**BUSINESS PLAN
2011-2016
OF
TRIANGLE FARM INDUSTRIA IMPROVEMENT DISTRICT
ASSOCIATION
(Including a motivation report, implementation plan and 5 year budget)**

OCTOBER 2010

**In accordance with the By-Law for establishment of Special Rating Area,
promulgated in the Provincial Gazette 6651/2009**

GEOGRAPHIC AREA OF THE CID

The geographic area for the CID is bounded by:-

Tetra, Ferguson, Atomic, Electron, Neutron, Uranium, Molecule, Proton, Micro, Thermo, Brug Reactor and Isotope Roads / Streets.

1. MOTIVATION REPORT

Triangle Farm Industria Improvement District Association has been operating since 1 August 2008 as a Section 21 Company (non-profit organization), providing supplementary services.

We continuously strive towards building confidence in the area as a safe, attractive and clean environment in which to conduct business by providing effective response to the high levels of crime and grime which previously existed in the area. Special attention is paid to our core responsibilities:-

- To supplement and enhance services provided by the City of Cape Town
- To facilitate investment in the area
- To facilitate a co-operative approach between the City and private sector in the provision of municipal services
- To halt degeneration and facilitate upliftment of the industrial area
- To promote economic growth and sustainable development
- To facilitate new job creation activities

2. VISION / MISSION STATEMENT AND GOALS / OBJECTIVES FOR 2011/2016

2.1. VISION:-

Shall strive to develop and market a safe, secure, clean and attractive environment in which to conduct business.

2.2. MISSION:-

To decrease waste and grime in the Triangle Farm Industria area through effective security patrols and additional cleansing services and co-ordinating a project aimed at waste minimization.

2.3. GOALS:-

- * Decrease crime, grime and waste
- * Supplement and enhance services provided by the SA Police Service and the City of Cape Town in the form of additional / supplementary security, safety and cleansing services
- * To facilitate investment in the area
- * To facilitate a co-operative approach between the City and private sector in the provision

of municipal services

- * To halt degeneration and facilitate upliftment of the industrial area
- * To promote economic growth and sustainable development
- * To facilitate new job creation activities

3. SERVICES

The Triangle Farm CID would provide services that are consistent with the City's Integrated Development Plan ("IDP") by providing "top up" services to the City of Cape Town.

The achievement and success of the CID's main objectives for 2011/2016 which is aimed at securing a safe, attractive and clean business area would ultimately require the implementation of numerous action steps with key performance indicators assigned thereto (these have been incorporated into a implementation plan as per attached document). In this way there is a responsibility on the CID to deliver in terms of service that is measured against success indicators. A summary of the numerous action steps to be taken in primarily achieving these objectives are indicated below:-

3.1. MANAGEMENT

The CID is managed by a Board of Directors elected by its members and operated by a management team that is appointed by the Board. The services of the CID is not of such a nature aimed at reinforcing existing inequities in the development of the City's area of jurisdiction. The CID is aimed at facilitating investment in the area by providing supplementary services in the form of security and cleansing. Social upliftment, environmental issues and marketing are also an integral part of services managed by the CID..

3.2. SAFETY AND SECURITY

In order to decrease crime a record of crime statistics and incidents need to be kept in order to measure performance. Statistics will enable the CID to identify "hot spots", root causes and environmental design contributing to crime. With this knowledge the CID can address the root causes of crime, and determine the crime pattern analysis and crime threat analysis in order to combat and address these by implementing effective strategies.

In order to enhance the provision of services by the SAPS, liaison with the relevant role players is required to take place in order to identify shortcomings pertaining to effective policing in the area. A contingency plan is required where strategies can be implemented in order to supplement the services of the SAPS.

Decreasing crime in the area to a large extent depends heavily on the effective services rendered by the security service providers. This would require the CID to regulate an efficient service in this

regard including liaison with Security Managers, on-site inspections and evaluation of these services.

Introduction of a camera surveillance system with the existing CID security service provider will be investigated with a view to possible implementation.

The CID will be instrumental in implementing a disaster management plan guideline for the area.

Regular interaction and blitz operations with SAPS, Traffic, Fire Services and Fire Safety will take place.

3.3.CLEANSING

In order to address this issue, one first has to identify the root causes and environmental design contributing to grime so that a cleansing service can be co-ordinated accordingly.

The implementation of a waste minimization project in diverting waste from landfill through re-use, re-cycling and reduction will be introduced. Business owners will be educated on the effects of water and air pollution etc.

3.4.MARKETING

Building community pride is an important step in obtaining the full participation of all property owners as this has a collective benefit for them in that resources are pooled in order to facilitate a collective benefit. These collective benefits include a well managed area, shared communal pride, safety and social responsibility with access to numerous joint initiatives incorporating re-cycling, job creation etc. These benefits translate into increased property values and capital investments.

The above will be achieved by liaison with all property owners and tenants, hosting of social functions, encouraging maintenance of buildings and landscaping of street frontages. Media coverage promoting the area and business prospects in the area will receive attention together with appropriate signage.

3.5.SOCIAL

The CID will address social issues by:-

- * Job creation through the implementation of a re-cycling project whereby funds generated are directed to the disadvantaged community and local schools
- * Social responsibility towards stray animals and Cart-horses
- * Encouraging entrepreneurship amongst learners at local schools coupled with business and marketing skills to equip them for the future.

4. IMPLEMENTATION PLAN

A detailed implementation plan incorporating objectives, services, action steps and key performance indicators is attached.

5. FINANCES

In order to implement the business plan the CID requires the necessary finances. A budget is assigned thereto and attached for your information. Triangle Farm Industria Improvement District is a 100% industrial component requiring participation by all property owners within its approved geographic boundary in terms of payment of the SRA additional rate.

In cases where the City of Cape Town grants a partial rebate as set out in paragraph 5.7 of the Rates Policy (2010), the relevant property owner will be granted a full exemption in relation to the additional rate.

6. DISSOLUTION

Upon the winding up of a management body, the assets remaining after the satisfaction of all its liabilities shall be utilized by the City to provide additional municipal services in accordance with the provisions of the Triangle Farm CID plan for such area.
