5.7	Changes in fare levels linked to the above changes in the fuel price will be implemented as follows: (a) only once the relevant fuel price is higher than the relevant threshold for at least three consecutive months; (b) from the end of the second month following the month in which an official announcement is made of fuel price changes that will result in triggering the shifts between fare levels as described above, i.e. regarding the third month that such first higher fuel price, as referred to under (a), has been announced; (c) the fare increase provided for above must be effected to start from one of the following dates (always complying with each of the above factors): 1 March or 1 November – the latter to ensure that the date of increase does not fall on the quiet period around New Year). (d) Par (a)-(c) will apply regarding lowering of fuel prices as referred to in Conditions 5.5 and 5.6, with the changes required by the context.						
5.8	Where the fuel price increases or decreases significantly in any year between March and the date upon which the agenda closes for the Council meeting where the final budget for the following financial year is to be adopted, Council may consider whether to increase or reduce the published fares, an appropriate proposal for an adjustment to the originally published draft tariff may be submitted to Council for its consideration.

6.	Tickets / products / cards / event-related fees may be sold / charged to vendors / clients at a discount of up to 33%, subject to appropriate conditions.						
7.1	As and when considered appropriate or necessary, free travel days may be held and / or complementary tickets or Smartcards (<i>with or without money or Mover packages</i>) may be issued, for marketing purposes. In such cases no fare will be charged for a given service, or a reduced fare may be applied.						
7.2	The Commissioner may, after considering all relevant factors, activate the Group Card functionality for purposes of promoting use of the public transport services that can be paid for by using the myconnect card, to promote use of public transport, and to make it more affordable to families, groups of scholars and pensioners, or other groups. The public must be notified of the implementation of the Group Card by way of a notice in the press at least one month prior to implementation of the Group Card system. The Commissioner may also terminate the availability of such Group Card, on notice in the press of at least three months. (a) When deciding to implement the Group Card, the Commissioner must also determine (i) the maximum number of users ((being between 5 and 10)), <i>with the default maximum being 31</i>; (ii) whether the number of maximum users will be open to the election of the Group Leader as indicated in 7.2(c) below; (iii) whether the Group Card can be used only in the off-peak period, or also during the peak period; (iv) whether the issuing fee provided for in 7.2(c)(iii) is to be discounted as part of free card issue initiatives provided for in 2.17(c) and if so, which discount would apply; and (v) further conditions to avoid abuse of the Group Card or to deal with difficulties that may be caused by use of the Card. (b) The Commissioner may at any time change any of the rules in par (a) on one month notice in the press. (c) If the Group Card functionality has been activated in terms of this par 7.2, the following rules apply: (i) The person purchasing a Group Card (referred to as the "Group Leader") must define the intended maximum number of passengers in the group, subject to the Commissioner's determination in terms of 7.2(a) or (b). (ii) The Group Card must be personalised with at least details of the Group Leader, including an authenticated address to which an account for any outstanding non-closure fares and penalties could be sent, for which the Group Leader must accept full responsibility for payment within 30 days of issuing of an invoice or statement in this regard. (iii) The issuing fee of a Group Card is the smart card issuing fee as defined above plus an amount equal to half of the minimum fare evasion penalty fare for each of the intended members of the group as selected by the Group Leader in terms of (i) above or as determined by the Commissioner in terms of 7.2(a) or (b). (iv) The Group Card cannot be sold back to the City, but can be surrendered to the City at no repayment. (v) All the passengers travelling on a group card must access the service as a group, must travel in this group to enable proper inspection regarding each of the relevant passengers, and must leave the service as a group. (vi) The Group Card, when used for travel, must always be in possession of one of the passengers travelling in this group. (vii) Fare evasion penalties as defined above are payable regarding every passenger found in a public transport vehicle or on a station, or leaving such vehicle or station, if the relevant Group Card is not presented immediately by or on behalf of each such passenger. (viii) For the avoidance of doubt, non-closure penalty fares as defined in this tariff table are payable regarding every passenger, where the number of passengers that entered the system is different from the number of passengers that exited the system regarding a given journey. (cA) <i>If it is not possible for the Group Leader to select the maximum number of passengers in the group as intended in 7.2(a) above, then the Commissioner may set an issuing fee that balances the risk between non-paid non-closure fares and making Groups Cards available at an affordable price. The issuing fee may be set at a different rate for different categories of passengers.</i>

