indicator measures the estimated number of dwellings in an area considered to be an informal settlement by the municipality and affected by structural fires. 'Affected' in this context refers to structures which have sustained physical damage as a result of a fire. Structural fire incidents are defined as incidents of fire outbreaks in habitable structures, regardless of their formality (e.g. a fire on a formal structure within an area considered to be an informal settlement would still be counted as the indicator measures the number of fires). (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
HOUSING 7. INCREASED SUPPLY OF AFFORDABLE, WELL-LOCATED HOMES	C55 (HS) Number of housing recipients issued with title deeds	The number of registered housing recipients issued with title deeds by the municipality. A title deed is a document that proves legal ownership of a property in South Africa. In this instance, a housing recipient is a registered beneficiary of state-subsidised housing delivered by housing programmes.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 PUBLIC SPACE, ENVIRONMENT AND AMENITIES 9. HEALTHY AND SUSTAINABLE ENVIRONMENT	C102 (ENV) Number of incidents of improper disposal of medical waste responded to by the municipality	The indicator measures the number of incidents reported to the municipality of the improper disposal of medical waste. Where an incident has been reported, it is understood that a municipality would respond to the report, diagnose the situation and undertake an appropriate course of action to remedy the situation as per the appropriate protocols. (Frequency: Quarterly)
	C103 (ENV) Number of notifiable medical condition investigations following the prescribed protocols	The indicator measures the number of incidents reported to the municipality where notifiable medical conditions are investigated. A Notifiable Medical Condition is defined in terms of the National Health Act: Regulations relating to the surveillance and the control of notifiable medical conditions as- a medical condition, disease or infection of public health importance that is classified as notifiable in terms of regulation 12, Annexure A, Tables 1-4. They may pose significant public health risks that can result in disease outbreaks or epidemics with high case fatality rates both nationally and internationally. And prescribed protocols apply on the basis of the Notifiable Medical Condition and should involve Environmental Health Practitioners as per protocol. Any investigation should conclude with a course of action related to the prevention or mitigation of the risk of such incidence in the future, subject to applicable protocols. (Frequency: Quarterly)
	C104 (ENV) Number of foodborne disease outbreak investigations following the prescribed protocols	The indicator measures the number of incidents reported to the municipality where foodborne diseases are investigated according to the prescribed protocols, involving an Environmental Health Practitioner. A foodborne disease outbreak is defined as any food poisoning incident involving two or more individuals that are epidemiologically linked to a common food/beverage source (also referred to as foodborne illness or food poisoning). Any investigation should conclude with a course of action related to the prevention or mitigation of the risk of such incidence in the future, subject to applicable protocols. (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 PUBLIC SPACE, ENVIRONMENT AND AMENITIES 11. QUALITY AND SAFE PARKS AND RECREATION FACILITIES SUPPORTED BY COMMUNITY PARTNERSHIPS	C52 (HS) Number of maintained sports facilities	The number of sports facilities maintained by the municipality, inclusive of those owned by the municipality and those maintained by it through agreement for public access. A sports facility is defined by the CSIR Guidelines (2015) as "Active recreation areas including formally provided and maintained playing fields for soccer, rugby, hockey, etc.; playing courts; indoor sports halls and stadiums. May include ablution facilities, seating, parking, tuck shop and club house."
	C53 (HS) Square metres of maintained public outdoor recreation space	Square meters of municipality maintained active outdoor space intended for recreational purposes refers to land owned by the municipality or maintained for public access through agreement with another party. Public recreation space is defined broadly to mean land and open space available to the public for recreation. Recreation space shall include only space that primarily serves a recreation purpose. Includes: parks, outdoor sports facilities and public open space. Does not include beaches, resorts and nature reserves. Does not include pedestrianised streets and sidewalks, but may include pedestrian walkways with primarily a recreational purpose. Facilities charging an access fee may still be regarded as 'public' provided that no other access criteria are applied (annual membership fee, club affiliations, etc.)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
	C54 (HS) Number of municipality-owned community halls	The number of municipality-owned community halls. A community hall is defined by the CSIR Guidelines for the Provision of Social Facilities in South African Settlements (2015) as a "Centre or hall for holding public meetings, training, entertainment and other functions and having a variety of facilities such as a kitchen, toilets, storage space, etc. which should be provided at nominal rates for hire, with rentals tied to socio-economic status of area to provide affordable service."

