PLANNING BACKGROUND AND PROPOSED PROCESS

Confirm and update the previous work

Source: Development Framework, 2012 (Mammon & Assoc.) by DALRRD

CITY OF CAPE TOWN

STAD KAAPSTAD

What is the purpose of the Local SDF?

The Local Spatial Development Framework (Local SDF) (neighbourhood plan) is an important planning document because:

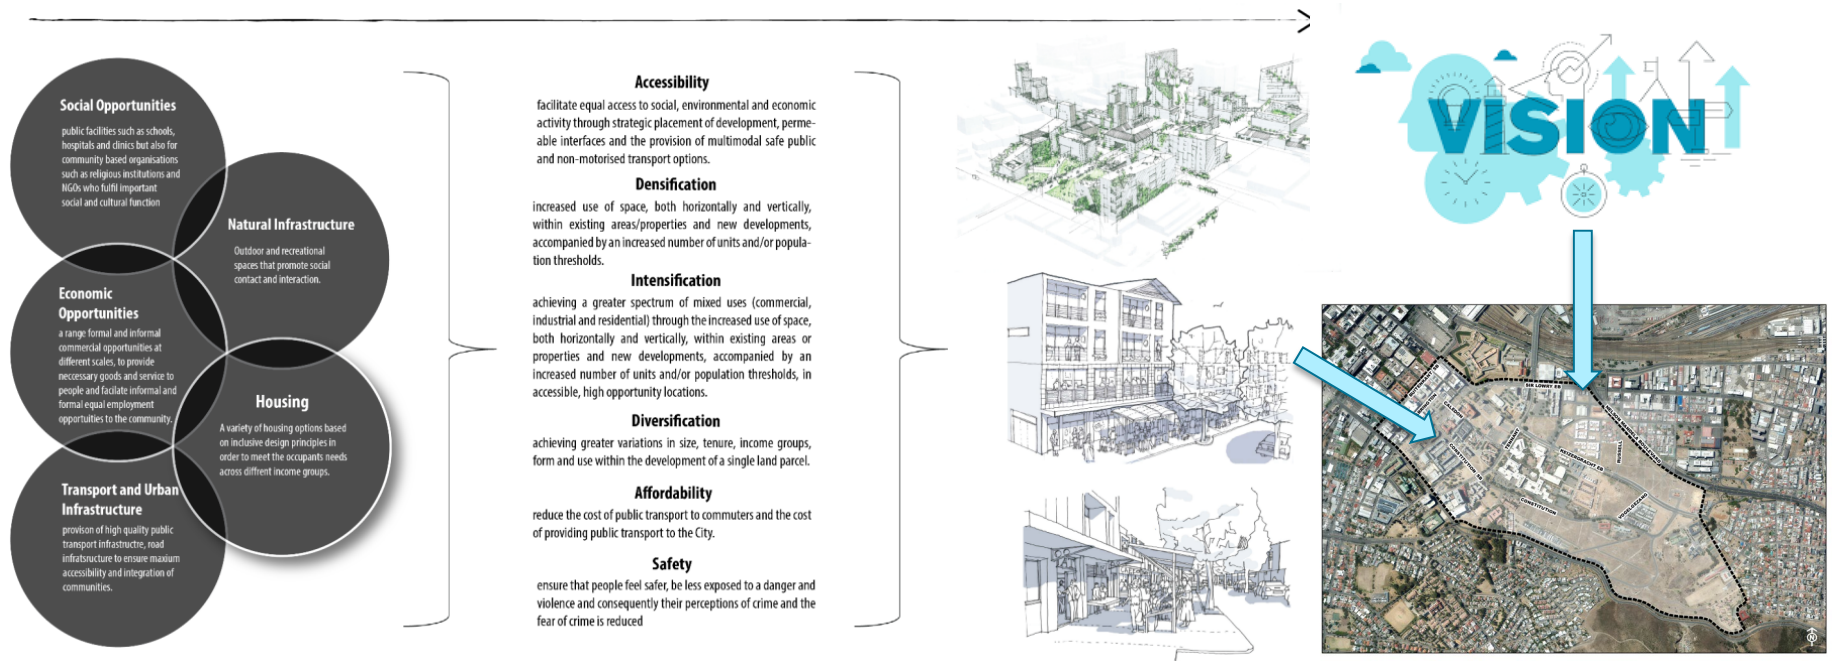

The Local SDF **provide policy direction** for the **nature and form of development** in each district and **guide land use and environmental decisions**.

