

MOTION TO SUB-COUNCIL 20
FOR MEETING ON 20 November 2019
SUBMITTED BY: COUNCILLOR LIZ BRUNETTE

MOTIVATION

In a Subcouncil 20 meeting with the Transport: Regulations department in November 2019 the accommodation of taxis at the new Constantia Emporium, cnr Ladies Mile and Spaanschemat Roads on Constantia was queried.

The Manager, Transport: Regulations advised that the department is not notified about new SPE developments on undeveloped land such as the Constantia Emporium (Erf 13707 and Erf 13708), nor is the department notified about Transport developments such as the NMT route along Spaanschemat River and Orpen roads in Constantia/Tokai.

MOTION

Subcouncil 20 requests the Executive Director: Spatial Planning and Environment to ensure that all departments that impact on the outcome of a development application are required to:

- a) Notify the Transport: Regulations department about the application so that the responsible official can consider the impact of taxis on the surrounding area, and advise where one or more taxi embayments should be provided for the applicable taxi operator(s).
- b) Subcouncil 20 requests that feedback be provided as to how this request will be implemented into the current system to accommodate taxis at large developments.

Proposed by: E Brunette

Date: 20 November 2019
