3. 2022 Census Kraaifontein police precinct overview²

- Population: 278 599
- Households³: 82 896
- Average Household size⁴: 3.4
- Number of sub-places⁵: Approximately 31 sub-places.

4. Summary of key Kraaifontein police precinct statistics

Population

- The population is predominantly Black African (56.7%).
- The median age is 29 years old.

Education

- 37.1% of those aged 20 years and older have completed Grade 12 or higher.

Housing

- 83.9% of households live in formal dwellings.

Basic services

- 96.3% of households have access to piped water, either on the property or within 200m.
- 93.1% of households use electricity from the mains supply for lighting.
- 94.4% of households have access to a flush toilet, chemical toilet or a pit toilet with ventilation.
- 92.1% of households have refuse removed at least once a week.

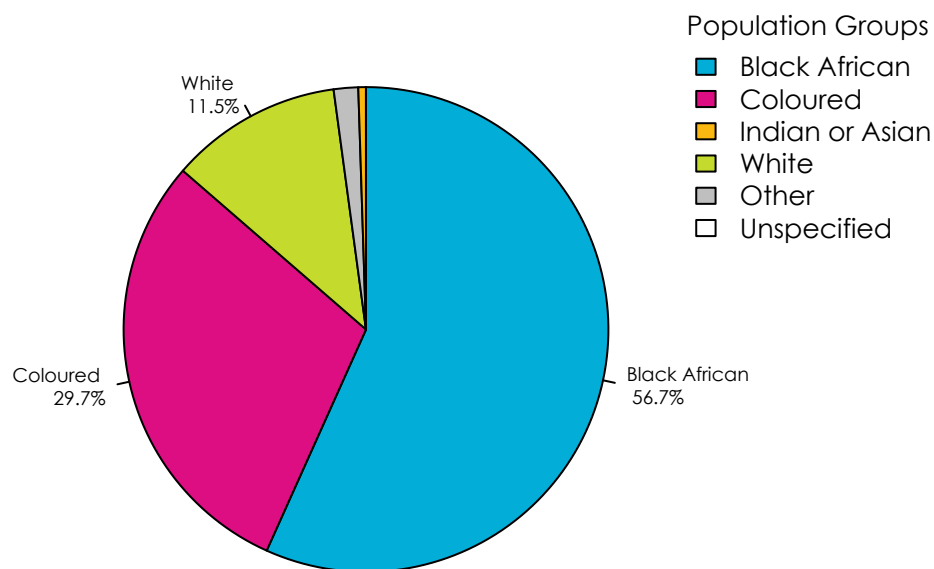

²There are small variations in the total population and the number of households in the tables which follow. These occur as Statistics South Africa had to calculate the true population to correct omissions and double counts in the enumeration process. In addition when the data is extracted using the Statistics South Africa software, it randomly rounds off all cells to a base number 3, including the totals. These variations are not significant.

³A household is defined as a group of persons who live together, and provide themselves jointly with food or other essentials for living, or a single person who lives alone (Statistics South Africa).

⁴The Census districts where the population is categorised as living mainly in collective living quarters or is an industrial or commercial area, the average household size has been excluded as it is not applicable. There are some Census districts with an average household size that have a small percentage of the population living in collective living quarters within that Census districts, and this could artificially inflate the average household size.

⁵Sub-places are the second, lowest-level geographical units, representing suburbs, townships, wards, or villages used by Statistics South Africa for data collection. Some sub-places do not align perfectly with police precinct boundaries. This figure is based on the sub-places's centroid falling within a precinct.

5. Population

Population groups which constitute less than 5% excluded from labels

Other	847	1.8%	189	0.9%	0	0.0%	74	0.6%	8	1.0%	1118	1.3%
Unspecified	12823	27.6%	4179	19.7%	1750	88.7%	4243	33.8%	22	2.8%	23017	27.8%
Total	46384	100.0%	21205	100.0%	1972	100.0%	12541	100.0%	794	100.0%	82896	100.0%

If the unspecified category under tenure type exceeds 20%, the data in the table should be interpreted and used with caution.

