TARIFFS, FEES AND CHARGES BOOK

CITY OF CAPE TOWN
2019/2020 TARIFFS, FEES AND CHARGES

PREAMBLE

The purpose of the Tariffs, Fees and Charges book is to outline fees, charges or tariffs in respect of any function or service to the local community which a municipality may set, and includes a surcharge on such tariff.

ALL TARIFFS ARE EFFECTIVE FROM 1 JULY

All Miscellaneous and Consumptive tariffs include VAT except
Fines, Penalties, Refundable Deposits, Housing and Contracted road-based public transport which are exempt from VAT

Tariffs are determined in terms of:

The Local Government Municipal Finance Management Act 56 of 2003
The Local Government Municipal Systems Act 32 of 2000
The Local Government Municipal Property Rates Act 6 of 2004

VAT is calculated at 15% in terms of the Value- Added Tax Act No.89 of 1991

KEY TO COST RECOVERY CATEGORIES:

PARTIAL COST RECOVERY (PCR)	Where tariffs are set to recuperate, at least in part, the costs of products or services that provide benefits to the users to encourage local economic development e.g. Informal Trading
SUBSIDISED (S)	Where one group of users pay more than the costs of the goods/services that they receive, and the ‘surplus’ is used to offset the cost of goods/services provided to other users within the same service e.g. Electricity (Lifeline); Water & Sanitation (Domestic Full - Step 1 & 2); Solid Waste (240L Container Service)
SOCIAL BENEFIT (SB)	Where tariffs are set at affordable levels which encourages usage and does not cover the cost of products or services (neither partially nor fully) but provides benefits to low income users e.g. pauper burials/cremations
MARKET RELATED (MR)	Where tariffs are set at a level to ensure financial sustainability of the service e.g. Electricity (Large Power Users)
FULL COST RECOVERY (FCR)	Where tariffs are set to recuperate all costs associated with specific products or services. Full cost represents the value of all the resources used or consumed in the provision of the product or service. In addition to the costs directly associated with these, full cost includes an appropriate allocation of indirect (including capital) costs.

FCR	Call Centre Premium Service	Per user licence per month or per month pro-rata where a full month does not apply	A Premium call center is designed to provide the most advanced set of routing and call management options to support a formal call center environment. It supports such capabilities as multiple dialed number identification service (DNIS) numbers being assigned to a single call center, agent skill levels for directing calls to more skilled agents, additional unavailable codes for when agents are not able to take calls, and disposition codes to associate with ACD calls, outbound calling, and silent monitoring of agents. Only users with a Premium call center license can be assigned to a Premium call center. Includes a monthly TMS cost report per user licence. Subject to availability.			y	600.00	690.00	
FCR	Call Centre Agent	Per user licence per month or per month pro-rata where a full month does not apply	A Basic call center is designed to support a simple call distribution and queuing scenario, such as a front-office receptionist or a small work group. Inbound calls are distributed based on the agent's line state and "join" status. Callers receive appropriate entrance and queue messages, and calls can overflow to alternate locations if they wait too long in queue or if the queue is beyond capacity. Any user with a call center license can be assigned to a Basic call center. This type of call center does not support Agent ACD states, BroadWorks Agent client, or Reporting. Includes a monthly TMS cost report per user licence. Subject to availability.			y	600.00	690.00

FCR	Call Centre Supervisor	Per user licence per month or per month pro-rata where a full month does not apply	A user who is assigned to be a supervisor for a BroadWorks Call Center can have two roles, that of a team lead and that of a supervisor. In each case, the user is assigned to be a supervisor for a call center and is assigned to supervise a specific list of agents. Any user in the group or enterprise can be assigned to be a supervisor of a call center. No call center user license is required for a supervisor, except for the BroadWorks Supervisor license (to use the BroadWorks Supervisor client). However, it is recommended that supervisors have the equivalent of a Premium Enterprise feature set assigned to them. Includes a monthly TMS cost report per user licence.			y	1 200.00	1 380.00	
FCR	Business line	Per user licence per month or per month pro-rata where a full month does not apply	A BroadWorks managed PBX/IP Centrex is an application of BroadWorks that allows service providers to deliver PBX or Key system functionality to an enterprise without the associated capital, lease, or maintenance costs of a premises-based telephony system. Includes a monthly TMS cost report per user licence. Subject to availability.			y	300.00	345.00	
FCR	Standard line	Per user licence per month or per month pro-rata where a full month does not apply	A BroadWorks managed PBX/IP Centrex is an application of BroadWorks that allows service providers to deliver PBX or Key system functionality to an enterprise without the associated capital, lease, or maintenance costs of a premises-based telephony system. Includes a monthly TMS cost report per user licence. Functions include all functions available for standard line plus: Anonymous Call Rejection, Automatic Callback, Call Me Now, Diversion Inhibitor, Do Not Disturb, Group Night Forwarding, Hoteling Guest, Speed Dial 100 and Speed Dial 8. 				In the case of a group housing development or block of flats, SNC is calculated on the sum of the group-diversified maximum demands of all the units plus the undiversified authorised capacity of the general supply, irrespective of the size of the bulk supply.						
				For commercial/industrial customers SNC is calculated on the authorised capacity for new connections and on the increase in authorised capacity for supply upgrades.

	SPECIAL CONDITION											
	The booking, for fund raising and commercial purposes, of resorts, coastal facilities, parks or sections thereof, where traditionally high volumes of communities make use of such facilities during season and public holidays, is not permitted. This prohibition is applicable particularly where such organisations, individuals or entities will exclude the general public from making use of the facilities and/or where an entrance fee is applicable. Events and activities formally supported by the City are not affected											
	EVENTS											
	Event application may not be processed or allocated an Event Organiser reference number without venue confirmation letter by the venue owner. Events may only proceed upon receipt of events permit obtainable from Events Office. Conditions of hire for sportsfields as well as consideration of facility user priority are applicable upon consideration of events permit. In addition to a deposit being charged, the Event Organiser must sign a consent form which obliges the Event Organiser full responsibility and accountability for field damages caused by the event. Event Organiser is liable for cost of post event reinstatement where applicable.											
	No parking allowed on Green Point Common fields during events to preserve fields for high sporting demand											
	Refundable deposit for events for 1 to 5 fields = 50% of hire fee. Deposit to increase by 20% per field in excess of 5 fields used.											
	Commercial tariffs applicable to all revenue generating events											
	Non commercial tariffs applicable to all non-revenue generating events.

	GENERAL CONDITIONS:								
	The booking, for fund raising and commercial purposes, of resorts, coastal facilities, parks or sections thereof, where traditionally high volumes of communities make use of such facilities during season and public holidays, is not permitted. This prohibition is applicable particularly where such organisations, individuals or entities will exclude the general public from making use of the facilities and/or where an entrance fee is applicable. Events and activities formally supported by the City are not affected								
	1.CANCELLATIONS OF BOOKING/REFUND OF HIRE CHARGE (Including Filming)								
	1.1 An administration fee equivalent to 10% of the tariff applicable to a booking will be levied for every transfer of a booking provided that written notice of intention to transfer is given on or before the 14th day prior to the date originally reserved and the facility being available on the new date requested.								
	1.2 Cancellations must be by written notice.								
	1.3 If the booking is cancelled after the payment was received a 10% cancellation fee will be charged, based on the total amount due (excluding breakage deposit).								
	1.4 If a cancellation request is received less than 14 (fourteen) days before occupation, no refund of any money will be made.								
	1.5 Notwithstanding the abovementioned, should a booking be transferred or cancelled, the date of the original booking will be used to determine the amount of refund to which the Lessee is entitled.								
	1.6 Rebates on Film Permits: If for Cape Town Marketing or Student Film, 100% rebate may be applied in consultation with Cape Town Film Permit Office.								
	1.7 Where no charges are applicable, the minimum time before the event to submit application will be 2 days and 10 days where charges are applicable.

SB		• Building Plans for all buildings and structures, including Housing projects managed by the Local Authority, erected for and by the Local Authority. (Plans must be submitted and approved prior to construction.)								
S		• Applications in respect of alterations and /or additions to any building older than 60 years and of special heritage significance subject to the following provisos: o The exemption will be applicable for internal alterations and external, including renovations and repairs, where at least two thirds of the heritage fabric is retained as determined by the City's Heritage Resource officials. The exemption will not apply to applications where only the shell of the original building is retained. o The exemption will be applicable for additions to existing buildings on condition that the architectural floor area of the additions is less than 25% of the architectural floor area of the original building. o The exemption will not apply to applications for new separate buildings on the same erf.								
		o The exemption will not apply to applications for new work where only a portion of the original building is retained. For example the façade of the original building. The exemption will apply where the façade is retained and there is redevelopment within the envelope of the existing building.								
		o The exemption will not be applicable to applications for building work in urban conservation areas unless the first two criteria apply								
SB		• Applications from organisations providing residential facilities to the elderly and homeless children who qualify for rates relief in terms of: (a) the criteria mentioned in Item 6.7 of the Rates Policy and; (b) accreditation obtained from the Homeless Agency Committee (HOMAC) as stipulated in the Children's Act No. 38 of 2005. It will be required from the owner of the property on which the building plans is to be submitted to provide sufficient proof that he/ she has been relieved from the payment of rates by the City's Revenue Department in terms of (a) or has obtained accreditation from HOMAC in terms of (b).								
		• Applications for the conversion, or addition to, dwelling houses or other residential units for ECD purposes in former state subsidized housing developments will be charged for at the minimum tariff for such residential developments up to a total habitable floor area of 80m².								
SB		• All applications required to address / give effect to successful resettlement claims in terms of the Restitution of Land Rights Act, as well as in cases where land has been allocated to a successful claimant, such claimant is allowed to submit only one application (building plan), for residential development only which application(s) will be exempted from building plan fees as per normal fees.								
S		The Director: Planning & Building Development Management may authorise exemption from building plan application tariffs in cases where a building plan decision was set aside in a court of law and is required in terms of a court to be resubmitted to the City for decision, subject thereto that it is the same plan as originally submitted.								
		GENERAL								
26		• The Director: Planning and Building Development Management may grant or refuse applications for the exemption of some or all the applicable Building Development application fees of a particular application which are necessitated due to changes to developments made at the request of the Environmental Management Service of the City of Cape Town in the interests of environmental or heritage conservation.								
		• Applications in respect of any building to be erected or altered or additions thereto in the Atlantis Industrial Area as defined in the Cape Town Zoning Scheme or any building to be erected or altered or additions thereto in any other approved spatially targeted areas as provided for in Council's Investment Incentives Policy.

