Final repair can be within 2 to 6 weeks dependent on depot staff availability or outsourcing via an annual contractor. Time taken to repair walkways after the Department has been informed of the report thereof? (Make safe) Final repair of walkways (dependent on extent of the work required) - Work will be programmed. From 1 week to 3 months. Property valuations How long does it take on average from completion to the first account being issued? (one month/three months or longer) Do you have any special rating properties? (Yes/No) Financial Management Is there any change in the situation of unauthorised and wasteful expenditure over time? (Decrease/Increase) Are the financial statements outsourced? (Yes/No) Are there Council adopted business processes instructing the flow and management of documentation feeding to Trial Balance? How long does it take for an Tax/Invoice to be paid from the date it has been received? Is there advance planning from SCM unit linking all departmental plans quarterly and annually including for the next two to three years procurement plans? Administration (Corporate Call Centre) Reaction time on enquiries and requests? Time to respond to a verbal customer enquiry or request? (working days) Time to respond to a written customer enquiry or request? (working days) Time to resolve a customer enquiry or request? (working days) What percentage of calls are not answered? (5%,10% or more) How long does it take to respond to voice mails? (hours) Does the municipality have control over logged enquiries? (Yes/No) Is there a reduction in the number of complaints or not? (Yes/No)	Wastewater is treated before returning to the natural environment. A portion of treated wastewater is reused for irrigation and industrial purposes. System = nature = yes / System = water system (Treated Effluent for irrigation and industrial purposes) = Yes 0-4.2kl free + additional 3.15kl subsidised for indigent customers. Within 24 hours Within 24 hours Within 24 hours Within 24 hours Within 24 hours Within 24 hours Within 72 hours Within 24 hours Within 72 hours 6 weeks Within 72 hours 3 months 1 to 2 months depending on the daily billing cycle for the specific property. Yes Fluctuates from year to year. No Yes; standard SAP business processes. It takes approximately 14 days on average to pay an invoice from date of receipt, taking into account all verification and approval processes performed by all line departments involved. We have a system for demand management which is incorporated into the Tender Tracking System (TTS). The system is maintained for the MTREF period subject to the necessary data being provided in a timely and accurate manner by line departments. This varies from day to day and also depends on the medium used. Calls are answered within 1 to 2 minutes. This changes when there are spikes in call volumes. Immediately during the call; depending the nature of the request. Acknowledged immediately via auto response and responded to as soon as possible. This varies from queue to queue. Our aim is to acknowledge immediately and respond within 7 days. Approximately 70% are resolved immediately at first point of contact. 30% resolved by back office according to their service standards. Percentage of calls not answered ranges from 5% to 20%. It differs from queue to queue and the time of day, week, month, year and extenuating circumstances. We do not use voice mail. Yes; the City uses the SAP system, which gives us an overview of all customer complaints and service requests reported via the Call Centre. Yes, there is a general reduction in the number of complaints received. There are spikes in specific types of complaints, e.g. water management devices under guarantee that has now been resolved.

Description	Service Level
Standard	
How long does it take to open an account for a new customer? (1 day/2 days/ a week or longer)	There is a difference in the time to open a new account for a new property, which is dependent on the registration process from the conveyancer to the deeds office. This takes up to 3 months.

How long does it take to renew a drivers license? (minutes)	30 minutes
What is the average reaction time of the fire service to an incident? (minutes)	Between 8 to 20 minutes
What is the average reaction time of the ambulance service to an incident in the urban area? (minutes)	N/A - Provincial Competency
What is the average reaction time of the ambulance service to an incident in the rural area? (minutes)	N/A - Provincial Competency
Economic development	
Did your municipality participate in the Sub-National Doing Business Survey, and have the results been analysed to design interventions to promote the ease of doing business in your municipality? (Yes/No)	Yes
Does the municipality have a consolidated spatial view of its key business districts and the interventions required to unlock or promote economic growth in these areas, and is this information taken into account in the City's infrastructure planning – including the Built Environment Performance Plan? (Yes/No)	Yes. The City monitors information from the valuation data as well as surveys and other studies to determine economic activity. The nodes are contained in the Metropolitan Spatial Development Framework (MSDF) for the City, approved in 2018. In addition, further work is in progress to assess the data and make various assumptions about more localised economic activity to inform the Land Use Model. The Land Use Model will be used to inform the sector plans that will detail the infrastructure requirements for utilities. Land Use Model to be completed by June 2020 and draft sector plans to be available November 2020. This data and guidance will be contained in the District SDFs, that provide more detail and local perspective from the MSDF. District SDFs to be completed by June 2021.
How many job opportunities have been created through the municipality's EPWP and/or Community Work Programme in the last financial year?	36 910
