		(b) Once permitted by the Regulations, "Smartcard" may refer to any other mechanism that permits recordal of the elements described in (a) above, subject to the Fare Rules;									
	2.15A	"Tariff Table" means this tariff table for Road-Based Public Transport Services, also referred to as the "Transit Tariff";									
	2.16	"TDA" means the Transport and Urban Development Authority of the City;									
	2.17	"TDA website" [shall] means any website operated by the City in order to provide information regarding public transport in the City;									
	3.	(a) These tariffs are subject to the MyCiTi Rules or the Fare Rules as may be set out in the Fare Policy for Contracted Road-Based Public Transport Services, or as may be displayed on the TDA website. These Conditions may be amended by way of a change in the Fare Rules, provided that Notice of such amendments have been [which must be] given in the Press.									
		(b) Discounted fares may be provided regarding Park-and-Ride facilities linked to MyCiTi services, which must be announced through a Notice in the Press. Park-and-Ride fares/ fees may be calculated as set out in 3(d), and may be subject to conditions, including the conditions in 3(e). Where the Park-and-Ride services are provided in partnership with an external party providing parking facilities and/ or related services: (i) the City may charge via the Smartcard also the component of the combined Park-and-Ride fee that the parker is required to pay for use of the parking facilities and / or related services to the external party, whether in money or in Mover points; (ii) the City may pay such component of the Park-and-Ride fee collected by the City on behalf of the external party, minus an administration fee (if any), to such external party; (iii) Provided that the arrangement between the City and the external party is recorded in an agreement concluded between the parties.									
		(c) As an example of the discounted Park-and-Ride fares referred to in Condition 3(b), the premium applicable to those trips beginning or ending at the MyCiTi Airport Station may be waived, e.g. where an appropriate transit product has been loaded on the Smartcard, such as a park-and-ride Transit Product. The City may do so by adjusting or waiving the provisions of items 2B.1.7, 2B.2.7, 2C.1.7 and 2C.2.7, where Park-and-Ride conditions apply.									
		(d) (i) The tariff items may be combined, based on an estimated number of uses by passengers of a specific group or category, and a combined transit product or items in this regard may then be offered to a bulk buyer or contracted party at such combined price, subject to any conditions as may be appropriate. (ii) Where such combined transit product or tariff items are charged to a commercial entity, a fare or fee based on a full cost recovery basis may be charged, which may be priced up to [double] <i>four times</i> the amounts indicated in this Tariff Table, and thus be charged effectively at a commercial rate, adjusted as appropriate to consider the competing market rates for the same or similar services.									
		(iii) Where additional public transport services are added specifically for the benefit of commercial entities, the Commissioner may approve an agreement with any such entities providing for a fare guarantee or for a guaranteed load of transit products by any such entities, provided that: (1) an agreement is entered into between the City and commercial entity (-ies) benefiting from these services; (2) the City has estimated the potential additional cost of and fare income due to adding these extra services; (3) the Commissioner has considered the objectives of the Fare Policy; and (4) such approval is communicated through a Notice in the Press.									
		(e) The combination of tariff items in (d) may be done on the condition that those passengers actually using the service must pay the ordinary fare for their public transport services, in which case the combined price set regarding the combined transit product and payable by a bulk buyer or contracted party may then be reduced on the basis of actual or assumed passengers paying for the services offered.									
		(f) Where Items 3 and 4B.1-4B.7A are used for ongoing services for more than seven continuous days, then these rates may be discounted taking into account the cost of providing the services, the fares that are likely to be collected from passengers using the service (if any), the additional charges referred to in 3(d)(ii) and a reasonable mark-up.

		(g) Saver fares for counter-flow travel may be offered to passengers during Peak Fare Periods or a part of Peak Fare Periods, on routes where there is generally a significant differential between passenger flow in the forward and return directions. This provision may be activated by way of a Notice in the Press.									
		(h) To account for the fact that passengers in Dunoon travelling to or from Dunoon and Usasaza stations may have to pay another fare for private feeder transport, a discount of R2 to the fares of passengers on contracted road-based public transport to or from these stations may be activated from a date to be determined by the Commissioner. Once in place the discount may be cancelled from another date that the Commissioner may determine or may be amended by the Commissioner.									
		(i) Where necessary for practicality, or where it is not technically possible to implement an element of the conditions or Tariff Table exactly as worded in this Tariff Table, the relevant element may be amended in programming of the fares, provided the relevant change is embodied in a Fare Rule [and published by way of a Notice in the Press].									
		(j) Passengers may not make Smartcards with the following transit products available to others for a fee or through another kind of exchange: monthlies or any category of day passes. This prohibition does not apply to accommodation establishments, employers or tourism operators making cards with transit products available to guests, employees or tourists respectively. This provision may be amended by way of the Fare Rules.									