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 TRANSPORT 12. A SUSTAINABLE TRANSPORT SYSTEM THAT IS INTEGRATED, EFFICIENT AND PROVIDES SAFE AND AFFORDABLE TRAVEL OPTIONS FOR ALL	C64 (TR) R-value of all direct municipal vehicle operational costs for public transport	The R-value of all direct municipal, and municipally-contracted, vehicle operational costs. Municipal vehicle operational costs refers to the costs off public transport vehicles that vary with vehicle usage, including fuel, tires, maintenance, repairs, and mileage-dependent depreciation costs. This is also inclusive of the staff and overhead operational costs. Municipality-contracted vehicles refer to fleets that are owned by private transport companies, but are operated by municipalities for public transport purposes. Any definitional clarification should be sought from the latest Division of Revenue Act as it relates to 'operational costs'. (Frequency: Quarterly)
	C65 (TR) Total number of scheduled public transport access points	The total number of scheduled public transport access points that are the responsibility of municipalities, which include bus and BRT services. Scheduled public transport service is that which provides access to the scheduled public transport services mentioned above, with a minimum service frequency of 30 minutes during the workday morning peak. This measure is inclusive of the total number of schedule public transport access points, not only new access points in a reporting cycle. (Frequency: Quarterly)
	C66 (TR) Number of passenger trips on scheduled municipal bus services	The number of operationalised passenger trips on scheduled municipal bus services, based on fare collection or trip capture on the system. A trip is a one-way movement from an origin to a destination, to fulfil a purpose or undertake an activity. (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A RESILIENT CITY 14. A RESILIENT CITY	C69 (FD) Number of 'displaced persons' to whom the municipality delivered assistance	The number of displaced persons (regardless of their nationality) to whom the municipality delivered assistance within the municipal area. A displaced person is person who was forced to or obliged to leave their home as a result of natural or human-made disasters, conflict, situations of generalised violence or violations of human rights. 'Assistance' in this instance refers to some or all of the following types of assistance: essential food and potable water; basic shelter and housing; appropriate clothing; and essential medical services and sanitation. The origins of displacement, extent and duration does not affect the measure, only the unique number of individuals to which the municipality has provided direct assistance in the reporting period. (Frequency: Quarterly)
	C72 (FD) Date of the last municipal Disaster Management Plan tabled at Council	The date (dd/mm/yyyy) of the last municipal Disaster Management Plan tabled at Council. A Disaster Management Plan is required in terms of Section 53 of the Disaster Management Act of 2002 and should be submitted to the National Disaster Management Centre by all relevant municipal organs of state and municipal entities in terms of the policy framework for disaster management. The tabling is inclusive of all three levels of Disaster Management Plans in terms of the disaster management policy framework.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A RESILIENT CITY 14. A RESILIENT CITY	C75 (FD) Number of people displaced within the municipal area	The number of people within the municipal area displaced by natural or human-made disasters, conflict, situations of generalised violence or violations of human rights, as documented by the municipality. Please refer to the definition of disaster in terms of the Disaster Management Act. For the purpose of this indicator, a person displaced by conflict, disaster or extreme weather is someone who was forced or obliged to leave their home from within the municipal area as a result of any category of event. It refers to those individuals documented as known to the municipality and does not pre-suppose that any sphere of government is directly providing for these individuals, only that their displacement from within the municipal area is known. (Frequency: Quarterly)
	C90 (ENV) Date of the last Climate Change Needs and Response Assessment published in the Gazette	A Climate Change Needs and Response Assessment is a systematic diagnostic exercise undertaken by the municipality at least once every five years to determine the risks, vulnerabilities, and Climate Change response options in place or available to the municipality. This indicator measures the date when the assessment finds expression in the Gazette, as specified in section 17(1)(c) of the Climate Change Act.