		2 Public Transport Fares	Fare Level One							
	2A Mover Packages			Value can be added onto the card as money or as a Mover Package. The Mover Packages give added benefit such as covering the bank load fees and enabling the discounted Mover Fare to be charged compared to fares charged against money loaded. Mover Packages load points equivalent to the rand value. Conditions 2.6a and 14 apply to loading and charging of fares against the balance of points on the Smartcard.						
SB	2A.1A	Mover 35	Per load	Loads the equivalent points on the Smartcard without having to pay load fees. Available only where determined appropriate, i.e. where kiosk queue lengths are not compromised due to repeated loads.	35.00		No (exempt)	35.00		0.0%
SB	2A.1B	Mover 50	Per load	Loads the equivalent points on the Smartcard without having to pay load fees. It also enables Mover Fare fares to be charged i.e. <i>at a</i> reduction in fare compared to the Standard fares.	50.00		No (exempt)	50.00		0.0%

SB	2E.1	When on non-premium routes and not checking in or not checking out: non-closure fare / Minimum fare evasion Penalty Fare - First two penalties	Per passenger	It is the responsibility of a passenger to check in and out when entering the system. The non-closure fare is charged where a passenger either does not check in, or does not check out, or does not check in or out correctly - other than with respect to travel on a Premium Route. This applies where there is no clear indication of an intention to evade fare or where the penalty is charged automatically.	15.00		No (exempt)	15.00		0.0%
SB	2E.1a	When on non-premium routes and not checking in or not checking out: non-closure fare / Minimum fare evasion Penalty Fare - 3rd and subsequent penalties	Per passenger	As per Item 2E.1 - 4th and subsequent penalty.	30.00		No (exempt)	30.00		0.0%
SB	2E.1b	When on non-premium routes and not checking in or not checking out: non-closure fare / Minimum fare evasion Penalty Fare (increase in case of Gaming) - [4th] 3rd and subsequent penalties	Per passenger	As re item 2E.1a. This higher level of the minimum non-closure Penalty Fare (in replacement of item 2E.1) may be activated by the City through a Notice in the Press where information suggests that a significant number of passengers is likely to be Gaming the system, [i.e.] e.g. to be travelling more than 40km in distance do not tap out because the fare evasion Penalty Fare is lower than the fare for the 40km+ distance band or to have such effect even if not intended. In such case the smartcard purchase fee may be increased as set out in item 2F.1A, either in addition to this measure, or as an alternative to it.	44.00		No (exempt)	44.00		0.0%
SB	2E.2	When on a Premium Route and not checking in or not checking out: Premium non-closure fare	Per passenger	Similar to Item 2E.1, here applicable to a Premium Route, with the exception that a passenger found not to have checked in or out on a Premium Route (whether previously travelled on a non-premium route or not) for any reason, must be charged the premium non-closure fare.	117.00		No (exempt)	99.00		-15.4%
SB	2E.3	Full Fare Evasion Penalty Fare	Per passenger involved in such fare evasion	A Fare evasion Penalty Fare is charged where a person is likely to have evaded or attempted to evade paying a fare - see condition 2.2. 		1. The fares for contracted Dial-a-Ride services are set out in the Network Management tariff table. This Tariff Table applies to all other road-based public transport services contracted by or provided by the City. However, the Conditions of this Tariff Table, read with the changes required by the context, applies to Dial-a-Ride services, except in as far as they are excluded by way of Fare Rules.								
		2. Definitions (which may include substantive provisions)								
	2.1	"AFC" means an Automated Fare Collection system as defined in the Regulations.								
	2.1a	"Charter " means <i>the charter or hiring of buses and other facilities</i> under Item 4. <i>Buses may be chartered for use anywhere within or outside the municipal boundaries provided this is permitted in terms of the relevant operating licence ;</i>								
	2.1b	"City" means the City of Cape Town;								
	2.1c	"Day Pass" <i>means any pass with "Day Pass" in its name as in the Item description in the table above;</i>								
	2.1d	"Director" means the Director responsible for this Tariff Table, <i>in January 2019 being the Director of Contract Operations,</i> or delegate;								
	2.1 e	"ED " or "ED: Transport" means the <i>Executive Director: Transport</i> . The <i>Executive Director: Transport</i> may delegate any function assigned by these tariffs to the <i>ED: Transport</i> to another official.								
	2.1 f	"Fare Rules" mean the rules referred to in Condition 3(a), which may contain any transitional arrangements towards the implementation of the Items and Conditions set out in this Tariff Table, or in the tariff table applicable to the Dial-a-Ride service;”								
	2.2	"Full Fare Evasion Penalty Fare" means the fare to be charged where an inspector or other authorised City representative (including an access control staff member of any City contractor contracted to perform any access control function) believes there is prima facie evidence that a passenger has evaded, or is likely to have evaded, or to have attempted to evade paying the fare intentionally. Examples include: (a) Where a passenger jumps over an access gate or a station fence, or tailgates. An example of tailgating is where a passenger enters a gate together with or immediately following another passenger in such a manner that the second passenger does not pay a fare. (b) Where more than one passenger acts in this way with another passenger in such a manner that the second or subsequent passengers do not pay a fare. (c) Where more than one passenger acts in this way with a common purpose, they may each and all to be charged the Penalty Fare. (d) Where a passenger participates as beneficiary in a scam or racketeering, referred to in Item 2E.4. (e) Notwithstanding having been charged a Penalty Fare, the relevant passengers may also be prosecuted.								
	2.3	"Fuel price" means the regulated / listed wholesale price for low sulphur (50ppm) diesel in Cape Town, as announced / listed by the Department of Energy or any other national department that take over this function.								
	2.4	Definition of "Full Fare System" deleted in 2017.								
	2.4A	"Gaming" means use of a transit product or fare rule by passengers in a manner not intended by the Tariff Table, resulting in loss of fare income by the City, which collectively could exceed R100 000 per annum, as calculated through analysis of fare data or as modelled;

	2.5	"Journey" means one or more one way trip segments, connected through permitted closed and open transfers. (a) A permitted closed transfer is a permitted transfer made at a station between different routes served by such station. (b) A permitted open transfer is a transfer that complies with the following two conditions: (i) where the customer checks in on a bus or at a station within 45 minutes of having checked out elsewhere in the system (give or take 5 minutes); and (ii) where the customer checks in on a bus or at a station within 2 and a half hours of the first time that he / she checked in first on a given day (referred to as the 2 and a half hour boarding window). A further Journey starts when the passenger checks in again after such 2 and a half hour boarding window, in which case a new boarding window period start; (c) Where a passenger remains in the system for more then four hours (i.e. finally taps out of the system more than four hours from the first tap-in regarding that Journey) the City may charge either an additional boarding fare on tap out, at the same rate as the original boarding fare charged at the start of that Journey (excluding any Airport Premium that may have been charged); or the relevant non-closure fare. (d) The periods of 2 and a half hours, 45 minutes and 4 hours above may be amended by the City by way of a Notice in the Press;								
	2.6	"Manual ticket", means a manual ticket involving paper tickets or electronic ticket system with limited electronic capabilities;								
	2.6a	(a) "Mover Package" means a package of points loaded through Items 2A.1 to 2A.7, being Mover Packages, "Mover Points" are the points loaded through Mover Packages , and "Mover Fares" are the fares charged when there are sufficient Mover Points available in a Mover Package to pay the applicable fare. (b) No refunds on Mover Packages will be given. (c) The value will expire three years after the latest upload. (d) Notwithstanding the listing of specific Mover Packages in Items 2A.1 to 2A.7 the Fare Rules may permit the sale, subject to any conditions, of Mover packages of any number of Mover Points ("Denomination") provided the technology of the AFC system is able to accommodate that, subject to (e). (e) If the Fare Rules permit Mover packages of any Denomination of Mover Points to be loaded in terms of (d) above, and if the Fare Rules permit the load of Mover Points below the minimum value as in Item 2A.1, then the Mover Points sold in Denominations smaller than that in Item 2A.1 may be sold subject to a surcharge of up 40%. Such surcharge may be included in the cost of the Mover Points themselves.								
	2.6b	"myconnect Smartcard issuing fee" means the fee to be charged to any passenger to whom a myconnect Smartcard is issued. (a) The City does not repurchase Smartcards. However, the City may publish a Notice in the Press indicating that the Smartcard will be repurchased for a period stated in the notice. If such a notice applies, the City may repurchase the card at the purchase price of the card minus the administration fee listed in Item 2F.2, subject to such other terms and conditions as the City may determine. (b) Issued subject to MyCiTi Rules and Terms & Conditions made available together with the Smartcard, or on the [TDA] Transport website, incl terms and conditions regarding the repurchasing of the Smartcard by the City - which conditions may be varied on Notice in the Press (c) The myconnect Smartcard issuing fee may be waived or discounted during periods of which Notice has been given on the [TDA] Transport website and in the press, provided that, as far as practically possible, only one card is issued to each person, provided the person is a resident of the City, and subject to the terms and conditions as apply to such free card issue, as set out on the [TDA] Transport website, provided that the extent of the waiver or discount and the terms and conditions shall be determined so as to ensure as far as it is practicable that fare evasion is kept to a minimum;								
	2.7	"Non-Premium Route" means any route other than a Premium Route;								
	2.8	"Notice in the Press" means a notice placed in two newspapers generally circulating in Cape Town, and / or on the [TDA] Transport website and / or through Fare Rules;								
	2.9	"One way" means one movement (e.g. a trip or a Journey) either in a forward direction or in a return direction (which could be achieved using a Fare Rule that approximates an additional boarding fare);								
	2.10	"Peak Commuting Periods" means the periods between 05:30 and 09:00 and between 15:30 and 18:00 on any weekday;

	2.11	"Peak Fare Period" means the period between 06:30 and 07:45; and between 16:15 and 17:30 on any weekday. This period may be amended by Notice in the Press. The peak fare period may be set at different periods for different stations / stops or distance bands or for different times of the year. The fare for the whole Journey is based on the time the passenger enters the system the first time on that Journey;								
	2.11A	"Penalty Fare" means any penalty fare payable in terms of this Tariff Table, including a non-closure fare, and a "Penalty" means a penalty charge as determined through the tariff provisions above, for a services or for use (including unlawful use) of services or infrastructure or to make good for costs potentially incurred by the City, and both enforceable through any and all civil enforcement mechanisms;								
	2.12	"Premium route" means a route ending or beginning at the Airport Station;								
	2.13	"Redundancy conditions" means when a necessary part of the AFC system is not operating as planned or is expected not to be operating as planned, such as (i) when the system for loading money or points on Smartcards is down, or (ii) when the electricity supply is interrupted and the uninterrupted power supply (provided as backup) fails, or where the electricity supply is interrupted for an extended period resulting in the power in the uninterrupted power supply being depleted, or (iii) when there is a significant problem regarding customer access to services on a given route due to unavailability of smartcard sale and / or full electronic loading facilities, in a context where the average customer is expected to take a relatively short trip; or (iv) for any other reason; Provided that (a) the City may determine that it will from a given date use Item 2G Redundancy Manual Tickets; (b) item 2G.2 (airport premium redundancy ticket) may be issued in non-redundancy conditions; and / or (c) a fare rule may be issued in terms of which any redundancy tickets may be used where required for other material operational reasons;								
	2.14	"the Regulations" means the Regulations relating to integrated fare systems, published in the Government Gazette on 17 June 2011 in terms of the National Land Transport Act, 2009. The Items or conditions in this Tariff Table were amended on the understanding that such regulations will be amended to permit such changes, even where the relevant mechanisms and arrangements may not previously have been permitted. However, if the Regulations have not been amended by the time that these amended Items or Conditions become applicable, the ED: Transport may publish a notice amending such Item or condition in such a manner that it complies. In the mean time such Items and Conditions shall be interpreted in a manner as to comply with the Regulations, if capable of such interpretation.								
	2.14A	"Saver periods" means all periods of operation of the service, other than Peak Fare Periods;								
	2.15	(a) "Smartcard" means a contactless card (incl the myconnect card), a bank issued payment instrument, complying with Europay/ MasterCard/ Visa (EMV) specifications and conforming to the requirements of the National Department of Transport data structure, as prescribed in the Regulations. A user can use the Smartcard in two ways: (i) as an electronic purse, with money to be loaded as required, regarding which the user must pay load fees to the issuing bank (which load fees are deducted from money loaded and which load fees are payable in addition to the fees above), with fares being paid from this purse by checking in / or out of the contracted road-based public transport system, also referred to as "payment using money"; and (ii) to load and use a Mover Package issued by the City, also referred to as "payment using travel points"; (b) Once permitted by the Regulations, "Smartcard" may refer to any other mechanism that permits recordal of the elements described in (a) above, subject to the Fare Rules;								
	2.15A	"Tariff Table" means this tariff table for Road-Based Public Transport Services, also referred to as the "Transit Tariff";								
	2.16	"Transport Directorate" means the Transport Directorate or its successor in title;								
	2.17	"Transport website" means any website operated by the City in order to provide information regarding public transport in the City;								
	3.	(a) These tariffs are subject to the MyCiTi Rules or the Fare Rules as may be set out in the Fare Policy for Contracted Road-Based Public Transport Services, or as may be displayed on the Transport website. These Conditions may be amended by way of a change in the Fare Rules, provided that Notice of such amendments have been given in the Press.