The Local SDF also **inform strategic public and private investment initiatives** as well as the **development priorities** for more **detailed local area planning**.

Local SDF: What and Why?

1. Formulates a **vision** for the desired end state of District Six: How we would like it to be in the future;
2. Sets the **policies** and **guidelines** for **decision making** and **actions** to achieve the end state;
3. **Co-ordinates, integrates** and **directs** the **action plans/ interventions** to achieve the desired end state.

What the Local SDF **IS NOT**:

The Local **Spatial Development Framework (SDF)** (neighbourhood plan for the use of the space) is:

1. **Not** an IDP all issues tool (e.g. more money for an area;)
2. **Not** a tool for social interventions (e.g. safety, drug programmes);
3. **Not** a tool for maintenance (e.g. potholes, sewage);
4. **Not** going to be built tomorrow (e.g. planned roads);
5. **Not** a land reform / restitution plan/ housing plan/ economic plan but give a vision for where those can of projects could take place in the space of District Six.

Other processes continuing/ starting

1. Land Claims :

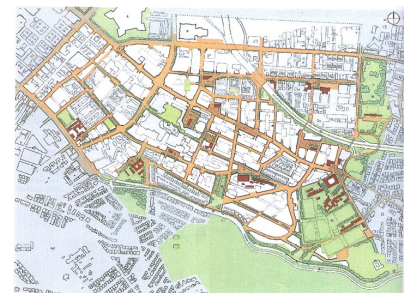

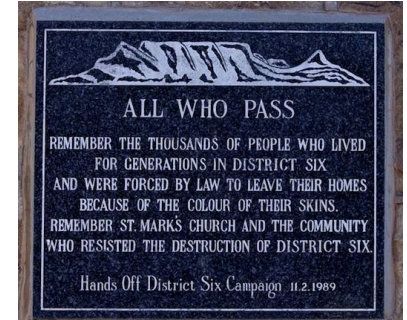

- **Housing Development**– Phase 3 (108 units – 2021) wrt the District 6 Plan: Dept. of Agric. Land Reform and Rural Development, (DALRRD)