	C91 (ENV) Date of the last Climate Change Response Implementation Plan adopted as a component of the municipal IDP	A Climate Change Needs and Response Implementation Plan sets out the strategies and responses that the municipality will be pursuing over the medium-term. This indicator measures the date when a response implementation plan is adopted as a component of the municipal IDP.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	C1 (GG) Number of signed performance agreements by the MM and section 56 managers	This is the count of the total number of signed performance agreements by the municipal manager (section 57) and section 56 managers. A performance agreement is a written contract that establishes the expectations and accountability for meeting a set standard of execution excellence, and the consequences for not meeting them. Two or more parties agree on the actions the performer will execute and agree on the expected results from executing those actions. A municipal manager (MM) is appointed by council. He is the link between the council and the administration, of which he is the head. He has to account for the municipality's income and expenditure, assets and other obligations such as proper adherence to all legislation applicable to municipalities. A Section 56 manager is a manager employed under the terms of Section 56 of the Local Government: Municipal Systems Act, 2000. They are directly accountable to the municipal manager; or an acting manager directly accountable to the municipal manager under circumstances and for a period as prescribed. (Frequency: Quarterly)
	C2 (GG) Number of ExCo or Mayoral Executive meetings held	This is the count of the number of Executive Committee (ExCo) or Mayoral Committee meetings held. A Mayoral Committee meeting is a meeting of the committee appointed by the Executive Mayor in terms of section 60 of the Structures Act. An Executive Committee refers to the members of Council elected to serve on an executive structure chaired by the Mayor. (Frequency: Quarterly)
	C3 (GG) Number of Council Portfolio committee meetings held	This is the count of the number of Council portfolio committee meetings held. Portfolio committees exercise oversight over a particular municipal department or "portfolio". (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	C4 (GG) Number of MPAC meetings held	This is the count of the number of MPAC committee meetings held. A Municipal Public Accounts Committee (MPAC) is one of the Committees in terms of Section 79 of the Local Government: Municipal Structures Act 117 of 1998 to serve as an oversight committee to deal with Oversight Reports on annual reports as per Section 129 (1) of the Municipal Finance Management Act 56 of 2003. (Frequency: Quarterly)
	C5 (GG) Number of recognised traditional leaders within your municipal boundary	This is a count of the number of recognised traditional leaders within a municipal boundary. A municipal boundary is defined as a line enclosing the geographical area of jurisdiction of a municipal corporation as delineated by territorial legislation. Recognised leaders refer to those groups which the municipal council officially recognises within the municipal area.
	C6 (GG) Number of formal (minuted) meetings between the Mayor, Speaker and MM were held to deal with municipal matters	This is a count of the number of formal (minuted) meetings between the Mayor, Speaker, and MM held. A Mayor is the head of the executive of the municipality. A Speaker presides at meetings of the Council and performs the duties and exercises the powers delegated to the Speaker as defined in Section 59 of the Municipal Systems Act. A municipal manager (MM) is the accounting officer of the municipality appointed by council in terms of Section 57 of the Municipal Systems Act. (Frequency: Quarterly)
	C7 (GG) Number of formal (minuted) meetings – to which all senior managers were invited – held	This is a count of the number of formal (minuted) meetings to which all senior managers were invited. A senior manager is a municipal manager or acting municipal manager and includes managers directly accountable appointed in terms of section 56 of the Municipal Systems Act. (Frequency: Quarterly)
	C10 (GG) Number of work stoppages occurring	The number of work stoppages. Work stoppage refers to the temporary cessation of work as a form of protest and can be initiated by either employees or management. When initiated by employees, work stoppages refer to a single employee or group of employees ceasing work purposefully as a means of protest. (Frequency: Quarterly)
	C11 (GG) Number of litigation cases instituted by the municipality	The number of litigation cases instituted by the municipality. Litigation is an action brought in court to enforce a particular right. It involves a series of steps that may lead to a court trial and ultimately a resolution of the matter. (Frequency: Quarterly)
	C12 (GG) Number of litigation cases instituted against the municipality	The number of litigation cases instituted against the municipality. Litigation is an action brought in court to enforce a particular right. It involves a series of steps that may lead to a court trial and ultimately a resolution of the matter. (Frequency: Quarterly)