		(b) Discounted fares may be provided regarding Park-and-Ride facilities linked to MyCiTi services, which must be announced through a Notice in the Press. Park-and-Ride fares/ fees may be calculated as set out in 3(d), and may be subject to conditions, including the conditions in 3(e). Where the Park-and-Ride services are provided in partnership with an external party providing parking facilities and/ or related services: (i) the City may charge via the Smartcard also the component of the combined Park-and-Ride fee that the parker is required to pay for use of the parking facilities and / or related services to the external party, whether in money or in Mover points; (ii) the City may pay such component of the Park-and-Ride fee collected by the City on behalf of the external party, minus an administration fee (if any), to such external party; (iii) Provided that the arrangement between the City and the external party is recorded in an agreement concluded between the parties.								
		(c) As an example of the discounted Park-and-Ride fares referred to in Condition 3(b), the premium applicable to those trips beginning or ending at the MyCiTi Airport Station may be waived, e.g. where an appropriate transit product has been loaded on the Smartcard, such as a park-and-ride Transit Product. The City may do so by adjusting or waiving the provisions of items 2B.1.7, 2B.2.7, 2C.1.7 and 2C.2.7, where Park-and-Ride conditions apply.								
		(d) (i) The tariff items may be combined, based on an estimated number of uses by passengers of a specific group or category, and a combined transit product or items in this regard may then be offered to a bulk buyer or contracted party at such combined price, subject to any conditions as may be appropriate. (ii) Where such combined transit product or tariff items are charged to a commercial entity, a fare or fee based on a full cost recovery basis <i>plus a surcharge of up to 15% to cross-subsidise other public transport services</i> may be charged, which may be priced up to four times the amounts indicated in this Tariff Table, and thus be charged effectively at a commercial rate, adjusted as appropriate to consider the competing market rates for the same or similar services.								
		(iii) Where additional public transport services are added specifically for the benefit of commercial entities, the <i>ED: Transport</i> may approve an agreement with any such entities providing for a fare guarantee or for a guaranteed load of transit products by any such entities, provided that: (1) an agreement is entered into between the City and commercial entity (-ies) benefiting from these services; (2) the City has estimated the potential additional cost of and fare income due to adding these extra services; (3) the <i>ED: Transport</i> has considered the objectives of the Fare Policy; and (4) such approval is communicated through a Notice in the Press.								
		(e) The combination of tariff items in (d) may be done on the condition that those passengers actually using the service must pay the ordinary fare for their public transport services, in which case the combined price set regarding the combined transit product and payable by a bulk buyer or contracted party may then be reduced on the basis of actual or assumed passengers paying for the services offered.								
		(f) Where Items 3 and 4B.1-4B.7A are used for ongoing services for more than seven continuous days, then these rates may be discounted taking into account the cost of providing the services, the fares that are likely to be collected from passengers using the service (if any), the additional charges referred to in 3(d)(ii) and a reasonable mark-up.								
		(g) Saver fares for counter-flow travel may be offered to passengers during Peak Fare Periods or a part of Peak Fare Periods, on routes where there is generally a significant differential between passenger flow in the forward and return directions. This provision may be <i>further defined and</i> activated by way of <i>Fare Rules</i> .								
		(h) To account for the fact that passengers in Dunoon travelling to or from Dunoon and Usasaza stations may have to pay another fare for private feeder transport, a discount of R2 to the fares of passengers on contracted road-based public transport to or from these stations may be activated from a date to be determined by the <i>ED: Transport</i> . Once in place the discount may be cancelled from another date that the <i>ED: Transport</i> may determine or may be amended by the <i>ED: Transport</i> .								
		(i) Where necessary for practicality, or where it is not technically possible to implement an element of the conditions or Tariff Table exactly as worded in this Tariff Table, the relevant element may be amended in programming of the fares, provided the relevant change is embodied in a Fare Rule.								
		(j) Passengers may not make Smartcards with the following transit products available to others for a fee or through another kind of exchange: monthlies or any category of day passes. This prohibition does not apply to accommodation establishments, employers or tourism operators making cards with transit products available to guests, employees or tourists respectively. This provision may be amended by way of the Fare Rules.								
		(k) The <i>ED: Transport</i> may approve a discount of the fares set out in this Tariff Table for routes serving specific origin-and-destination combinations (ODs) in order to ensure a competitive fare on such ODs compared to alternative modes, and set conditions for such discount, provided that: (1) The revenue projected from the additional passengers attracted through such lower fares (with or without other measures to attract passengers) is projected to be greater than the increase in VOC costs plus the reduction in fare income as a result of the discount; (2) the <i>ED: Transport</i> considers in the design of the discount the objectives of the Fare Policy; and (3) such approval is recorded in the Fare Rules or by way of a Notice in the Press.

		(l) At any time in the financial year the City may implement a Council approved discount of the fares set out in this Tariff Table for routes serving specific origin-and-destination combinations (ODs) in order to ensure a competitive fare on such ODs compared to alternative modes, and set conditions for such discount, provided that: (1) The revenue projected from the additional passengers attracted through such lower fares (with or without other measures to attract passengers) is projected to be greater than the increase in VOC costs plus the reduction in fare income as a result of the discount; (2) the Council considers in the design of the discount the objectives of the Fare Policy; and (3) such approval is recorded in the Fare Rules								
		(m) Subject to the Fare Policy, fare zones may be determined throughout the City, and each stop or station will be allocated to the corresponding zone. The distance-based fares in this Tariff Table will then apply to the travel distances between such zones.								
		(n) The ED: Transport may approve a concession for a bus operator to operate within the dedicated bus lane and may set appropriate conditions in this regard. The rate for such shall be set at a maximum of the modelled fares that would otherwise have been payable in terms of the approved tariff for such services at a reasonable level of utilisation, in compliance with business parameters approved by council in this regard. The business parameters shall address the factors that should be taken into account in calculating the rate, including the proposed route and its current utilisation, number of kms and the subsequent time saving of the passengers on a concession bus, and the extent to which the concession will assist to reduce congestion in the City; and may define the type of conditions should be applied to a concession, such as conditions to ensure that the concession is unlikely to have an undesirable influence on ordinary public transport services using the buslane.								
	4.	(a) The fares and fees in this Tariff Table are available only for a service that is actually being provided at a given time. Services will be provided subject to the required operating licences for schedules bus services having been granted. Where any existing route is amended and an operating licence is granted for that amended route, the tariff will apply to such amended route, unless a future approved tariff provides otherwise.								
		(b) Some of the fares and fees listed above may not be available or provided within the applicable financial year for reasons that may include limitations regarding the available technology to charge the particular fare or fee.								
	5.	Fare levels One, Two and Three may apply, depending on changes in fuel price, subject to this Condition 5.								
	5.1	Fare level One will be applicable from 1 July of the applicable financial year.								
	5.2	The fare will be adjusted between Fare levels One, Two and Three only when there are significant changes in the fuel price, as set out in Conditions 5.3 to 5.7.								
	5.3	The initial fare, Fare Level One, has been set assuming a regulated wholesale price of R14.23 per litre for low sulphur diesel (50ppm) in Cape Town. If the price rises above R17.08 per litre Fare Level Two will be implemented.								
	5.4	Fares will be maintained at Fare Level Two unless there are further significant changes to the fuel price.								
	5.5	If the fuel price falls below the base price of R14.23 per litre fares will revert to Fare Level One. If the fuel price rises above R19.92 Fare Level Three will be implemented.								
	5.6	Once fare levels are at Fare Level Three they will be adjusted downwards to Fare Level Two only if the fuel price falls below R17.08 and to Fare Level One only if the fuel price falls below the base price of R14.20.								
	5.7	Changes in fare levels linked to the above changes in the fuel price will be implemented as follows: (a) only once the relevant fuel price is higher than the relevant threshold for at least three consecutive months; (b) from the end of the second month following the month in which an official announcement is made of fuel price changes that will result in triggering the shifts between fare levels as described above, i.e. regarding the third month that such first higher fuel price, as referred to under (a), has been announced; (c) the fare increase provided for above must be effected to start from one of the following dates (always complying with each of the above factors): 1 March or 1 November								
		(d) Par (a)-(c) will apply regarding lowering of fuel prices as referred to in Conditions 5.5 and 5.6, with the changes required by the context.								
	5.8	Where the fuel price increases or decreases significantly in any year between March and the date upon which the agenda closes for the Council meeting where the final budget for the following financial year is to be adopted, Council may consider whether to increase or reduce the published fares, an appropriate proposal for an adjustment to the originally published draft tariff may be submitted to Council for its consideration.

	6.	Tickets / products / cards / event-related fees may be sold / charged to vendors / clients at a discount of up to 33.33%, or vendors may be paid regarding relevant sales a commission of up to 33.33%, subject to appropriate conditions. Such discount / commission for load of Mover Points of Transit Products may be offered at a flat rate per load, which discount / commission for low denominations may be of a value above the above discount limit.								
	7.1	As and when considered appropriate or necessary, free travel days may be held and / or complementary tickets or Smartcards (with or without money or Mover packages) may be issued, for marketing purposes , provided that there is budgetary provision for any losses in fares or additional costs incurred. In such cases no fare will be charged for a given service, or a reduced fare may be applied.								
	7.2	The <i>ED: Transport</i> may, after considering all relevant factors, activate the Group Card functionality for purposes of promoting use of the public transport services that can be paid for by using the myconnect card, to promote use of public transport, and to make it more affordable to families, groups of scholars and pensioners, or other groups. The public must be notified of the implementation of the Group Card by way of a Notice in the Press. The <i>ED: Transport</i> may also terminate the availability of such Group Card, on notice in the press of at least three months.								
		(a) When deciding to implement the Group Card, the <i>ED: Transport</i> must also determine (i) the maximum number of users, with the default maximum being 31; (ii) whether the number of maximum users will be open to the election of the Group Leader as indicated in 7.2(c) below; (iii) whether the Group Card can be used only in the Saver period, or also during the Peak Fare Period; (iv) whether the issuing fee provided for in 7.2(c)(iii) is to be discounted as part of free card issue initiatives provided for in 2.6b(c) and if so, which discount would apply; and (v) further conditions to avoid abuse of the Group Card or to deal with difficulties that may be caused by use of the Card.								
		(b) The <i>ED: Transport</i> may at any time change any of the rules in par (a) by way of a Notice in the Press.								
		(c) If the Group Card functionality has been activated in terms of this par 7.2, the following rules apply: (i) The person purchasing a Group Card (referred to as the "Group Leader") must define the intended maximum number of passengers in the group, subject to the <i>ED: Transport's</i> determination in terms of 7.2(a) or (b). (ii) The Group Card must be personalised with at least details of the Group Leader, including an authenticated address to which an account for any outstanding non-closure fares and penalties could be sent, for which the Group Leader must accept full responsibility for payment within 30 days of issuing of an invoice or statement in this regard. (iii) The issuing fee of a Group Card is the smart card issuing fee as defined above plus an amount equal to half of the Non-Closure Fare in Items 2E.1a or 1b, as applicable, for each of the intended members of the group as selected by the Group Leader in terms of (i) above or as determined by the <i>ED: Transport</i> in terms of 7.2(a) or (b), alternatively a pre-authorised link to a credit card provided by or on behalf of the Group Leader in terms of which any outstanding fare or penalty can immediately be charged to the account linked to the relevant credit card account. (iv) The Group Card cannot be sold back to the City, but can be surrendered to the City at no repayment. (v) All the passengers travelling on a group card must access the service as a group, must travel in this group to enable proper inspection regarding each of the relevant passengers, and must leave the service as a group. (vi) The Group Card, when used for travel, must always be in possession of one of the passengers travelling in this group. (vii) Fare evasion penalties as defined above are payable regarding every passenger found in a public transport vehicle or on a station, or leaving such vehicle or station, if the relevant Group Card is not presented immediately by or on behalf of each such passenger. (viii) For the avoidance of doubt, non-closure Penalty Fares as defined in this Tariff Table are payable regarding every passenger in the group, where the number of passengers that entered the system is different from the number of passengers that exited the system regarding a given Journey.

