7. DISCUSSION/CONTENTS

Cape Town has a strong track record as an events destination and has hosted major global events such as the 1995 Rugby World Cup, 2003 Cricket World Cup and 2010 FIFA World Cup. Cape Town has developed a strong global brand and wishes to utilise this strength to develop as an events destination of choice and to further build the city's brand identity. This branding is critical for business perceptions about the City as an investment destination.

The City's events programme is listed as a strategic objective in the Integrated Development Plan (IDP). Events create platforms that have the ability to support all five pillars. Extensive research has been conducted on the impact of hosting strategic events on local economic growth and development. The City plays an important role in regulation of events, city partnerships, events organisation, facilitation and service provision.

The Events Policy aims to create mutually beneficial outcomes for Cape Town residents, businesses and visitors and to use the platforms created by events to contribute to Cape Town's growth and development. The policy is applicable within the City's jurisdictional area, which may in any way require the services of the City, have implications for public safety, the environment and local communities and which occur in public and/or private places as contemplated in the City's Events by-law and the Safety and Recreational Events Act, 2010 (Act No. 2 of 2010). The policy is developed and guided by various legislation and regulations.
