WHAT IS THE PUBLIC REALM STRATEGY?

The City of Cape Town has an exciting initiative to enhance the quality of District Six's (D6) streets and public spaces, working alongside the Local Area Spatial Development Framework and other initiatives in District Six and developing the concepts of the 2012 Spatial Development Framework in more detail. The **Public Realm Strategy** will focus on developing the **streets and spaces between the buildings as meaningful quality public spaces** – stitching together the area.

The project aims to create representational spaces and places within District Six, where we remember the **past**, where we share in the **present** and where we work towards a shared **future**.

This process will inform a **Public Realm Investment Framework** and **Guidelines for Public Spaces and Streets** in District Six. Through developing a Public Realm Strategy (PRS) with the community over the next few months, we seek to build on what makes District Six distinctive and to celebrate key public spaces.

WHAT HAVE WE DONE THIS YEAR?

- Analysis, research and building on work previously done in District Six.
- 3 x Public Meetings so far to initiate the project.
- 4 x Co-design Workshops with nominated caretakers from various groups.
- Developing ideas and strategies for public spaces in District Six, which build on previous work done and inputs from the co-design process.