		(d) If the Group Card functionality has been activated in terms of this par 7.2, the following fares rules apply: (i) The same fares that would otherwise apply, subject to a discount of 15% of the relevant fare with regard to the second and subsequent passenger travelling in the group. (ii) Any outstanding Non-Closure Fares or other penalties fares may be charged against any positive balance on the smartcard at any stage. (iii) Further use of the Group Card may be refused if any amounts due regarding Non-Closure Fares and penalties remain outstanding as per the City's records. (e) These fare rules may be amended by Notice in the Press.								
	7.3	The <i>ED: Transport</i> may, after considering all relevant factors, determine which (if any) stations and other points of sale of myconnect Smartcards will sell the myconnect Smartcard subject to a rebate. At such stations and selling points a rebate of 15% (with the sum rounded up the closest full Rand) will apply to the myconnect Smartcard issuing fee. Notice of such rebate must be given in the Press. When repurchasing such cards in terms of Item 2F.2 the City will deduct the rebate amount as well as the relevant administration fee.								
	8.	The City's Contracted Road-based Public Transport Services and the distance-based fares are run on a pilot basis and may require significant adjustment during future budgetary processes, based on an assessment of the initial services and fares and their impacts. In addition, adjustments may also have to be made as required in order to implement the conditions / tariffs using the intended fare system technology, at the time that the tariff tables are finalised following the public participation process, for approval by Council.								
	9.	Cancellation of bookings for Item Nos 4A and 4B: if notice of cancellation is given within 48 hrs of the start of a booked service, the client shall pay a cancellation fee of 100% of the total cost of the booked service / accepted quotation; if notice of cancellation is given between 48 hrs and 5 days of the start of a booked service / accepted quotation, the client shall pay a cancellation fee of 50% of the total cost of the booked service / accepted quotation; if notice of cancellation is given between 5 and 10 days of such event, the client shall pay a cancellation fee of 25% of the total cost of the booked service / accepted quotation; and if notice of cancellation is given more than 10 days prior to such event, then no cancellation fee is payable. The cancellation fee may be waived in case of exceptional circumstances that justify such waiver.

	10.2	Category 2 - Public transport operations and monitoring staff								
		(a) Vehicle Operator Companies (VOCs) and Station Management Services Company if they are in MyCiTi uniform: Only those staff members permitted in the relevant contract with the City to travel without paying the prescribed fare, and only if they are travelling as part of their duties, <i>unless the ED determines otherwise, based on alternative arrangements having been made for such staff gaining access;</i>								
		(b) City and its contractors' staff responsible for fare management and contract compliance monitoring;								
		(c) Event specific volunteers or staff deployed by the City <i>regarding Even specific services.</i>								
	10.3	Category 3 - City technical team members and others								
		(a) System Planning, Infrastructure, Operations and Business Planning technical staff (<i>for the purposes only of monitoring, continuous improvement and to aid planning</i>)								
		(b) Transport data collection and survey staff								
	10.4	Category 4								
		(a) All babies and toddlers under the height of 1.0m, provided that they appear to be under 4 years of age, unless it is indicated by the passenger or a person accompanying the passenger, that he/she is over 4 years of age.								
		(b) A person accompanying a disabled person, provided that such person has a certificate issued by a registered medical practitioner confirming that the relevant disabled person/s cannot travel without such assistance, subject further to any relevant Fare Rules.								
	10.5	Category 5 - Concession Fare for Targeted Groups during limited time periods								
		The <i>ED: Transport</i> may implement a concession for Target Groups identified in (a) below, subject to the following

		(a) The concession must be designed to target passengers travelling during two narrow concession periods falling outside Peak Commuting Periods or on the outer edges of such peak periods, where the requirements of (b) to (d) are met; (b) The concession shall be run as a pilot for a fixed period, during which the impact of and issues raised by the concession shall be monitored, and the continued implementation of the pilot be reviewed; (c) The concession must be planned to further travel demand management objectives; (d) The concession shall be planned such that any additional services resulting from the introduction of the concession, the cost of administering the concession, and any resultant fare losses are covered by a specific budgetary provision in addition to the usual budget provision for services falling within this Tariff Table.								
	10.6	General:								
		(a) The concessions in Categories 2(b) and 3 will apply only if the Director authorises such on an individual basis, where exceptional circumstances justifying such concession exist.								
		(b) Persons falling within Category 2 & 3 are exempted from paying the prescribed fares only if they have the necessary identification, and a pass signed by the Director giving them specific authorisation.								
		(c) No contractors other than those listed above may be exempted from paying the prescribed fares, except in exceptional cases and only in compliance with the remainder of the provisions of this Condition 10.								
		(d) Fare Rules may be issued regulating the Concessions in this Condition 10 in more detail, and such Fare Rules may amend the detailed provisions of the remainder of this Condition 10 to facilitate practical implementation, to avoid fare evasion and to achieve the general objectives of these Concessions.

		(d) Tariff increase regarding items not directly affected by VOC costs								
	12.	All total fares payable to be rounded-up to the nearest 10c, unless it is deemed fit to round to 50c, R1, R5 or R10 for practical purposes e.g. regarding change or capabilities of automated equipment, should this be applicable.								
	13.	All decisions permitted or implied in these conditions may be taken by the Manager responsible for Automated Fare Collection in consultation with the Manager responsible for [F&A] Business Planning and the Manager responsible for Contract Operations, all in the Transport Directorate ; alternatively by the ED.								
	14.	Conditions regarding all fares and fees in terms of Item 2:								
	14.1	The boarding fare will be charged when checking in to the fare system, and the distance-based component (being the fare for the Journey up to that point minus the boarding fare applicable to the relevant fare) will be charged when checking out. The fare at which the boarding fare or the distance-based fare will be charged will be the lowest fare applicable, in the following order: first against a transit product available; then the Mover Fare (if sufficient Mover points are available for the full fare due at that stage of the Journey); then the Standard fare (depending on whether there is sufficient credit available). This is so notwithstanding the fact that the fares in Item 2 appear to be for the full Journey.								
	14.2	Where insufficient Mover Points are available in a Mover Package to cover the total fare payable at that stage, a Standard fare may be charged, and any remaining balance in the Mover Packages need not be used towards payment of such fare.								
	14.3	When a passenger checks in to the public transport system (and boarding fare is charged in terms of Condition 14.1) using the Mover Package fare, and checks out at the same location (e.g. the same station or the same bus at the same bus stop) within a period set in the MyCiTi fare rules without travelling at all (i.e. the card records that the distance travelled is 0 km), the fare may be reversed. This rule is subject to amendment by the City, by way if a change in the fare rules.								
	14.4	The following definition of a single Journey will apply, subject to Condition 14.8: If a passenger checks in to a subsequent bus / station within 2 and a half hours of first checking into the system, and there is less than 45 minutes (give or take 5 minutes) between such checking out and checking in again, then the Journey is considered a single Journey and distance is calculated on the total Journey distance and not as separate trips, even when the transfers occur outside a station.								
	14.5	Mover points purchased will be redeemed as the passenger travels, at the rate set in the fare, with the result that the number of points needed for a Journey will be deducted from the total number of points recorded on the card or otherwise as available as Mover points. Similarly, additional Mover points purchased will be added to the Mover points recorded on the card or otherwise.								
	14.6	A Mover point is equivalent to the monetary value of the point. E.g. an R80 Mover Package loads 80.00 points, and the number of points equivalent to the fare will be deducted from the balance of points available on the Smartcard.

	14.7	When the functionality of the Mover Package / Mover Points is available to an App (or similar programme) on a mobile telephone (or another device), and where this is authorised by the <i>ED: Transport</i> , all references in this Tariff Table to Mover Package / Mover Points shall be read as applicable to their equivalent via such App (or similar programme).								
	14.8	In the event that a system using one validator in a feeder environment (excl 6m buses), rather than two validators (upon which Condition 14.4 is based) is activated by Notice in the Press, then the following definition of a single Journey will apply: If a passenger checks in to or out of a subsequent bus / station within 3 hours of first checking into the system, and there is less than 45 minutes between such checking out and checking in again (give or take 5 minutes), then the Journey is considered a single Journey and distance is calculated on the total Journey distance and not as separate trips, even when the transfers occur outside a station. If the passenger checks in after the 3 hours the system will charge the difference between the relevant non-closure fare and the fare already paid, and thus will charge the maximum fare for using the system, irrespective of the distance travelled. If circumstances indicate that the passenger is likely to have missed a check-in or check-out step during a Journey a non-closure fare may be charged.								
	14.9	The <i>ED: Transport</i> may issue a Notice in the Press to the effect that passengers may pay fares with a credit or debit card which is a contactless card (and therefore is enabled for near field communication) but does not contain the National Department of Transport data structure as prescribed by Regulations (and is therefore not a Smartcard). From a date indicated in such notice, the <i>ED: Transport</i> may make the following rules applicable: (a) That the following fares will apply: (i) A system-wide one-journey ticket for Non-Premium services, whether in the Peak or Save Period: The fare as in Item 2D.1a; (ii) A system-wide one-journey ticket including Premium services, whether in the Peak or Saver Period: The fare as in Item 2D.2. In such case the <i>ED: Transport</i> may set conditions to ensure that (i) a passenger is disincentivised from only tapping out with such credit / debit card, to combat the possibility that a passenger who tapped in using a Smartcard taps out with a credit / debit card to avoid paying the distance portion of the fare; and (ii) a passenger tapping out using a credit / debit card at the Airport is charged for that Journey the fare as in Item 2D.2. This may include a condition that such passengers would be charged the same fare on tap-in and on tap-out, with the passenger being credited for any overcharge within one week; (b) Alternatively, that the following fares will apply; Provided that a mechanism is implemented through which the passenger is charged after travelling a full Journey in such a manner that the route, time of travel and distance can be determined in order to determine the relevant fare: the relevant Standard Fare in Item 2B.1 or Item 2B.2.								
	15	Penalty Fares: (a) Where a Penalty Fare is charged, and the passenger / person has through the same conduct also committed an offence in terms of any law, the criminal sanctions linked to such conduct may be enforced in addition to the charge of the Penalty Fare. (b) Where the Penalty Fare as set out in the fares is higher than the maximum transaction value that is permitted when using the EMV component of the Smartcard, as set out in the relevant exemption from the Financial Intelligence Centre Act (FICA) and its regulations, the person may be charged through multiple payments so as to charge the full applicable Penalty Fare. Alternatively, if the City so determines, the Penalty Fare may be reduced to be equal to such maximum transaction amount. (c) The cash value of Penalty Fares, when paid for through the Mover Package, shall be charged at an equivalent number of Mover Points to that applicable to the Standard Fare, taking into consideration the provisions of Condition 14.6. (d) If the <i>ED: Transport</i> has reason to believe that there is Gaming as referred to in Item 2E.1b, the <i>ED: Transport</i> may determine that, instead of activating the mechanism set out in such Item, that passengers falling in the following category will be charged the following Penalty Fare: Where a passenger on one Journey ("the Previous Journey") checks in but does not check out, and where the Standard Fare in the Peak Fare Period between the stop that the passenger had checked in on such Previous Journey and the stop where the passenger checks in on the Next Journey is more than the applicable Penalty Fare in Items 2E.1a to 2E.2, that such Standard Fare in the Peak Fare Period plus 10% is charged as a Penalty Fare, irrespective of the time that the passenger had checked in on such Previous Journey or whether the card had Mover Points loaded.								
	16	The provision for the fees in Items 4B.14 to 4B.16 do not imply that any person who is prepared to pay the fee is entitled to obtain such permission. Regarding Item 4B.14 and 4B.15 the City reserves the right to refuse permission for such use, and may set terms and conditions if it grants it.								
	17	Where a passenger fails to check out correctly, the City may, at its election, charge the applicable fare contained in items 2E.1 and 2E.2 when the passenger next uses the service, in addition to the boarding fare chargeable when the passenger next taps on a validator (whether checking in or out).