	C13 (GG) Number of forensic investigations instituted	The number of forensic investigations instituted. A forensic investigation is the gathering and analysis of all evidence in order to come to a conclusion about a suspect(s). In municipalities, the broad areas of misconduct that are investigated include irregular, wasteful and unauthorised expenditure; procurement irregularities; appointment irregularities; as well as cash theft, fraud, corruption and malicious administrative practices. This refers to newly instituted or on-going investigations. (Frequency: Quarterly)
	C14 (GG) Number of forensic investigations concluded	The number of forensic investigations conducted which have concluded. A forensic investigation is the gathering and analysis of all evidence in order to come to a conclusion about a suspect(s). In municipalities, the broad areas of misconduct that are investigated include irregular, wasteful and unauthorised expenditure; procurement irregularities; appointment irregularities; as well as cash theft, fraud, corruption and malicious administrative practices. This refers to investigations concluded. (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	C15 (GG) Number of days of sick leave taken by employees	The number of days sick leave taken by municipal employees. Sick leave is paid time off from work that workers can use to stay home to address their health needs without losing pay. It differs from paid vacation time or time off work to deal with personal matters, because sick leave is intended for health-related purposes. (Frequency: Quarterly)
	C17 (GG) Number of temporary employees employed	The number of temporary employees employed by the municipality. Temporary employees refer to those employed on a fixed-term contract in addition to the official organisational structure of the municipality. (Frequency: Quarterly)
	C18 (GG) Number of approved demonstrations in the municipal area	The number of approved demonstrations in the municipal area. A demonstration is action by a mass group or collection of groups of people in favour of a political or other cause or people partaking in a protest against a cause of concern; it often consists of walking in a mass march formation and either beginning with or meeting at a designated endpoint, or rally, to hear speakers. An 'approved demonstration' refers to a planned action communicated to the local authority and for which permission has been provided. (Frequency: Quarterly)
	C19 (GG) Number of recognised traditional and Khoi-San leaders in attendance (sum of) at all Council meetings	The number of recognised traditional and Khoi-San leaders in attendance (sum of) at all council meetings. A traditional leader is any person who, in terms of customary law of the traditional community concerned, holds a traditional leadership position, and is recognised in terms of Traditional Leadership and Governance Framework Act of 2003. A Khoi-San leader is a person recognised as a senior Khoi-San leader or a branch head in terms of section 10 and includes a regent, acting Khoi-San leader and deputy Khoi-San leader. "Recognised leaders" refer to those groups which the municipal council officially recognises within the municipal area. This includes designated representatives of recognised leaders. (Frequency: Quarterly)
	C20 (ENV) Number of permanent environmental health practitioners employed by the municipality	The number of permanent environmental health practitioners employed by the municipality. Environmental health practitioners are dedicated to protecting public health by monitoring and recommending solutions to reduce pollution levels. They use specialized equipment to measure the levels of contaminants in air, water and soil, as well as noise and radiation levels. (Frequency: Quarterly)
	C21 (ENV) Number of approved environmental health practitioner posts in the municipality	The number of permanent environmental health practitioners on the approved municipal organogram. (Frequency: Quarterly)
	C22 (GG) Number of Council meetings held	The number of council meetings. A council is made up of elected members who approve policies and by-laws for their municipal area. Council meetings are a platform used by councillors to discuss these policies, by-laws and other issues relating to their municipality (e.g. service delivery issues) and to make decisions, through councillor voting, on them. Council meetings are typically open to the general public to attend as well. (Frequency: Quarterly)