The fare at which the boarding fare or the distance-based fare will be charged will be the lowest fare applicable, in the following order: first <i>against a transit product available</i> ; then the Mover Package Fare; then Standard fare (depending on whether there is sufficient travel points / credit available). This is so notwithstanding the fact that the fares in Item 2 appear to be for the full journey.						
14.2	Where insufficient travel points are available in a Mover Package to cover the total fare payable at that stage, a Standard fare <i>may</i> [will] be charged, and any remaining balance in the Mover Packages <i>need</i> [will] not be used towards payment of such fare.						
14.3	When a passenger checks in to the public transport system (and boarding fare is charged in terms of Condition 14.1) using the Mover Package fare, and checks out at the same location (e.g. the same station or the same bus at the same bus stop) within a period set in the MyCiTi fare rules without travelling at all (i.e. the card records that the distance travelled is 0 km), the fare may be reversed. This rule is subject to amendment by the City.

14.4 The following definition of a single journey will apply, subject to Condition 14.7: If a passenger checks in to a subsequent bus / station within 2 *and a half* hours of first checking into the system, and there is less than 45 minutes between such checking out and checking in again, then the journey is considered a single journey and distance is calculated on the total journey distance and not as separate trips, even when the transfers occur outside a station.

14.5 *Mover* points purchased [~~through a Mover Package will be loaded onto a Mover Package Transit Product. Such points~~] will be redeemed as the passenger travels, at the rate set in the fare, with the result that the number of points needed for a journey will be deducted from the total number of points *recorded on the card as* available as Mover points [~~in such Transit Product~~]. Similarly, additional *Mover* points purchased [~~through Mover Packages~~] will be added to the Mover points *recorded on the card* [~~in such Mover Package Transit Product~~].

14.6 [~~The~~] *Mover* points [~~purchased through a Mover Package~~] is equivalent to the monetary value of the *points* [~~Mover Package~~]. Eg an R80 Mover Package loads 80.00 points, and the number of points equivalent to the fare will be deducted from the balance of points available on the Smartcard.

14.7 In the event that a system using one validator in a feeder environment (excl 6m buses), rather than two validators (upon which Condition 14.4 is based) is activated by notice in the press, then the following definition of a single journey will apply: If a passenger checks in to or out of a subsequent bus / station within 3 [2-5] hours of first checking into the system, and there is less than 45 minutes between such checking out and checking in again, then the journey is considered a single journey and distance is calculated on the total journey distance and not as separate trips, even when the transfers occur outside a station. If the passenger checks *in* after the 3 [2-5] hours the system will charge the difference between the relevant non-closure fare and the fare already paid, and thus will charge the maximum fare for using the system, irrespective of the distance travelled. If circumstances indicate that the passenger is likely to have missed a check-in or check-out step during a journey a non-closure fare may be charged.

15 Penalty fares: (a) Where penalty fare as set out in the fares is higher than the maximum transaction value that is permitted when using the EMV component of the Smartcard, as set out in the relevant exemption from the Financial Intelligence Centre Act (FICA) and its regulations, the penalty fare may either be reduced to be equal to such maximum transaction amount, or may be charged through two payments so as to charge the full applicable penalty fare. (b) The cash value of penalty fares, when paid for through the Mover Package, shall be charged at an equivalent number of travel points to that applicable to the cash fare, taking into consideration the provisions of Condition 14.6.

16 The provision for the fees in Items 4B.14 to 4B.16 do not imply that any person who is prepared to pay the fee is entitled to [~~such services~~] *obtain such permission* . Regarding Item 4B.14 and 4B.15 the City reserves the right to refuse permission for such use, and may set terms and conditions if it grants it.

17 In the case of non-check out, fares contained in items 2E.1 and 2E.2 may only be charged when the passenger next uses the service, in addition to the boarding fare chargeable when the passenger next taps on a validator (whether checking in or out).

18 Regarding provisions on non-closure fares, above, where the circumstances indicate that it is likely that a passenger has failed to check out in a previous trip and again failed to check in a subsequent trip, the passenger may be charged two times the relevant non-closure fares, minus the fares already paid regarding those trips. Where the circumstances indicate that a passenger accidentally tapped in or out twice at the same location, *or where otherwise the system can detect that there is likely to be a good faith error*, a penalty fare may be waived.