	18	Regarding provisions on Non-Closure fares, above, where the circumstances indicate that it is likely that a passenger has failed to check out in a previous trip and again failed to check in a subsequent trip, the passenger may be charged two times the relevant non-closure fares, minus the fares already paid regarding those trips. Where the circumstances indicate that a passenger accidentally tapped in or out twice at the same location, or where otherwise the system can detect that there is likely to be a good faith error, the Penalty Fare may be waived.								
	19	<i>Conditions regarding all fares to Charter Services (Item 4)</i>								
	19.1	<i>The ED: Transport, may discount the Charter Services above for long term charter services, being Charters Services for longer than 6 months, based on an assessment of the impact of having a longer term charter on the cost of the City providing such Charter Services and a reasonable income to the City. In setting such discount, the ED shall have regard to the principles in Condition 3(d)(ii) as well as whether the relevant facilities are otherwise likely to be unused or under utilised if not rented / chartered out.</i>								
	19.2	<i>Charter services for film use will be charged at an additional 15% surcharge on top of the Private Charter rate.</i>								
	20	Tariff categories (as set out in first column in the Tariff Table)								
	PCR	PARTIAL COST RECOVERY	Where tariffs are set to recoup, at least in part, the costs of products or services that provide benefits to the users to encourage local economic development e.g. Informal Trading							
	S	SUBSIDIZING	Where one group of users pay more than the costs of the goods/services that they receive, and the 'surplus' is used to offset the cost of goods/services provided to other users within the same service.							
	SB	SOCIAL BENEFIT	Where tariffs are set at affordable levels which encourages usage and does not cover the cost of products or services (neither partially nor fully) but provides benefits to low income users e.g. pauper burials/cremations							
	MR	MARKET RELATED	Where tariffs are set at a level to ensure financial sustainability of the service e.g. Electricity (Large Power Users)							
	FCR	FULL COST RECOVERY	Where tariffs are set to recuperate all costs associated with specific products or services. Full cost represents the value of all the resources used or consumed in the provision of the product or service. In addition to the costs directly associated with these, full cost includes an appropriate allocation of indirect (including capital) costs.

Part A2. MANAGED PARK-AND-RIDE SERVICES									
1. The park-and-ride parking fees apply to areas where there is a need for additional services (such as the security provided by parking marshals) in order to encourage use of public transport, therefore requiring parking management. These discounted fees are applicable to parkers using Transport Public Transport Services (as confirmed by integrated electronic payment methods), or where no integrated electronic methods are available, discounted fees are applicable to parkers who are assumed to be using such services.									
Applies to areas within walking distance of public transport and other Managed Park-and-Ride Areas stations and stops, designated as Managed Park-and-Ride Areas by the <i>Executive Director: Transport</i> , following an appropriate investigation. When designating parking as a Managed Park-and-Ride area, the <i>Executive Director: Transport</i> shall determine which category of Park-and-ride will apply to the area.

A3.7(a) Service fees for release of wheel clamped or towed/impounded vehicles, per vehicle per parking incident: The Traffic Services tariff will also apply to parking management, where the same fees will apply whether the clamping or impounding services are provided by a <i>Transport</i> -hired contractor or <i>Transport</i> itself, which fees will accrue to <i>Transport</i> . Where towing is conducted through the <i>Transport</i> parking management contract, the towing fee is payable to <i>Transport</i> by the Traffic Services impound service provider after the fee has been recovered from the vehicle owner/driver.									
(b) The Tariff for these specific items is equal to the City of Cape Town Traffic Services Department's tariff table update for the appropriate year period for towed/impounded and wheel clamped vehicles, entitled SAFETY AND SECURITY - TRAFFIC SERVICES. The Traffic Services tariff table can be found on the City of Cape Town's website under Traffic Services, the section for impoundments.									
Part A4. CONDITIONS APPLICABLE TO TARIFF TABLE									
1 Application 1.1 These Conditions apply to parking paid for by means of any payment method that can be practically applied, from a date determined by the <i>Executive Director: Transport</i> in terms of condition 3.1.1, or 3.1.2 1.2 The <i>Executive Director: Transport</i> may determine which conditions apply and the extent to which they apply to different parts of parking management services and to different payment methods based on what is practically required. 1.3 Any provision within this tariff that requires an amendment to a bylaw or other law, shall not be applied until the required amendment has been made, but only to the extent to which such an amendment is required.

	2 Definitions								
	2.1 The definitions below may include substantive provisions.								
	2.2 Terms used in this tariff that are defined in the Tariff for Contracted Road-Based Public Transport Services have the meanings assigned to them as set out in that Tariff, unless the context indicates differently.								
	2.3 In these conditions the following terms have the meanings assigned to them, unless otherwise indicated by the context:								
	2.3.1 "Administration fee" means the Parking B smartcard administration fee payable in terms of condition 4.2.3.4;								
	2.3.2 "Card" as used in this tariff and these conditions means a smartcard or any other electronic payment method;								
	2.3.3 "City" is the municipality of the City of Cape Town;								
	2.3.4 "Executive Director: Transport" means the Executive Director: Transport. The Executive Director: Transport may delegate any function assigned by these tariffs to the Executive Director: Transport to another official.								
	2.3.5 "Electronic parking payment system" means an electronic payment system used to pay for managed parking, using smartcards or another electronic payment system as payment method, the base of which will be the Automated Fare Collection System as defined in the Tariff for Contracted Road-Based Public Transport Services;								
	2.3.6 "Park" means parking a vehicle or the stopping of a vehicle for longer than is necessary to get out of the vehicle in a managed parking area or in a location where parking is not permitted;								
	2.3.7 "Parker" is a person parking a vehicle and, in the absence of information as to who this person is, the owner of the vehicle that has been so parked or stopped;								
	2.3.8 "Parking marshal" is a person facilitating payment for parking by a parker in a managed parking area, and fulfilling all other relevant managed parking functions, whether the person is a City official or an employee of a contractor contracted to manage parking on behalf of the City;								
	2.3.9 "Managed parking area" means a parking bay, a precinct, an area, zone or street where parking is managed and charged for or to be managed and charged for in terms of this Tariff;								
	2.3.10 "Transport Public Transport Services" refer to MyCiTi integrated rapid transit services as well as any other public transport service designated by the Commissioner as acceptable for application of the fees in Part A2;								
	2.3.10 A "penalty fee" means any parking penalty fee payable in terms of the Parking Tariff, including: the penalty fees to be charged in terms of condition 5; penalty fees due because a parker has stayed longer than period shown on the pay-and-display receipt or longer than the maximum parking period; illegal parking; wheel-clamp release fees; penalty fees for tampering with or damaging wheel-clamp;								
	2.3.11 "Redundancy conditions" refer to conditions that apply in the instance when a necessary part of the electronic parking payment system is not operating as planned or is expected not to be operating as planned, such as when the system for loading money or points on the smartcard is down, or when the electricity supply is interrupted, or for any other reason; Provided that an appropriate Transport Parking Rule may be issue in terms of which any redundancy parking vouchers or alternative system may be used where required for other material operational reasons;								
	2.3.12 "Smartcard" means a "Smartcard" as defined in the Tariff for Contracted Road-Based Public Transport Services or any other electronic charging card using mifare-type technology, subject to condition 3.1.2; provided that, where any condition refers to a smartcard, the Commissioner may apply the relevant condition to other methods of payment;

	2.3.13 “Transport ” means the Transport[and Urban Development Authority of the City , forming part of the City’s administration; 2.3.14 “Transport Parking Rules” and the rules related to parking and to payment for parking using a smartcard as may be displayed on the Transport website; 2.3.15 “Transport public transport services” means public transport services provided directly or through contract by the City and to which the Tariff regarding Contracted Public Transport Services apply. 2.3.16 "Occupancy" means the average percentage of time a bay or group of bays is occupied in a defined time period (day, month, year etc.) within the hours in which the bay(s) are actively managed or when the applicable parking tariff is charged/enforced by the management contractor. 2.3.17 "Without Electronic Charging Integrated with Public Transport" means where the electronic payment method used to pay parking fees is not integrated with the payment method used to pay for public transport fares; 2.3.18 "With Electronic Charging Integrated with Public Transport" means where the electronic payment method used to pay parking fees is integrated with the payment method used to pay for public transport fares; 2.3.19 "PT1" means areas where the use of public transport is promoted or available, but where Council considers the provision of public transport inadequate or where the use of motor vehicles is limited (as defined in the City of Cape Town Zoning Scheme Regulations, 2012); 2.3.20 "PT2" means areas where the use of public transport is promoted or available, but where Council considers the provision of public transport good or where the use of motor vehicles is very limited (as defined in the City of Cape Town Zoning Scheme Regulations, 2012).								
	2.3.21 "Core Zone 1" relates to core business areas around key public transport interchanges characterised by mixed use and commercial activities at moderate to high densities. These areas are high trip attracting areas with high parking demand but also supplied with well-established public transport network and infrastructure. Minimum % utilisation = >85%; High % mix of land uses predominantly commercial and business. 2.3.22 "The Recreational Zone" is located adjacent to recreational attractions and amenities with high to moderate trip attractors especially during off peak hours and weekends. These areas are identified as established public destinations with limited commercial activities and low to moderate access to public transport networks or infrastructure. The management of recreational areas focuses on maintaining a balance between local residents and visitors during off-peak hours. Management will need to take place during peak as well as off-peak hours to accommodate influx of visitors during recreational peak periods.

	3 Payment using Smartcard or other electronic payments								
	3.1 Charging parking fees using cards								
	3.1.1 Subject to condition 3.1.2, from a date to be determined by the City on at least one month's notice to the public by way of a notice in the press, all payment for parking shall be paid for using a MyConnect smartcard or another electronic payment method approved by the City;								
	3.1.2 The <i>Executive Director: Transport</i> may publish a notice in the press permitting the use of another EMV compliant card with structure as defined by the National Department of Transport; and / or any other bank card; and / or any other smartcard using mifare-type technology; and / or any other electronic payment method;								
	3.2 Preferred Payment Mechanisms								
	3.2.1 Both Parts A1 and A2 of this tariff table apply to card payments and any other electronic payment mechanisms supported by the system. The same tariff applies whether cash or card. This may be changed in line with additional policy changes and in order to incentivise necessary user behaviour. Cash will be replaced by card payments from a date as may be determined by the <i>Executive Director: Transport</i> ;								
	3.2.2 The City may discount the tariff by up to 33.33 % compared to the fees listed above when a parker uses such a payment method. The <i>Executive Director: Transport</i> may further determine that a surcharge of up to 50% shall apply regarding the fees listed above when a parker uses a payment method that the City wishes to discourage or where it increases the City costs if management in order to discourage use of that mechanism. These factors can be found in the tariff factor table in condition 8 of this tariff table below.								
	3.3 Registration for New Electronic Payment System: The registration fee set out in item A3.1, for the service is payable when registering with the service, unless the user also signs up with their credit or cheque card details and links these to their Smart Card/Mobile Application account, in which case no registration fee is payable. The <i>Executive Director: Transport</i> may waive the registration fee.								
	3.4 Where necessary for practicality, or where it is not technically possible to implement an element of the conditions or tariff table exactly as worded in this tariff table, the relevant element may be amended in programming of the fares, provided the relevant change is embodied in the <i>Transport</i> Parking Rules and published on the <i>Transport</i> website.								
	4 Parking Payment Methods								
	4.1 Parking Payment Method A – pay-and-display								
	4.1.1 The pay-and-display payment mechanism, referred to as “Parking Payment Method A”, applies by default and is thus the standard payment method unless the parker has taken all the required steps to be able to pay using Parking Payment Method B, as set out in 5 below.								
	4.2.1 When parking in a parking bay in a managed parking area,								
	4.2.1.1 the parker must draw the attention of the relevant parking marshal; indicate how long the parker intends to park; pay the relevant parking fee as per this Tariff using a smartcard; obtain a pay-and-display receipt for such payment; and display the receipt on the front dashboard of the parked vehicle or against the front windscreen in a manner such that it is clearly visible and will remain visible from the outside of the vehicle; and								
	4.2.1.2 if the parker intends to park or actually parks for a period longer than the pay-and-display receipt indicates, the parker must, prior to the expiry of the pay-and-display period, take the same steps as set out in 4.2.1.1 for any extended period of parking, provided that such extended period of parking is permitted.

