

**ITEM NUMBER: C 53/12/22**

**ANNEXURE A**

**QUESTION TO THE EXECUTIVE MAYOR IN TERMS OF RULE 22 OF THE RULES OF ORDER:**

**COUNCIL MEETING: 08 DECEMBER 2022**

**Mr Mayor**

Stratford Avenue is a very busy road used by both local residents including public and scholar transport in Eerste River.

Towards the end of the last term, there was a project of sewer infrastructure upgrade running underneath part of the road which lead to that part been closed halfway in the middle of the very long road for 6 months. Even though it was for a good cause, it has inconvenienced resident and other road users for that period immensely.

Hardly 3 months after completion of the project, there was a sewer spillage which stretch about 100m of the road and ran into houses of residents on the side of the road for days. This is likely due to the main sewer pipe line collapsed and again lead to the road be closed for motorist.

I think you would agree that this is an unnecessary inconvenience to both home owners and road users this time caused by poor workmanship and lack of supervision.

**Can you Mr Mayor please take Council into confidence:**

1. Was an estimate done on the extend of the damage and who is going to pay for it.
2. Was an assessment done on the extent of damage the diversion of traffic, including taxies and busses are doing to the smaller inside roads traffic is now been redirected for the 2nd time in just over 6 months.
3. How long are residents and road users going to be inconvenienced this time.
4. How much is the current interim measures costing the COCT pumping the sewer over the road with the assistance of a generator costing the COCT.
5. If it is indeed the main sewer pipe line that collapsed, what is the impact to the entire network.

**BYLAE A**

**VRAAG AAN DIE UITVOERENDE BURGEMEESTER INGEVOLGE REËL 22 VAN DIE ORDEREËLS:**

**RAADSVERGADERING: 08 DESEMBER 2022**

**Meneer die Burgemeester**

Stratfordlaan is 'n baie besige pad wat deur plaaslike inwoners gebruik word, insluitende openbare en skoolvervoer in Eersterivier.

Teen die einde van die laaste kwartaal was daar 'n rioolinfrastruktuur-opgraderingsprojek onder 'n gedeelte van die pad wat tot gevolg gehad het dat daardie gedeelte vir ses maande lank halfpad gesluit was in die middel van die baie lang pad. Al was dit vir 'n goeie saak, het dit inwoners en ander padgebruikers vir daardie tydperk ongelooflik verontrief.

Skaars drie maande na die voltooiing van die projek was daar 'n rioolstorting wat dae lank oor ongeveer 100 m van die pad gestrek het tot in huise van inwoners aan die kant van die pad. Dit was waarskynlik toe te skryf aan die ineerstorting van die hoofrioolpypleiding, wat weer daartoe gelei het dat die pad vir motoriste gesluit is.

Ek dink u sou saamstem dat dit 'n onnodige ongerief vir beide huiseienaars en padgebruikers gedurende hierdie tyd meegebring het wat deur swak werkmanskap en gebrek aan toesig veroorsaak is.

**Kan u, meneer die burgemeester, asseblief die Raad in u vertroue neem:**

1. Is 'n raming van die omvang van die skade gedoen en wie gaan daarvoor betaal?
2. Is 'n assessering van die omvang van die skade gedoen wat deur die herleiding van verkeer veroorsaak word, insluitende taxi's en busse wat nou vir die tweede keer in net meer as ses maande die kleiner interne paaie gebruik?
3. Hoe lank gaan inwoners en padgebruikers hierdie keer verontrief word?
4. Hoeveel kos die huidige tussentydse maatreëls om die riool oor die pad met behulp van 'n kragopwekker te pomp, die Stad Kaapstad?
5. As dit inderdaad die hoofrioolpypleiding is wat ineengestort het, wat is die impak op die hele netwerk?

**UMBUZO OJOLISWE KUSODOLOPHU WESIGQEBA NGOKOMGAQO 22 WEMIGAQO YOCWANGCO:**

**INTLANGANISO YEBHUNGA: 08 EYOMNGA 2022**

**Mnumzana uSodolophu**

I-Stratford Avenue yindlela exakeke kakhulu esetyenziswa ngabahlali bendawo, kuquka izithuthi zikawonkewonke kunye nezikolo e-Eerste River.

Ekupheleni kwikota yokugqibela, bekukho iprojekthi yokuphuculwa kweziseko zogutyulo ezihamba phantsi kwecala lendlela ezikhokelele ekubeni eli cala livalwe phakathi kangangeenyanga ezintandathu embindini wendlela ende kakhulu. Nangona yayisenzelwa isizathu esilungileyo, yaye yaphazamisa abahlali kunye nabanye abasebenzisi bendlela ngokumangalisayo ngelo xesha.