	C23 (GG) Number of disciplinary cases for misconduct relating to fraud and corruption	The number of disciplinary cases for misconduct related to fraud and corruption active within the municipality. A disciplinary case is an alleged instance of misconduct between an employee and employer whereby the employee should present evidence to respond to the allegations against him/her. Fraud is an intentionally deceptive action designed to provide the perpetrator with an unlawful gain or to deny a right to a victim. Fraud typically occurs with regard to finance. Corruption is a form of dishonesty or criminal offense undertaken by a person entrusted with a position of authority, to acquire illicit benefit or abuse power for one's private gain. Corruption may include many activities including bribery and embezzlement. For this definition, all forms of misconduct relating to dishonesty may be considered within the ambit of the measure. (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	C25 (GG) Number of protests reported	A protest reported refers to an unauthorised protest specifically, and excludes approved demonstrations. An unauthorised protest is a public display of grievance or concern by a group of more than 15 people for which a written approval from the local municipality has not been obtained in advance. Reported incidents means every unique incident of protest which the municipality has received a direct or indirect report for, whether in-progress or after the fact, regardless of whether the protest was aimed at the municipality or not. (Frequency: Quarterly)
	C26 (GG) R-value of all tenders awarded	The Cumulative R-value of all tenders awarded. A tender is an invitation to bid for a project. A tender is 'awarded' when the municipality officially selects an individual/company to carry out the work required to complete a project. (Frequency: Quarterly)
	C27 (GG) Number of all awards made in terms of section 36 of the MFMA Municipal Supply Chain Management Regulations	The number of tenders awarded in terms of Section 36 of the MFMA and the Municipal Supply Chain Management Regulations. Section 36 of the MFMA and the Municipal Supply Chain Management Regulations of 2005 permits the Accounting Officer to "dispense with the official procurement processes established by the policy and to procure any required goods or services through any convenient process". This would typically include urgent and emergency cases, single-source goods, and any other cases where it is impractical to follow normal SCM process. In the event of such a decision, the accounting officer is required to report this to the next Council meeting. (Frequency: Quarterly)
	C28 (GG) R-value of all awards made in terms of section 36 of the MFMA Municipal Supply Chain Management Regulations	The R-value of all tenders awarded in terms of Section 36 of the MFMA and the Municipal Supply Chain Management Regulations. Section 36 of the MFMA and the Municipal Supply Chain Management Regulations of 2005 permits the Accounting Officer to "dispense with the official procurement processes established by the policy and to procure any required goods or services through any convenient process". This would typically include urgent and emergency cases, single-source goods, and any other cases where it is impractical to follow normal SCM process. In the event of such a decision, the accounting officer is required to report this to the next Council meeting (Frequency: Quarterly)
	C41 (GG) Number of approved engineer posts in the municipality	The number of approved engineering posts. An engineer is a person who designs, builds, or maintains engines, machines, or structures. An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager.
	C42 (GG) Number of registered engineers employed in approved posts	The number of registered engineers employed in approved posts. A registered professional engineer is a person who is registered as a professional engineer with an official organising body. In South Africa, the statutory body for the engineering profession is the Engineering Council of South Africa (ECSA). An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager. (Frequency: Quarterly)
	C43 (GG) Number of engineers employed in approved posts	The number of engineers employed in approved posts. An engineer is a person who designs, builds, or maintains engines, machines, or structures with a formal qualification of a BScEng or BEng. An approved job post refers to employment posts that have been developed in relation to the Municipal Structures Act of 1998 and the Municipal Finance Management Act of 2003, and has been approved by the Municipal Manager. (Frequency: Quarterly)
	C44 (GG) Number of disciplinary cases in the municipality	The number of active disciplinary cases within the municipality. A disciplinary case is a formal procedure initiated in relation to alleged misconduct on the part of an employee which may result in a warning, sanction or dismissal. (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	C45 (GG) Number of finalised disciplinary cases	The number of finalised disciplinary cases within the municipality. A disciplinary case is a formal procedure initiated in relation to alleged misconduct on the part of an employee which may result in a warning, sanction or dismissal. (Frequency: Quarterly)
	C71 (LED) Number of procurement processes where disputes were raised	The number of procurement processes where disputes were raised within the municipality. A municipality typically allows service providers who were unsuccessful in the tender process 14 days to dispute the outcome of their bid. This process usually takes place before the letter of award is issued to the successful bidder. (Frequency: Quarterly)