	4.2 Parking Payment Method B – tap-in / tap-out 4.2.1 The tap-in / tap-out payment mechanism, referred to as “Parking Payment Method B”, applies where the parker has taken all the steps as set out in condition 4.2.3. 4.2.2 A parker may elect to use this Method B to pay for parking by using a smartcard where a parking Payment Method B has been selected. Such a card is referred to as a “Parking B smartcard”. 4.2.3 A smartcard will be configured as a Parking B smartcard once each of the following steps have been taken: 4.2.3.1 The smartcard has been personalised with the parker’s authenticated personal and contact details; 4.2.3.2 The parker has elected to pay for parking using Parking Method B; 4.2.3.3 The parker has undertaken to pay all fees payable regarding parking where the relevant Parking B smartcard is used within 30 days or the period as set out in the <i>Transport</i> Parking Rules; 4.2.3.4 The parker must pay the Parking B smartcard administration fee, against which any penalty fees may be charged if there is an insufficient balance on the relevant smartcard to charge such fee. 4.2.4 Where a penalty fee is due regarding parking which has been paid for (in full or in part) with a Parking B smartcard, and if there is an insufficient balance available on the card or if the card is not physically available to be charged, the penalty fee can be charged against the administration fee that has been paid regarding that card, and the card may not be used to pay for parking until the parker has replenished the administration fee to the fee level as apply at the time.								
	5 Adjustments of hours, parking management areas, demand levels and park-and-ride 5.1 Adjustment to parking hours: The City may investigate whether the hours within which parking tariffs are applicable should be amended and, when necessary, provisions in this regard will be added to the tariff table in future years. 5.2 Expansion or extension of managed parking areas: In order to provide parking management services in a manner that supports the City's Travel Demand Management (TDM) and Transit Orientated Development (TOD)-related objectives, the City may conduct an appropriate investigation (including establishing the occupancy and demand levels in the relevant areas, and a feasibility study showing that the cost of parking management of the additional bays or areas is likely to be covered by or will be less than the income from parking management) and may engage in appropriate consultation in this regard. If areas are proposed to be amended, provisions in this regard will be added to the tariff table in future years.								
	5.3 Designation of areas / bays as falling within "High Demand Areas" or "Other Areas": The City may investigate whether existing parking areas or parking bays, or whether new parking areas or parking bays designated for parking management as per 5.2 above, should fall within "High Demand Areas" or "Other Areas". When necessary, provisions in this regard will be added to the tariff table in future years. The provisions of this tariff table applicable to "High Demand Areas" or "Other Areas" (as the case may be) will then apply to such area or bay. 5.4 The City may designate additional parking bays as falling within the list of Managed Park-and-Ride Areas in 5.5.2 or 5.5.3, following an appropriate investigation and consultation process.

Whether an area is HIGH DEMAND or not will be determined by the Commissioner based on demonstrated occupancy and demand levels in the relevant areas. The areas currently deemed as HIGH DEMAND AREAS include the following: - CAPE TOWN CBD - SEA POINT - CLAREMONT - TYGERVALLEY 5.5.2 Determination of Managed Park-and-Ride Areas Without Automated Services Integrated with Public Transport: Any new additions to the list of Managed Park-and-Ride Areas Without Automated Services Integrated with Public Transport, as determined by the <i>Executive Director: Transport</i> through an appropriate investigation, will be added to the list below. The areas currently identified as Managed Park-and-Ride Areas Without Automated Services Integrated with Public Transport include the following: - WOOD STATION Park-and-Ride 5.5.3 Identification of Managed Park-and-Ride Areas With Electronic Charging Integrated with Public Transport: None. 5.6 When implementing recreational areas, a business case is required on an area to area basis to determine financial viability for both CoCT and its contractors. 5.7 When classifying areas by demand and occupancy, a survey should be carried out with and if any 2 hours, on 3 out of 5 days, is within the maximum level of service occupancy for the area, then it should be considered to set the tariff at the occupancy rate.								
	6 Park-and-ride 6.1 This condition 6 provides for discounted parking fees where the parker has also used <i>Transport</i> Public Transport Services. 6.2 A reduction in the parking fee (which, for purposes of this condition 6 excludes parking penalty fees) applies where the park-and-ride requirements in these conditions are satisfied, as follows: 6.2.1 Regarding Item A2.1 (for PT1 areas) a 15% discount is applied against Category 2 fees (Item A2.2), using Factor X1 in Condition 9.2. 6.2.2 Regarding Item A2.2 in PT2 areas the generally applicable fees in Item A1.1 have been discounted. 6.2.3 Parking areas on the periphery of central business districts may be designated by the Commissioner as a Peripheral Parking Area, regarding which parking fees will be discounted by up to 15% compared to the standard parking fees in Item A1.1, whether or not they use public transport. 6.3 The park-and-ride discount applies differently where Parking Payment Method A and Parking Payment Method B are applicable. 6.4 The Managed Park-and-Ride Areas refers to areas identified as Park-and-Ride managed parking areas that are managed by the City of Cape Town.								
	6.5 Where Parking Payment Method A applies (default) 6.5.1 The Pay-and-display method of payment, set out in Condition 4 applies. 6.5.2 The Managed Park-and-Ride Areas discount applies only if the parker paid for the parking using a Mover package (as defined in the Tariff for Contracted Road-Based Public Transport Services). 6.5.3 If the parker taps into <i>Transport</i> Public Transport Services using the same card within 45 minutes of tapping to pay the pay-and-display parking fee, using Mover points, the system registers a potential Managed Park-and-Ride Areas discount. 6.5.4 If the parker taps out with the parking marshal when retrieving the parker’s vehicle, and if no parking penalties are due, the system will reimburse the parker the value of the Managed Park-and-Ride Areas discount.

	6.6 Where Parking Payment Method B is selected by the parker 6.6.1. The Managed Park-and-Ride Areas discount applies only if the parker paid for the parking using a Mover package (as defined in the Tariff for Contracted Road-Based Public Transport Services). 6.6.2. When a parker using a Parking B smartcard taps in to pay for parking, the parker will be charged the applicable parking fee for the first 15 minutes 6.6.3. If the parker taps into <i>Transport</i> Public Transport Services using the same card within 45 minutes of tapping to pay the pay-and-display parking fee, using Mover points, the system registers a potential Managed Park-and-Ride Areas discount. 6.6.4. When tapping out of parking, and provided no parking penalty fees are payable, the system will charge , the amount linked to parking utilised by the parker, being the value of the outstanding Managed Park-and-Ride Areas charge or alternatively the usual parking tap-in charge. 6.6.5. If the parker returns after end of the period during which parking is managed and the parker therefore does not tap out on that day, the following shall apply: When a parker next taps in regarding managed parking with the relevant smartcard the system will check whether there is an open parking transaction from an earlier date and, if so, charge any Managed Park-and-Ride Areas charge that may be due; and if not, then charge usual parking tap-in charge. 6.7 Managed Park-and-Ride Areas Limitation of Discount In order to ensure that the discount is only applied to <i>Transport</i> Public Transport Service users parking and using Public Transport Services, all parkers with the intention of receiving the Public Transport Service Managed Park-and-Ride Areas discount will need to pay for parking with a MyConnect Smart card. This follows the procedure set out in section A4 sub-section 3 and 6 below. If the use of <i>Transport</i> Public Transport Services is not registered on the system with the same Smartcard, no discount will be applied and the full fee as per section A1.1 will be charged. 6.8 The discount provided for Managed Park-and-Ride Areas will operate differently for areas Without Electronic Charging Integrated with Public Transport. Public Transport users using Managed Park-and-Ride Areas facilities in areas Without Electronic Charging Integrated with Public Transport will receive the appropriate discount/s automatically, which will be built into the fee charged in that location.								
	7 General 7.1 Use of the smartcard for payment of parking fees and related charges will be subject to the TDA Parking Rules (if any). 7.2 Where the vehicle of a parker is found to be parked in a managed parking area at the start of the parking management period, the parker shall pay for parking from the start of such managed parking period and for the full period parked. Where a smartcard with sufficient value is not presented for such payment, the amount due shall remain payable and due by the owner of the vehicle and the holder of a smartcard used previously regarding such vehicle, jointly and severally, over and above any fines that may be due. 7.3 An inspector may be used to inspect charging by parking marshal, and such an inspector may charge a parker the applicable fee payable in terms of this Tariff, or the difference between the fee incorrectly charged and the applicable fee, where appropriate.								
	7.4 All decisions required or implied in these Conditions (e.g. decisions which, in terms of this tariff table, must be taken by "the City"), other than those assigned to the Commissioner and those that must logically be taken by the parking marshal or an inspector, shall be taken by the manager responsible for parking management or his delegate in consultation with the manager responsible for <i>Transport</i> business planning or his delegate; alternatively by the <i>Executive Director: Transport</i> .

	8 Penalties 8.1 Parking penalty fees: If a vehicle remains parked longer than the displayed period that the parker has paid for, or where no pay-and-display receipt is displayed in the vehicle, or if a vehicle has been parked in a location where parking is not permitted, the applicable parking penalty fee will be payable and, in addition, a fine may be issued in terms of any applicable law. 8.2 Parking Leeway window: If a vehicle remains parked longer than the displayed period that the parker has paid for, or where no pay-and-display receipt is displayed in the vehicle, the City may determine that the parker has a leeway, whereby the parker will not be penalised in terms of the penalties stipulated in this tariff table, but after which they are liable for penalties, including wheel clamping. The City may change the duration of this leeway if required. The effective fee regarding half the leeway period may be added to the parking fee.								
	8.3 Parking Offence Leeway for Transition Period 8.3.1 During the transition period onto a card system, and provided that the parker uses a MyConnect or a similar card (or such other method determined by the <i>Executive Director: Transport</i>) to pay for parking, if a vehicle or if a specific card recorded on the system as penalised as per the offences listed in Part 3, items A3.2 and A3.4, the parker may be granted a maximum of 3 penalty fee reductions in order to adjust to the new payment and penalty system. An 85% penalty reduction will be applied to these penalties charged. From the 4th penalty onwards the full penalty will be payable as per this tariff table. 8.3.2 An unregistered user who has been penalised in terms of section A3.4, A3.5 and A3.7 (wheel-clamping only) may register on the system. If so registered, the first such penalty fee may be waived by the City. A user may also request to have the penalty removed if the user registers and link the user's credit or debit card to the system for automatic payment of parking fees, and penalties, as per the condition set out in section A3.3.2 above. 8.3.3 Circumstance to which this leeway of up to 85% is applicable can be defined by the City by means of a public notice in the media. 8.3.4 Limitation of Leeway: For penalty fees under Section A3.5 specifically, no leeway will be provided, unless the parker registers on the system and converts their penalty fee (as per 8.3.2 above) into the administration fee charged as per section A3.1. If the parker is already registered, the full penalty will apply.								
	8.4 Parking Penalty Disputes: Parkers are entitled to appeal fines and penalty charges, and where sufficient grounds can be found of unfair application, penalties may be reduced or reversed by the City or in terms of <i>Transport</i> Parking Rules issued by the City.								
	9. Tariff Factors in relation to discounts for the use of <i>Transport</i> Public Transport Services; and CPIX increase related variables 9.1 CPIX and the actual increase are shown in the table below, and linked to the calculations in this Tariff Table. 9.1.1 The Annual CPIX increase value is included in the table below, and must to be updated annually. 9.1.2 The sum of the current years CPIX and the recommended additional increase based on demand, occupancy and TOD principles, is included in the table 9.3 below. 9.1.3 The recommended additional increase as per 9.1.2 is set at 3% for the 2018/19 tariff, to be updated annually.								
	9.2 A number of tariff factors have been added to the spreadsheet with the aim of simplifying the tariff calculations.