Kwiinyanga nje ezintathu emva kokugqitywa kweprojekthi, kwabakho ukuchitheka kwelindle okuye kwanda kanganeemitha ezimalunga ne100 ukusuka endleleni ukuya kwizindlu zabahlali ezisecaleni kwendlela. Oku mhlawumbi kubangelwe kukudilika kombobho omkhulu wogutyulo, nto leyo eyakhokelela ekubeni indlela ivalwe kubaqhubi beemoto.

Ndinga ukuba ungavuma ukuba oku kubangele ukuphazamiseka okungeyomfuneko kubanini bezindlu kunye nabasebenzisi beendlela ngeli xesha okubangelwa kukungenziwa kakuhle komsebenzi kunye nokunqongophala kokubeka iliso.

**Ingaba, Mnumzana uSodolophu, unganceda uqinisekise iBhunga:**

1. Ingaba uqikelelo lwenziwe malunga nobungakanani bomonakalo kwaye ngubani oza kuwuhlawulela?
2. Ingaba sele lwenziwe uhlolo malunga nobungakanani bomonakalo obangelwe kukutshintsha indlela kwezithuthi, ezibandakanya iitekisi neebhasi ngoku ezisebenzisa iindlela ezincinci zangaphakathi okwesibini kwisithuba nje esingaphezu kweenyanga ezintandathu?
3. Kuya kude kube nini abahlali kunye nabasebenzisi bendlela bephazamiseka ngeli xesha?
4. Ingaba amanyathelo akhoyo ethutyana okumpompa amanzi amdaka endleleni ngoncedo lwejenereyitha axabisa malini kwiSixeko saseKapa?
5. Ukuba ngenene ngowona mbobho mkhulu wogutyulo othe wawa, ingaba iluchaphazela njani uthungelwano luphela?

**ANNEXURE B**

**REPLY FROM THE EXECUTIVE MAYOR TO QUESTION FROM CLLR P C HEYNES FOR COUNCIL MEETING ON 08 DECEMBER 2022**

1. Yes, the municipality.
2. Yes
3. Yes, 14 days. This is because equipment will need to be placed in the road for the over-pumping.
4. R330 per hour
5. Over-pumping ensures that wastewater by-passes the point where the sewer collapsed and remains contained in the sewer line downstream and does not run into people's properties.

As a proactive measure a camera inspection will be done to check for possible weak points where sinkholes might occur in the future.

---

**BYLAE B**

**ANTWOORD VAN DIE UITVOERENDE BURGEMEESTER OP VRAAG VAN RDL. PC HEYNES VIR RAADSVERGADERING OP 8 DESEMBER 2022**

1. Ja, die munisipaliteit.
2. Ja.
3. Ja, 14 dae. Dit is omdat toerusting in die pad geplaas moet word vir die oorpomp.
4. R330 per uur.
5. Oorpomp-maatreëls verseker dat afvalwater verby die punt waar die riool ineengestort het, verbyvloei en stroom af in die rioollyn bly en nie in mense se eiendomme inloop nie.

As 'n proaktiewe maatreël sal 'n inspeksie per kamera gedoen word om vir moontlike swak punte te kyk waar sinkgate dalk in die toekoms kan ontstaan.

**ISIHLOMELO B**

**IMPENDULO EVELA KUSODOLOPHU WESIGQEBA KUMBUZO KACEBA U-PC HEYNES WENTLANGANISO YEBHUNGA YOMHLA WESI8 KWEYOMNGA 2022**

1. Ewe, umasipala.
2. Ewe
3. Ewe, iintsuku ezili 14. Oku kungenxa yokuba kuya kufuneka kubekwe izixhobo endleleni ukwenzela ukumpompa ngaphezulu.
4. Ama R330 ngeyure.
5. Ukumpompa okugqithisileyo kuqinisekisa ukuba amanzi amdaka ayadlula kwindawo apho umjelo wamanzi ophantsi komhlaba udilike khona kwaye ahlale kumbhobho wogutyulo owehlela ezantsi komlambo ukuze angangeni kwiipropati zabantu.

Njengendlela yokukhusela uhlobo lwekhamera luya kwenziwa ukujonga iindawo ezibuthathaka ezinokuthi zenze imingxuma enzulu enokuthi yenzeke kwixesha elizayo.