	C77 (LED) B-BBEE procurement spend on empowering suppliers that are at least 51% black-owned based	The B-BBEE procurement spend on empowering suppliers that are at least 51% black owned based within the municipality. In May 2019 amendments were made to the Enterprise and Supplier Development Scorecard and are now in effect. The aim of the Preferential Procurement scorecard is to encourage the usage of black owned professional services and entrepreneurs as suppliers while inherently encouraging measured entities to empower themselves on the broad-based principles of B-BBEE. (Frequency: Quarterly)
	C78 (LED) B-BBEE procurement spend on empowering suppliers that are at least 30% black-women owned	The B-BBEE procurement spend on empowering suppliers that are at least 30% black women owned based within the municipality. In May 2019 amendments were made to the Enterprise and Supplier Development Scorecard and are now in effect. The aim of the Preferential Procurement scorecard is to encourage the usage of black owned professional services and entrepreneurs as suppliers while inherently encouraging measured entities to empower themselves on the broad-based principles of B-BBEE. (Frequency: Quarterly)
	C79 (LED) B-BBEE procurement spend from all empowering suppliers based on the B-BBEE procurement	The B-BBEE Procurement Spend on all Empowering Suppliers based within the municipality. In May 2019 amendments were made to the Enterprise and Supplier Development Scorecard and are now in effect. The aim of the Preferential Procurement scorecard is to encourage the usage of black owned professional services and entrepreneurs as suppliers while inherently encouraging measured entities to empower themselves on the broad-based principles of B-BBEE. (Frequency: Quarterly)
	C80 (LED) Date of the last Council adopted Development Charges Policy	The date of the last Development Charges policy adopted by the municipal council. A 'Development Charge' is also known as a capital contribution, engineering service contribution, bulk infrastructure connection levy or an impact fee (internationally). It is a once-off capital charge to recover the actual cost of external infrastructure required to accommodate the additional impact of a new development on engineering services.
	C86 (LED) Number of households in the municipal area registered as indigent	This refers to the number of households on the municipality's indigent register. An indigent register is a municipality administered list of households in need of economic relief/assistance. Those registered as indigent usually receive rates relief and the allocation of free basic services, including at least 6kl of free water per registered household per month and 50 kWh of electricity per registered household per month. Some municipalities provide more support than the above. (Frequency: Quarterly)

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	C87 (LED) Number of firms in the formal sector split across one-digit SIC codes	The number of formal business firms that are split across 1-digit SIC codes within the municipal area for the quarter. The Standard Industrial Classification (SIC) is a system for classifying industries by a four-digit code. It is used by government agencies to classify industry areas. In South Africa SIC codes 1 - 3 encompass the Agriculture, forestry and fishing sector; while SIC codes 5 -9 encompass the mining and quarrying sector.
	C88 (LED) Number of businesses registered with the South African Revenue Service within the municipal area	The number of businesses registered within the municipal area with SARS in terms of having submitted IT77 forms. This will include all businesses known to SARS with a physical address listed within the municipal area.
	C92 (GG) Number of agenda items deferred to the next Council meeting	The number of agenda items that have been deferred to the next council meeting because the council has failed to reach a quorum or withheld decisions on those items. Where multiple council meetings have been held, this is the sum total of those items deferred. This does not refer to agenda items referred to other structures, only items for which no decision or action is taken. (Frequency: Quarterly)
	C93 (FM) Number of awards made in terms of SCM Reg 32	This indicator measures the number of awards made by means of "piggy back" contracts. MFMA SCM Reg 32 refers to procurement of goods and services secured by other organs of state. (Frequency: Quarterly)
	C94 (FM) Number of requests approved for deviation from approved procurement plan	The indicator measures the number of requests approved for deviation from the municipality's approved procurement plan. The indicator also provides the municipality with data on the reasons why the municipality has deviated from the approved procurement plan. (Frequency: Quarterly)
	C100 (GG) Quarterly salary bill of suspended officials	The sum of the salary bill for all officials suspended from work or employment for the municipality for misconduct during the reporting period. The salary bill is inclusive of the associated benefits. (Frequency: Quarterly)
	C101 (GG) Number of dismissals for fraud and corruption	The number of dismissals for fraud and corruption reported by the municipality. Corruption is defined broadly in the Prevention and Combating of Corrupt Activities Act 12 of 2004 in Chapter 2(s3) and any criminal offence that may fall within the ambit of this definition is included for the purposes of this indicator.