	Residents residing within Parking Management ("PM") Centres will be eligible to apply for a 'Residential Permit' which will be provided at a nominal cost. This will allow an exemption on parking tariffs within the PM Centre applied for, for a duration of one annum from date of receipt of permit. The permit provides the resident with an exemption on parking tariffs through a yearly residents permit fee. Residential parking permits will be issued on an annual basis. The permit will be applicable from the date of issue for 1 year. See Marking Management Business Plan (once adopted by Council) for further detail on conditions, application and exclusions. A second resident permit for the same residence will only be allowed in areas where feasible and permitted. The second permit will cost the resident roughly twice as much as the first permit. Lost or unrecognisably damaged or mutilated permits will need be replaced at the full cost of the original permit. Damaged or mutilated permits that are still identifiable, can be replaced upon payment of an administration fee. The same admin fee will apply for amendments to existing permits, for example, changing the vehicle registration details on the permit. The residential permit fee is calculated as a percentage of the total years tariff. The hourly rate for that zone is multiplied by 250 working days and a factor of 96.15% has been applied to this yearly total to obtain the annual residential parking permit fee. The calculation for this is shown in Attachment 1.

	Part A2. MANAGED PARK-AND-RIDE SERVICES								
	1. The park-and-ride parking fees apply to areas where there is a need for additional services (such as the security provided by parking marshals) in order to encourage use of public transport, therefore requiring parking management. These discounted fees are applicable to parkers using <i>Transport</i> Public Transport Services (as confirmed by integrated electronic payment methods), or where no integrated electronic methods are available, discounted fees are applicable to parkers who are assumed to be using such services. Applies to areas within walking distance of public transport and other Managed Park-and-Ride Areas stations and stops, designated as Managed Park-and-Ride Areas by the <i>Executive Director: Transport</i>, following an appropriate investigation. When designating parking as a Managed Park-and-Ride area, the Commissioner shall determine which category of Park-and-ride will apply to the area. Parking in these designated areas will be prioritised in Zones 2, 3 and 4 and will be charged based on location within PM Centres. Parking will be charged at a hourly rate and facilities for a tap-in tap-out system will be applied for the associated discounts. Park-and-ride facilities applies to areas within walking distance of public transport and other Managed Park-and-Ride Areas stations and stops, designated as Managed Park-and-Ride Areas by the <i>Executive Director: Transport</i>, following an appropriate investigation.

	A3.7(a) Service fees for release of wheel clamped or towed/impounded vehicles, per vehicle per parking incident: The Traffic Services tariff will also apply to parking management, where the same fees will apply whether the clamping or impounding services are provided by a <i>Transport</i> -hired contractor or <i>Transport</i> itself, which fees will accrue to <i>Transport</i> . Where towing is conducted through the <i>Transport</i> parking management contract, the towing fee is payable to <i>Transport</i> by the Traffic Services impound service provider after the fee has been recovered from the vehicle owner/driver.	Per vehicle per parking incident	(b) The Tariff for these specific items is equal to the City of Cape Town Traffic Services Department's tariff table update for the appropriate year period for towed/impounded and wheel clamped vehicles, entitled SAFETY AND SECURITY - TRAFFIC SERVICES. The Traffic Services tariff table can be found on the City of Cape Town's website under Traffic Services, the section for impoundments.						
Part A4. CONDITIONS APPLICABLE TO TARIFF TABLE									
1 Application 1.1 These Conditions apply to parking paid for by means of any payment method that can be practically applied, from a date determined by the <i>Executive Director: Transport</i> in terms of condition 3.1.1, or 3.1.2 1.2 The <i>Executive Director: Transport</i> may determine which conditions apply and the extent to which they apply to different parts of parking management services and to different payment methods based on what is practically required. 1.3 Any provision within this tariff that requires an amendment to a bylaw or other law, shall not be applied until the required amendment has been made, but only to the extent to which such an amendment is required.									
1.4 Operating hours: As parking management areas are extended and the new parking management system is implemented new operating hours must be determined as core business hours, after hours, weekends and public holidays. 1.5 Discounts: A discount applies to parkers paying with the integrated electronic payment system parking for less than 15mins. The discount applies to all bays within all zones. A parker must register with a marshal that he/she will only park for less than 15 min. If parker overstays 15min an additional 15min will be charged. 1.6 Regime II shows the 2017/18 tariff increase based on the new parking management area based tariff methodology, as described in the conditions set out in the Regime II Table. The <i>Executive Director: Transport</i> may determine a date from which this tariff will apply, after the new parking management tender is awarded and once the Parking Management Business Plan is adopted by Council.									
2 Definitions 2.1 The definitions below may include substantive provisions. 2.2 Terms used in this tariff that are defined in the Tariff for Contracted Road-Based Public Transport Services have the meanings assigned to them as set out in that Tariff, unless the context indicates differently.									
2.3 In these conditions the following terms have the meanings assigned to them, unless otherwise indicated by the context: 2.3.1 "Administration fee" means the Parking B smartcard administration fee payable in terms of condition 4.2.3.4; 2.3.2 "Card" as used in this tariff and these conditions means a smartcard or any other electronic payment method; 2.3.3 "City" is the municipality of the City of Cape Town; 2.3.4 "Executive Director: Transport" means the Executive Director: Transport. The Executive Director: Transport may delegate any function assigned by these tariffs to the Executive Director: Transport to another official.

	2.4 Definitions relating to the new tariff structure and tariff rate methodology as described in Part 4 Condition 10 of the tariff sheet, updated for of 2017/18 tariff, as determined by the Commissioner: 2.4.1 PM A Centre, "Established centre": Metropolitan destination node situated in an ECAMP growth zone with high economic outputs where a high percentage of mixed use activities (predominantly commercial and business) are dominant. Average property values in Jul 2016 Rands exceed R5mil. Major trip attractor areas within development or activity corridors with existing high parking demand where Public Transport Service routes are already in operation and multiple modes of public transport are available. 2.4.2 PM B Centre, "Opportunity centre": Local destination node situated in an ECAMP opportunity zone with moderate economic output where a medium percentage of mixed use activities (predominantly commercial and business) are present. Average property values in Jul 2016 Rands range from R650 000 to R5mil. Trip attractor areas within or in close proximity to activity corridors with high to moderate parking need while 2 or more public transport or NMT modes are readily available. 2.4.3 Zone 1, "Core zone": Business areas around key public transport interchanges with high percentage of mixed use and commercial activities at moderate to high densities. High trip attractor areas situated within PT1 or PT2 zones with high parking demand but supported with well established public transport network and infrastructure. 2.4.4 Zone 2, "Edge zone": Areas situated on the edge of core business areas or Public Transport Interchanges with moderate percentage of mixed use commercial and residential activities at moderate to low densities. High to medium trip attractors with high to moderate parking demand supported by or in close proximity / walking distance to established public transport network and infrastructure. 2.4.5 Zone 3, "Residential zone": Transitional areas between core business areas and its surrounding residential areas where predominantly residential land uses are present at low to medium densities. Low trip attractors but average 10 minutes walk to core/periphery areas and therefore potential high demand areas for parking spill-over. 2.4.6. Zone 4, "Recreational zone": Adjacent to recreational attractions and amenities with high to moderate trip attractors especially during off peak hours and weekends. Established public destinations with limited commercial activities and low to moderate access to public transport networks or infrastructure.								
	3 Payment using Smartcard or other electronic payments 3.1 Charging parking fees using cards 3.1.1 Subject to condition 3.1.2, from a date to be determined by the City on at least one month’s notice to the public by way of a notice in the press, all payment for parking shall be paid for using a MyConnect smartcard or another electronic payment method approved by the City; 3.1.2 The <i>Executive Director: Transport</i> may publish a notice in the press permitting the use of another EMV compliant card with structure as defined by the National Department of Transport; and / or any other bank card; and / or any other smartcard using mifare-type technology; and / or any other electronic payment method; 3.2 Preferred Payment Mechanisms 3.2.1 Both Parts A1 and A2 of this tariff table apply to card payments and any other electronic payment mechanisms supported by the system. The same tariff applies whether cash or card. This may be changed in line with additional policy changes and in order to incentivise necessary user behaviour. Cash will be replaced by card payments from a date as may be determined by the <i>Executive Director: Transport</i> ; 3.2.2 The City may discount the tariff by up to 33.33 % compared to the fees listed above when a parker uses such a payment method. The <i>Executive Director: Transport</i> may further determine that a surcharge of up to 50% shall apply regarding the fees listed above when a parker uses a payment method that the City wishes to discourage or where it increases the City costs if management in order to discourage use of that mechanism. These factors can be found in the tariff factor table in condition 8 of this tariff table below. 3.3 Registration for New Electronic Payment System: The registration fee set out in item A3.1, for the service is payable when registering with the service, unless the user also signs up with their credit or cheque card details and links these to their Smart Card/Mobile Application account, in which case no registration fee is payable. The <i>Executive Director: Transport</i> may waive the registration fee.								
	3.4 Where necessary for practicality, or where it is not technically possible to implement an element of the conditions or tariff table exactly as worded in this tariff table, the relevant element may be amended in programming of the fares, provided the relevant change is embodied in the <i>Transport</i> Parking Rules and published on the <i>Transport</i> website.