		(k) Subject to the Fare Policy, fare zones may be determined throughout the City, and each stop or station will be allocated to the corresponding zone. The distance-based fares in this Tariff Table will then apply to the travel distances between such zones.									
		(l) At any time in the financial year the City may implement a Council approved discount of the fares set out in this Tariff Table for routes serving specific origin-and-destination combinations (ODs) in order to ensure a competitive fare on such ODs compared to alternative modes, and set conditions for such discount, provided that: (1) The revenue projected from the additional passengers attracted through such lower fares (with or without other measures to attract passengers) is projected to be greater than the increase in VOC costs plus the reduction in fare income as a result of the discount; (2) the Council considers in the design of the discount the objectives of the Fare Policy; and (3) such approval is recorded in the Fare Rules.									
		4.	(a)The fares and fees in this Tariff Table are available only for a service that is actually being provided at a given time. Services will be provided subject to the required operating licences for schedules bus services having been granted. Where any existing route is amended and an operating licence is granted for that amended route, the tariff will apply to such amended route, unless a future approved tariff provides otherwise.								
			(b) Some of the fares and fees listed above may not be available or provided within the applicable financial year for reasons that may include limitations regarding the available technology to charge the particular fare or fee.								
		5.	Fare levels One, Two and Three may apply, depending on changes in fuel price, subject to this Condition 5.								
		5.1	Fare level One will be applicable from 1 July of the applicable financial year.								
		5.2	The fare will be adjusted between Fare levels One, Two and Three only when there are significant changes in the fuel price, as set out in Conditions 5.3 to 5.7.								
		5.3	The initial fare, Fare Level One, has been set assuming a regulated wholesale price of R12.57 per litre for low sulphur diesel (50ppm) in Cape Town. If the price rises above R15.08 per litre Fare Level Two will be implemented.								
		5.4	Fares will be maintained at Fare Level Two unless there are further significant changes to the fuel price.								
		5.5	If the fuel price falls below the base price of R12.57 per litre fares will revert to Fare Level One. If the fuel price rises above R17.60 Fare Level Three will be implemented.

	14.1	The boarding fare will be charged when checking in to the fare system, and the distance-based component (being the fare for the Journey up to that point minus the boarding fare applicable to the relevant fare) will be charged when checking out. The fare at which the boarding fare or the distance-based fare will be charged will be the lowest fare applicable, in the following order: first against a transit product available; then the Mover Fare (if sufficient Mover points are available for the full fare due at that stage of the Journey); then the Standard fare (depending on whether there is sufficient credit available). This is so notwithstanding the fact that the fares in Item 2 appear to be for the full Journey.							
	14.2	Where insufficient Mover Points are available in a Mover Package to cover the total fare payable at that stage, a Standard fare may be charged, and any remaining balance in the Mover Packages need not be used towards payment of such fare.							
	14.3	When a passenger checks in to the public transport system (and boarding fare is charged in terms of Condition 14.1) using the Mover Package fare, and checks out at the same location (e.g. the same station or the same bus at the same bus stop) within a period set in the MyCiTi fare rules without travelling at all (i.e. the card records that the distance travelled is 0 km), the fare may be reversed. This rule is subject to amendment by the City, by way if a change in the fare rules.							
	14.4	The following definition of a single Journey will apply, subject to Condition 14.8: If a passenger checks in to a subsequent bus / station within 2 and a half hours of first checking into the system, and there is less than 45 minutes (give of take 5 minutes) between such checking out and checking in again, then the Journey is considered a single Journey and distance is calculated on the total Journey distance and not as separate trips, even when the transfers occur outside a station.							
	14.5	Mover points purchased will be redeemed as the passenger travels, at the rate set in the fare, with the result that the number of points needed for a Journey will be deducted from the total number of points recorded on the card or otherwise as available as Mover points. Similarly, additional Mover points purchased will be added to the Mover points recorded on the card or otherwise.							
	14.6	A Mover point is equivalent to the monetary value of the point. E.g. an R80 Mover Package loads 80.00 points, and the number of points equivalent to the fare will be deducted from the balance of points available on the Smartcard.							
	14.7	When the functionality of the Mover Package / Mover Points is available to an App (or similar programme) on a mobile telephone (or another device), and where this is authorised by the Commissioner, all references in this Tariff Table to Mover Package / Mover Points shall be read as applicable to their equivalent via such App (or similar programme).							
	14.8	In the event that a system using one validator in a feeder environment (excl 6m buses), rather than two validators (upon which Condition 14.4 is based) is activated by Notice in the Press, then the following definition of a single Journey will apply: If a passenger checks in to or out of a subsequent bus / station within 3 hours of first checking into the system, and there is less than 45 minutes between such checking out and checking in again (give or take 5 minutes), then the Journey is considered a single Journey and distance is calculated on the total Journey distance and not as separate trips, even when the transfers occur outside a station. If the passenger checks in after the 3 hours the system will charge the difference between the relevant non-closure fare and the fare already paid, and thus will charge the maximum fare for using the system, irrespective of the distance travelled. If circumstances indicate that the passenger is likely to have missed a check-in or check-out step during a Journey a non-closure fare may be charged.