8. Basic Services

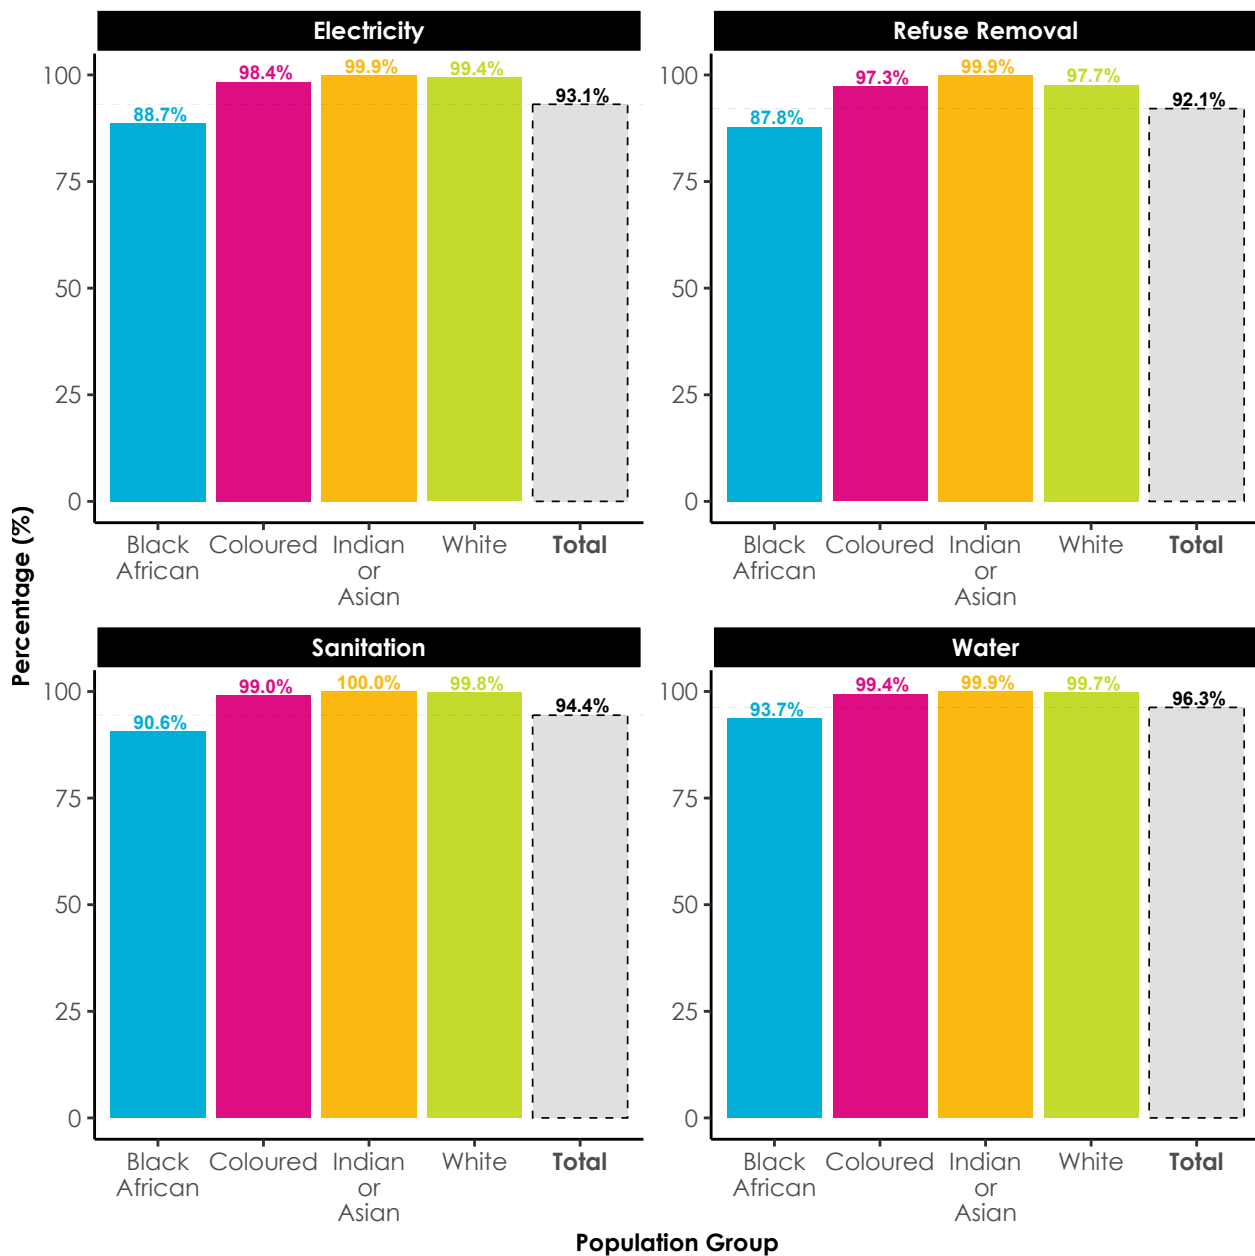

Figure 6: Summary of access to basic services by population group (%)

Definitions:

- **Access to energy** is the use of electricity from mains supply for lighting.
- **Access to water** is piped water, either on the property or within 200 m.
- **Access to sanitation** is a flush toilet, a chemical toilet or a pit toilet with ventilation.
- **Access to refuse removal** is a removal service at least once a week.

Table 4: Main source of energy for lighting

Lighting Source	Black African	Coloured	Indian/Asian	White	Other	Total
Electricity from mains	41 127 (88.7%)	20 856 (98.4%)	1 970 (99.9%)	12 465 (99.4%)	778 (97.6%)	77 196 (93.1%)
Other source of electricity (e.g. generator etc.)	181 (0.4%)	161 (0.8%)	0 (0%)	17 (0.1%)	6 (0.8%)	365 (0.4%)