7.6 2026/27 ONE-YEAR CAPE TOWN STADIUM (CTS) SCORECARD

PRIORITY: ECONOMIC GROWTH

Let's make Cape Town the easiest place to do business and create jobs in Africa
Objective 1: Increased jobs and investment in the Cape Town economy

2026/27 ONE-YEAR CAPE TOWN STADIUM (CTS) SCORECARD DEFINITIONS

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	Spectator attendance at the Cape Town Stadium (number)	Spectators at Cape Town Stadium can be defined as the total number of spectators (persons) who attend any event held at or by Cape Town Stadium through live, hybrid or virtual attendance. These events are inclusive of but not limited to bowl events, non-bowl events, film and still shoots. The indicator measures the total number of spectators who attend any event held at or by Cape Town Stadium through live, hybrid or virtual attendance.
	Events hosted- (number)	Events at Cape Town Stadium can be defined as total number of optimal planned, organised and safely executed multi-social events, exhibitions, conferences and/or occasions classified into bowl events (use of pitch and seating tiers), non-bowl events, and shoots. The indicator measures the total number of events planned, organised and safely hosted at Cape Town Stadium.
	Event activation days (number)	This indicator measures the total number of event activation days during which the stadium precinct is actively utilised for the planning, management, and safe execution of events at DHL Stadium. An event activation day refers to any day on which an event takes place at DHL Stadium with the physical attendance of spectators (for bowl events) or delegates (for non-bowl events such as film shoots, conferences, exhibitions, and functions). Each day on which such attendance occurs – for events that either generate revenue directly or form part of a revenue-generating contractual obligation – qualifies as an event activation day.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 PUBLIC SPACE, ENVIRONMENT AND AMENITIES 11. QUALITY AND SAFE PARKS AND RECREATION FACILITIES SUPPORTED BY COMMUNITY PARTNERSHIPS	Compliance with approved Repairs and Maintenance budget spend (%)	This indicator measures expenditure against the approved Repairs and Maintenance budget, as recorded in SAP. Repairs and maintenance encompass all work undertaken on facilities and equipment at DHL Stadium and include the following categories: Preventive maintenance, corrective maintenance, reactive maintenance, emergency maintenance, and post-event damage repairs. All related costs are funded from the operating budget.
	Compliance with Occupational Health and Safety Acts and Regulations (Act 85 of 1993) (%)	This indicator measures compliance against the Occupational Health and Safety Regulations on event and non-event days as well as contractors at Cape Town Stadium.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	Achievement of own projected revenue (%)	This indicator will measure the achievement of the annual projected revenue as per the latest approved budget.
	Opinion of the Auditor-General	The indicator measures good governance and accounting practices and will be evaluated and considered by the AG in determining his opinion. An unqualified audit opinion is where the auditor, having completed the audit, has no reservation as to the fairness of presentation of financial statements and their conformity with general recognised accounting practice. This is referred to as a 'clean audit'. Alternatively, the auditor would issue a qualified audit opinion either in whole or in part over the financial statements if these have not been prepared in accordance with general recognised accounting practice, or the auditor could not audit one or more areas of the financial statements. Future audit opinions will cover the audit of predetermined objectives.
	Auditor-General independent review outcome	The indicator assesses good governance and accounting practices and will be reviewed and considered by the Auditor-General when forming a conclusion on the outcome of the independent review. An annual financial statements review engagement conducted in accordance with ISRE 2400 constitutes a limited assurance engagement performed by the Auditor-General to determine whether the financial statements are, in all material respects, prepared in accordance with the applicable financial reporting framework. The independent review concludes that there are no material findings related to the annual financial statements, performance indicators, or compliance with legislation. In the absence of such material findings, the independent review outcome will be regarded as a 'clean review outcome'. Unlike a full audit carried out under ISA standards, which provides reasonable assurance, a review engagement under ISRE 2400 (Revised) offers limited assurance.