	14.9	The Commissioner may issue a Notice in the Press to the effect that passengers may pay fares with a credit or debit card which is a contactless card (and therefore is enabled for near field communication) but does not contain the National Department of Transport data structure as prescribed by Regulations (and is therefore not a Smartcard). From a date indicated in such notice, the Commissioner may make the following rules applicable: (a) That the following fares will apply: (i) A system-wide one-journey ticket for Non-Premium services, whether in the Peak or Save Period: The fare as in Item 2D.1a; (ii) A system-wide one-journey ticket including Premium services, whether in the Peak or Saver Period: The fare as in Item 2D.2. In such case the Commissioner may set conditions to ensure that (i) a passenger is disincentivised from only tapping out with such credit / debit card, to combat the possibility that a passenger who tapped in using a Smartcard taps out with a credit / debit card to avoid paying the distance portion of the fare; and (ii) a passenger tapping out using a credit / debit card at the Airport is charged for that Journey the fare as in Item 2D.2. This may include a condition that such passengers would be charged the same fare on tap-in and on tap-out, with the passenger being credited for any overcharge within one week; (b) Alternatively, that the following fares will apply; Provided that a mechanism is implemented through which the passenger is charged after travelling a full Journey in such a manner that the route, time of travel and distance can be determined in order to determine the relevant fare: the relevant Standard Fare in Item 2B.1 or Item 2B.2.									
	15	Penalty Fares: (a) Where a Penalty Fare is charged, and the passenger / person has through the same conduct also committed an offence in terms of any law, the criminal sanctions linked to such conduct may be enforced in addition to the charge of the Penalty Fare. (b) Where the Penalty Fare as set out in the fares is higher than the maximum transaction value that is permitted when using the EMV component of the Smartcard, as set out in the relevant exemption from the Financial Intelligence Centre Act (FICA) and its regulations, the person may be charged through multiple payments so as to charge the full applicable Penalty Fare. Alternatively, if the City so determines, the Penalty Fare may be reduced to be equal to such maximum transaction amount. (c) The cash value of Penalty Fares, when paid for through the Mover Package, shall be charged at an equivalent number of Mover Points to that applicable to the Standard Fare, taking into consideration the provisions of Condition 14.6. (d) If the Commissioner has reason to believe that there is Gaming as referred to in Item 2E.1b, the Commissioner may determine that, instead of activating the mechanism set out in such Item, that passengers falling in the following category will be charged the following Penalty Fare: Where a passenger on one Journey ("the Previous Journey") checks in but does not check out, and where the Standard Fare in the Peak Fare Period between the stop that the passenger had checked in on such Previous Journey and the stop where the passenger checks in on the Next Journey is more than the applicable Penalty Fare in Items 2E.1a to 2E.2, that such Standard Fare in the Peak Fare Period plus 10% is charged as a Penalty Fare, irrespective of the time that the passenger had checked in on such Previous Journey or whether the card had Mover Points loaded.									
	16	The provision for the fees in Items 4B.14 to 4B.16 do not imply that any person who is prepared to pay the fee is entitled to obtain such permission. Regarding Item 4B.14 and 4B.15 the City reserves the right to refuse permission for such use, and may set terms and conditions if it grants it.									
	17	Where a passenger fails to check out correctly, the City may, at its election, charge the applicable fare contained in items 2E.1 and 2E.2 when the passenger next uses the service, in addition to the boarding fare chargeable when the passenger next taps on a validator (whether checking in or out).									
	18	Regarding provisions on Non-Closure fares, above, where the circumstances indicate that it is likely that a passenger has failed to check out in a previous trip and again failed to check in a subsequent trip, the passenger may be charged two times the relevant non-closure fares, minus the fares already paid regarding those trips. Where the circumstances indicate that a passenger accidentally tapped in or out twice at the same location, or where otherwise the system can detect that there is likely to be a good faith error, the Penalty Fare may be waived.

	SB	SOCIAL BENEFIT	Where tariffs are set at affordable levels which encourages usage and does not cover the cost of products or services (neither partially nor fully) but provides benefits to low income users e.g. pauper burials/cremations								
	MR	MARKET RELATED	Where tariffs are set at a level to ensure financial sustainability of the service e.g. Electricity (Large Power Users)								
	FCR	FULL COST RECOVERY	Where tariffs are set to recuperate all costs associated with specific products or services. Full cost represents the value of all the resources used or consumed in the provision of the product or service.