	4 Parking Payment Methods 4.1 Parking Payment Method A – pay-and-display 4.1.1 The pay-and-display payment mechanism, referred to as “Parking Payment Method A”, applies by default and is thus the standard payment method unless the parker has taken all the required steps to be able to pay using Parking Payment Method B, as set out in 5 below. 4.2.1 When parking in a parking bay in a managed parking area, 4.2.1.1 the parker must draw the attention of the relevant parking marshal; indicate how long the parker intends to park; pay the relevant parking fee as per this Tariff using a smartcard; obtain a pay-and-display receipt for such payment; and display the receipt on the front dashboard of the parked vehicle or against the front windscreen in a manner such that it is clearly visible and will remain visible from the outside of the vehicle; and 4.2.1.2 if the parker intends to park or actually parks for a period longer than the pay-and-display receipt indicates, the parker must, prior to the expiry of the pay-and-display period, take the same steps as set out in 4.2.1.1 for any extended period of parking, provided that such extended period of parking is permitted.								
	4.2 Parking Payment Method B – tap-in / tap-out 4.2.1 The tap-in / tap-out payment mechanism, referred to as “Parking Payment Method B”, applies where the parker has taken all the steps as set out in condition 4.2.3. 4.2.2 A parker may elect to use this Method B to pay for parking by using a smartcard where a parking Payment Method B has been selected. Such a card is referred to as a “Parking B smartcard”. 4.2.3 A smartcard will be configured as a Parking B smartcard once each of the following steps have been taken: 4.2.3.1 The smartcard has been personalised with the parker’s authenticated personal and contact details; 4.2.3.2 The parker has elected to pay for parking using Parking Method B; 4.2.3.3 The parker has undertaken to pay all fees payable regarding parking where the relevant Parking B smartcard is used within 30 days or the period as set out in the <i>Transport Parking Rules</i> ; 4.2.3.4 The parker must pay the Parking B smartcard administration fee, against which any penalty fees may be charged if there is an insufficient balance on the relevant smartcard to charge such fee. 4.2.4 Where a penalty fee is due regarding parking which has been paid for (in full or in part) with a Parking B smartcard, and if there is an insufficient balance available on the card or if the card is not physically available to be charged, the penalty fee can be charged against the administration fee that has been paid regarding that card, and the card may not be used to pay for parking until the parker has replenished the administration fee to the fee level as apply at the time.								
	5 Adjustments of hours, parking management areas, demand levels and park-and-ride 5.1 Adjustment to parking hours: The City may investigate whether the hours within which parking tariffs are applicable should be amended and, when necessary, provisions in this regard will be added to the tariff table in future years. 5.2 Expansion or extension of managed parking areas: In order to provide parking management services in a manner that supports the City's Travel Demand Management (TDM) and Transit Orientated Development (TOD)-related objectives, the City may conduct an appropriate investigation (including establishing the occupancy and demand levels in the relevant areas, and a feasibility study showing that the cost of parking management of the additional bays or areas is likely to be covered by or will be less than the income from parking management) and may engage in appropriate consultation in this regard. If areas are proposed to be amended, provisions in this regard will be added to the tariff table in future years.								
	5.3 Designation of areas / bays as falling within PM A or B Centres and the applicable zones: The City may investigate whether existing parking areas or parking bays, or whether new parking areas or parking bays designated for parking management as per 5.2 above, should fall within PM A or B Centres and the applicable zones based on the appropriate investigation, survey or feasibility study as stipulated in 5.2 and the requirements for the designation of a centre or zone as per definitions and criteria stipulated in 2.4, 5.5, 10.1 and 10.2. When necessary, provisions in this regard will be added to the tariff table in future years. The provisions of this tariff table applicable to the identified area (as the case may be) will then apply to such area or bay. 5.4 The Executive Director : Transport may designate additional parking bays as falling within the list of Managed Park-and-Ride Areas in 5.5.2 or 5.5.3, following an appropriate investigation and consultation process.

	5.5 Area based determinations 5.5.1 Identification of High Demand Areas The tariff for each section is categorised into HIGH DEMAND AREAS and ALL OTHER AREAS. Whether an area is HIGH DEMAND or not will be determined by the Commissioner based on demonstrated occupancy and demand levels in the relevant areas. The areas currently deemed as HIGH DEMAND AREAS include the following: - CAPE TOWN CBD - SEA POINT - CLAREMONT - TYGERVALLEY 5.5.2 Determination of Managed Park-and-Ride Areas Without Automated Services Integrated with Public Transport: Any new additions to the list of Managed Park-and-Ride Areas Without Automated Services Integrated with Public Transport, as determined by the <i>Executive Director: Transport</i> through an appropriate investigation, will be added to the list below. The areas currently identified as Managed Park-and-Ride Areas Without Automated Services Integrated with Public Transport include the following: - WOOD STATION Park-and-Ride 5.5.3 Identification of Managed Park-and-Ride Areas With Electronic Charging Integrated with Public Transport: None. 5.6 When implementing recreational areas, a business case is required on an area to area basis to determine financial viability for both CoCT and its contractors. 5.7 When classifying areas by demand and occupancy, a survey should be carried out with and if any 2 hours, on 3 out of 5 days, is within the maximum level of service occupancy for the area, then it should be considered to set the tariff at the occupancy rate.								
	5.5.4 The Parking Management Business Plan shall provide a checklist for the identification and classification of PM Centres. These criteria must be used as a guideline and the classification of centres must be revised on a 4 yearly basis. The City reserves the right to enforce or implement managed parking in areas not identified as PM Centres based on demand and/or public support appropriately justifying the need for managed parking.								
	6 Park-and-ride 6.1 This condition 6 provides for discounted parking fees where the parker has also used <i>Transport</i> Public Transport Services. 6.2 A reduction in the parking fee (which, for purposes of this condition 6 excludes parking penalty fees) applies where the park-and-ride requirements in these conditions are satisfied, as follows: 6.2.1 Regarding Item A2 (for PT1 areas) a 15% discount is applied 6.2.2 Parking areas on the periphery of central business districts may be designated by the <i>Executive Director: Transport</i> as a Peripheral Parking Area, regarding which parking fees will be discounted by up to 15% compared to the standard parking fees in Item A1.1, whether or not they use public transport. 6.3 The park-and-ride discount applies differently where Parking Payment Method A and Parking Payment Method B are applicable. 6.4 The Managed Park-and-Ride Areas refers to areas identified as Park-and-Ride managed parking areas that are managed by the City of Cape Town.								
	6.5 Where Parking Payment Method A applies (default) 6.5.1 The Pay-and-display method of payment, set out in Condition 4 applies. 6.5.2 The Managed Park-and-Ride Areas discount applies only if the parker paid for the parking using a Mover package (as defined in the Tariff for Contracted Road-Based Public Transport Services). 6.5.3 If the parker taps into <i>Transport</i> Public Transport Services using the same card within 45 minutes of tapping to pay the pay-and-display parking fee, using Mover points, the system registers a potential Managed Park-and-Ride Areas discount. 6.5.4 If the parker taps out with the parking marshal when retrieving the parker’s vehicle, and if no parking penalties are due, the system will reimburse the parker the value of the Managed Park-and-Ride Areas discount.

	6.6 Where Parking Payment Method B is selected by the parker								
	6.6.1. The Managed Park-and-Ride Areas discount applies only if the parker paid for the parking using a Mover package (as defined in the Tariff for Contracted Road-Based Public Transport Services).								
	6.6.2. When a parker using a Parking B smartcard taps in to pay for parking, the parker will be charged the applicable parking fee for the first 15 minutes								
	6.6.3. If the parker taps into <i>Transport</i> Public Transport Services using the same card within 45 minutes of tapping to pay the pay-and-display parking fee, using Mover points, the system registers a potential Managed Park-and-Ride Areas discount.								
	6.6.4. When tapping out of parking, and provided no parking penalty fees are payable, the system will charge , the amount linked to parking utilised by the parker, being the value of the outstanding Managed Park-and-Ride Areas charge or alternatively the usual parking tap-in charge.								
	6.6.5. If the parker returns after end of the period during which parking is managed and the parker therefore does not tap out on that day, the following shall apply: When a parker next taps in regarding managed parking with the relevant smartcard the system will check whether there is an open parking transaction from an earlier date and, if so, charge any Managed Park-and-Ride Areas charge that may be due; and if not, then charge usual parking tap-in charge.								
	6.7 Managed Park-and-Ride Areas Limitation of Discount								
	In order to ensure that the discount is only applied to <i>Transport</i> Public Transport Service users parking and using Public Transport Services, all parkers with the intention of receiving the Public Transport Service Managed Park-and-Ride Areas discount will need to pay for parking with a MyConnect Smart card. This follows the procedure set out in section A4 sub-section 3 and 6 below. If the use of <i>Transport</i> Public Transport Services is not registered on the system with the same Smartcard, no discount will be applied and the full fee as per section A1.1 will be charged.								
	6.8 The discount provided for Managed Park-and-Ride Areas will operate differently for areas Without Electronic Charging Integrated with Public Transport. Public Transport users using Managed Park-and-Ride Areas facilities in areas Without Electronic Charging Integrated with Public Transport will receive the appropriate discount/s automatically, which will be built into the fee charged in that location.								
	7 General								
	7.1 Use of the smartcard for payment of parking fees and related charges will be subject to the TDA Parking Rules (if any).								
	7.2 Where the vehicle of a parker is found to be parked in a managed parking area at the start of the parking management period, the parker shall pay for parking from the start of such managed parking period and for the full period parked. Where a smartcard with sufficient value is not presented for such payment, the amount due shall remain payable and due by the owner of the vehicle and the holder of a smartcard used previously regarding such vehicle, jointly and severally, over and above any fines that may be due.								
	7.3 An inspector may be used to inspect charging by parking marshal, and such an inspector may charge a parker the applicable fee payable in terms of this Tariff, or the difference between the fee incorrectly charged and the applicable fee, where appropriate.								
	7.4 All decisions required or implied in these Conditions (e.g. decisions which, in terms of this tariff table, must be taken by "the City"), other than those assigned to the Commissioner and those that must logically be taken by the parking marshal or an inspector, shall be taken by the manager responsible for parking management or his delegate in consultation with the manager responsible for <i>Transport</i> business planning or his delegate; alternatively by the <i>Executive Director: Transport</i> .								
	8 Penalties								
	8.1 Parking penalty fees: If a vehicle remains parked longer than the displayed period that the parker has paid for, or where no pay-and-display receipt is displayed in the vehicle, or if a vehicle has been parked in a location where parking is not permitted, the applicable parking penalty fee will be payable and, in addition, a fine may be issued in terms of any applicable law.								
	8.2 Parking Leeway window: If a vehicle remains parked longer than the displayed period that the parker has paid for, or where no pay-and-display receipt is displayed in the vehicle, the City may determine that the parker has a leeway, whereby the parker will not be penalised in terms of the penalties stipulated in this tariff table, but after which they are liable for penalties, including wheel clamping. The City may change the duration of this leeway if required. The effective fee regarding half the leeway period may be added to the parking fee.

	8.3 Parking Offence Leeway for Transition Period								
	8.3.1 During the transition period onto a card system, and provided that the parker uses a MyConnect or a similar card (or such other method determined by the <i>Executive Director: Transport</i>) to pay for parking, if a vehicle or if a specific card recorded on the system as penalised as per the offences listed in Part 3, items A3.2 and A3.4, the parker may be granted a maximum of 3 penalty fee reductions in order to adjust to the new payment and penalty system. An 85% penalty reduction will be applied to these penalties charged. From the 4th penalty onwards the full penalty will be payable as per this tariff table.								
	8.3.2 An unregistered user who has been penalised in terms of section A3.4, A3.5 and A3.7 (wheel-clamping only) may register on the system. If so registered, the first such penalty fee may be waived by the City. A user may also request to have the penalty removed if the user registers and link the user's credit or debit card to the system for automatic payment of parking fees, and penalties, as per the condition set out in section A3.3.2 above.								
	8.3.3 Circumstance to which this leeway of up to 85% is applicable can be defined by the City by means of a public notice in the media.								
	8.3.4 Limitation of Leeway: For penalty fees under Section A3.5 specifically, no leeway will be provided, unless the parker registers on the system and converts their penalty fee (as per 8.3.2 above) into the administration fee charged as per section A3.1. If the parker is already registered, the full penalty will apply.								
	8.3.5 The parking mangement system may allow a parker leeway of up to 15 minutes to pay, without charging for such time.								
	8.4 Parking Penalty Disputes: Parkers are entitled to appeal fines and penalty charges, and where sufficient grounds can be found of unfair application, penalties may be reduced or reversed by the City or in terms of <i>Transport</i> Parking Rules issued by the City.								
	9. Tariff Factors in relation to discounts for the use of <i>Transport</i> Public Transport Services; and CPIX increase related variables								
	9.1 CPIX and the actual increase are shown in the table below, and linked to the calculations in this Tariff Table.								
	9.1.1 The Annual CPIX increase value is included in the table below, and must to be updated annually.								
	9.1.2 The sum of the current years CPIX and the recommended additional increase based on demand, occupancy and TOD principles, is included in the table 9.3 below.								
	9.1.3 The recommended additional increase as per 9.1.2 is set at 3% for the 2018/19 tariff, to be updated annually.

	10.1.2 Parking rates differ in each of the 3 centres, and is calculated with reference to a base rate, where the base rate is the maximum fee based on the methodology set out in this Tariff Table. The calculation of the base rate is described below in section 10.3.