	Actual and committed spend on implementation of the WSP (%)	The Workplace Skills Plan (WSP) details the organisation's planned education, training, and development initiatives. Its purpose is to systematically plan and allocate training interventions that address needs identified through the local government's skills sector plan, the Integrated Development Plan (IDP), departmental staffing strategies, individual employee development plans, and the employment equity plan. Proxy measure for the NKPI.

7.7 2026/27 ONE-YEAR CAPE TOWN INTERNATIONAL CONVENTION CENTRE (CTICC) SCORECARD

PRIORITY: ECONOMIC GROWTH

2026/27 ONE-YEAR CTICC DEFINITIONS

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 ECONOMIC GROWTH 1. INCREASED JOBS AND INVESTMENT IN THE CAPE TOWN ECONOMY	International events hosted (number)	The indicator measures the total number of international events hosted at the CTICC. International events are defined as an event where the majority of the delegates are from outside of South Africa, the minimum amount of delegates attending should be no less than 40 and the duration should be at least two days (one night) in the city.
	Total events hosted (number)	The indicator measures the total number of events hosted at the CTICC.
	Average occupancy level (%)	The indicator measures the average occupancy level over the period for events hosted at the CTICC.
	Annual total salary cost spent on training of permanent and temporary staff (%)	The indicator measures the percentage annual total salary cost spent on training of permanent and temporary staff.
	Minimum aggregate score for all CTICC internal departments and external suppliers (%)	Customer centricity and service excellence is measured independently on the level of service offered by the CTICC to our external clients and recorded as a percentage.
	B-BBEE spend (%)	The indicator measures the percentage expenditure with B-BBEE suppliers measured i.t.o. the B-BBEE Act. B-BBEE suppliers are defined as those suppliers that have a valid B-BBEE rating certificate or an affidavit in the case of EME and QSE suppliers.
	Students employed (number)	The indicator measures the number of students employed at the CTICC in the financial year (FY).
	Graduates employed (number)	The indicator measures the number of graduates employed at the CTICC in the FY.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
 A CAPABLE AND COLLABORATIVE CITY GOVERNMENT 16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	Employees from the EE designated groups in the three highest levels of management (%)	The indicator measures the percentage of people from employment equity target groups employed in the three highest levels of management, in compliance with the municipal entity's approved EE plan. Level 1 – Executive directors Level 2 – Senior managers Level 3 – Managers
	Maintain five-star tourism grading through effective management of maintenance quality service delivery	The indicator measures the standard of the CTICC as a world-class venue. Defined as a five-star grading by South African Tourism.

PRIORITY OBJECTIVES	KEY PERFORMANCE INDICATOR	DEFINITION
16. A CAPABLE AND COLLABORATIVE CITY GOVERNMENT	Achievement of annual budgeted operating profit (%)	This indicator measures the operating profit achieved. Operating profit is defined as earnings before interest, taxation, depreciation and amortisation (EBITDA).
	Total number of capital projects for the year completed or committed (%)	The indicator measures the percentage of the total number of capital projects completed or committed for the financial year.
	Opinion of the Auditor-General	indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor-General in determining his opinion. An unqualified audit opinion is where the auditor, having completed the audit, has no reservation as to the fairness of presentation of financial statements and their conformity with Generally Recognised Accounting Practice. This is referred to as a 'clean audit'. Alternatively, the auditor would issue a qualified audit opinion either in whole or in part over the financial statements if these have not been prepared in accordance with Generally Recognised Accounting Practice, or the auditor could not audit one or more areas of the financial statements.
	Cash/cost coverage ratio	The ratio indicates the ability to meet at least monthly fixed operating commitments from cash and short-term investments, without collecting any additional revenue during that month.
	Net debtors to annual income	Net current debtors are a measurement of the net amounts due to the municipal entity that are realistically expected to be recovered. Net debtors is defined as gross debtors less impairments and refunds.