2. Local SDF / neighbourhood plan (policy/ vision, guidelines, projects)

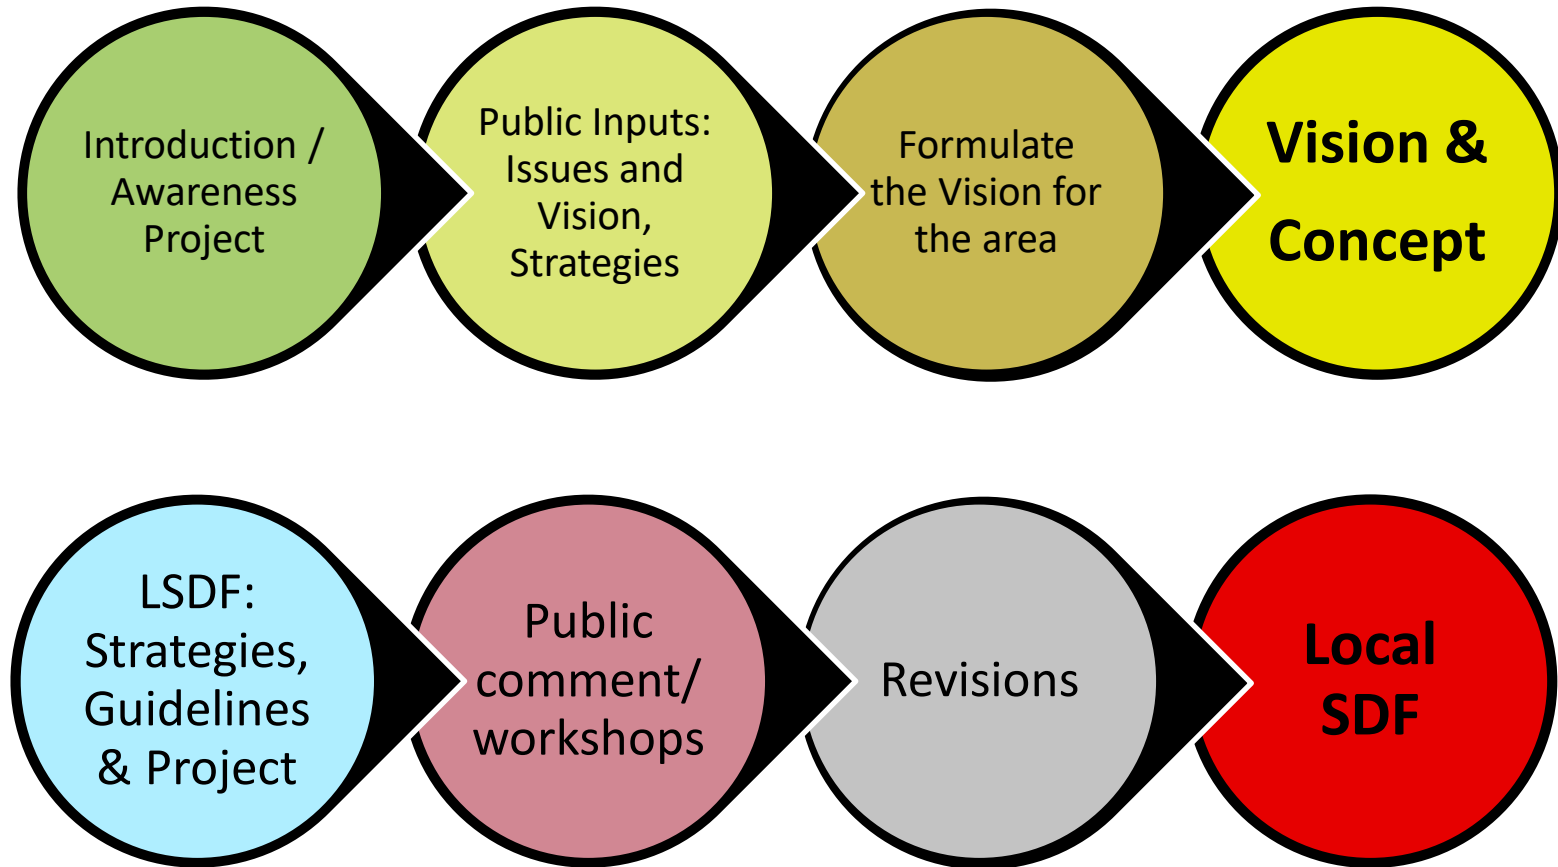

- **Strategies, e.g. Public realm** : to be initiated by the City of Cape Town
- **Development framework** to identify overall policy, broad goals, and principles for development within the development.
- **Development implementation framework** (Capital Investment Framework) lists the priority development projects, investments requirements and stakeholders
- **Monitoring and evaluation strategy** to track progress and recommend actions given lessons learnt during the process.

To facilitate : **Future projects: housing and other Local SDF outcomes** (City/ Province/ Dept. Rural Dev./ Private Sector and individuals ...)

What is the process?

2011 COCT Avg: 29.19%

TENURE STATUS 2011

1. Subject to forced removals
2. Can address social justice and the restoration of land rights
3. Measuring approximately 40ha
4. Prime inner city land - can significantly contribute to revitalising the City
5. Existing fixes...e.g. restitution projects
6. Situated on the slopes of Devils Peak slopes in excess of 20%
7. 80% of site - underlain with rubble from demolished houses (depths vary) 1m to 1.3 m.

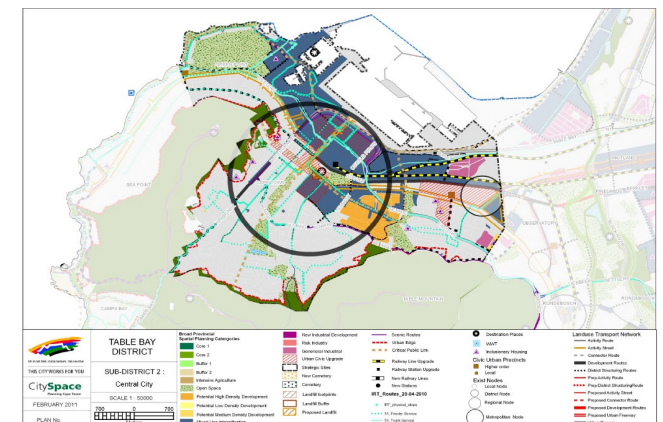

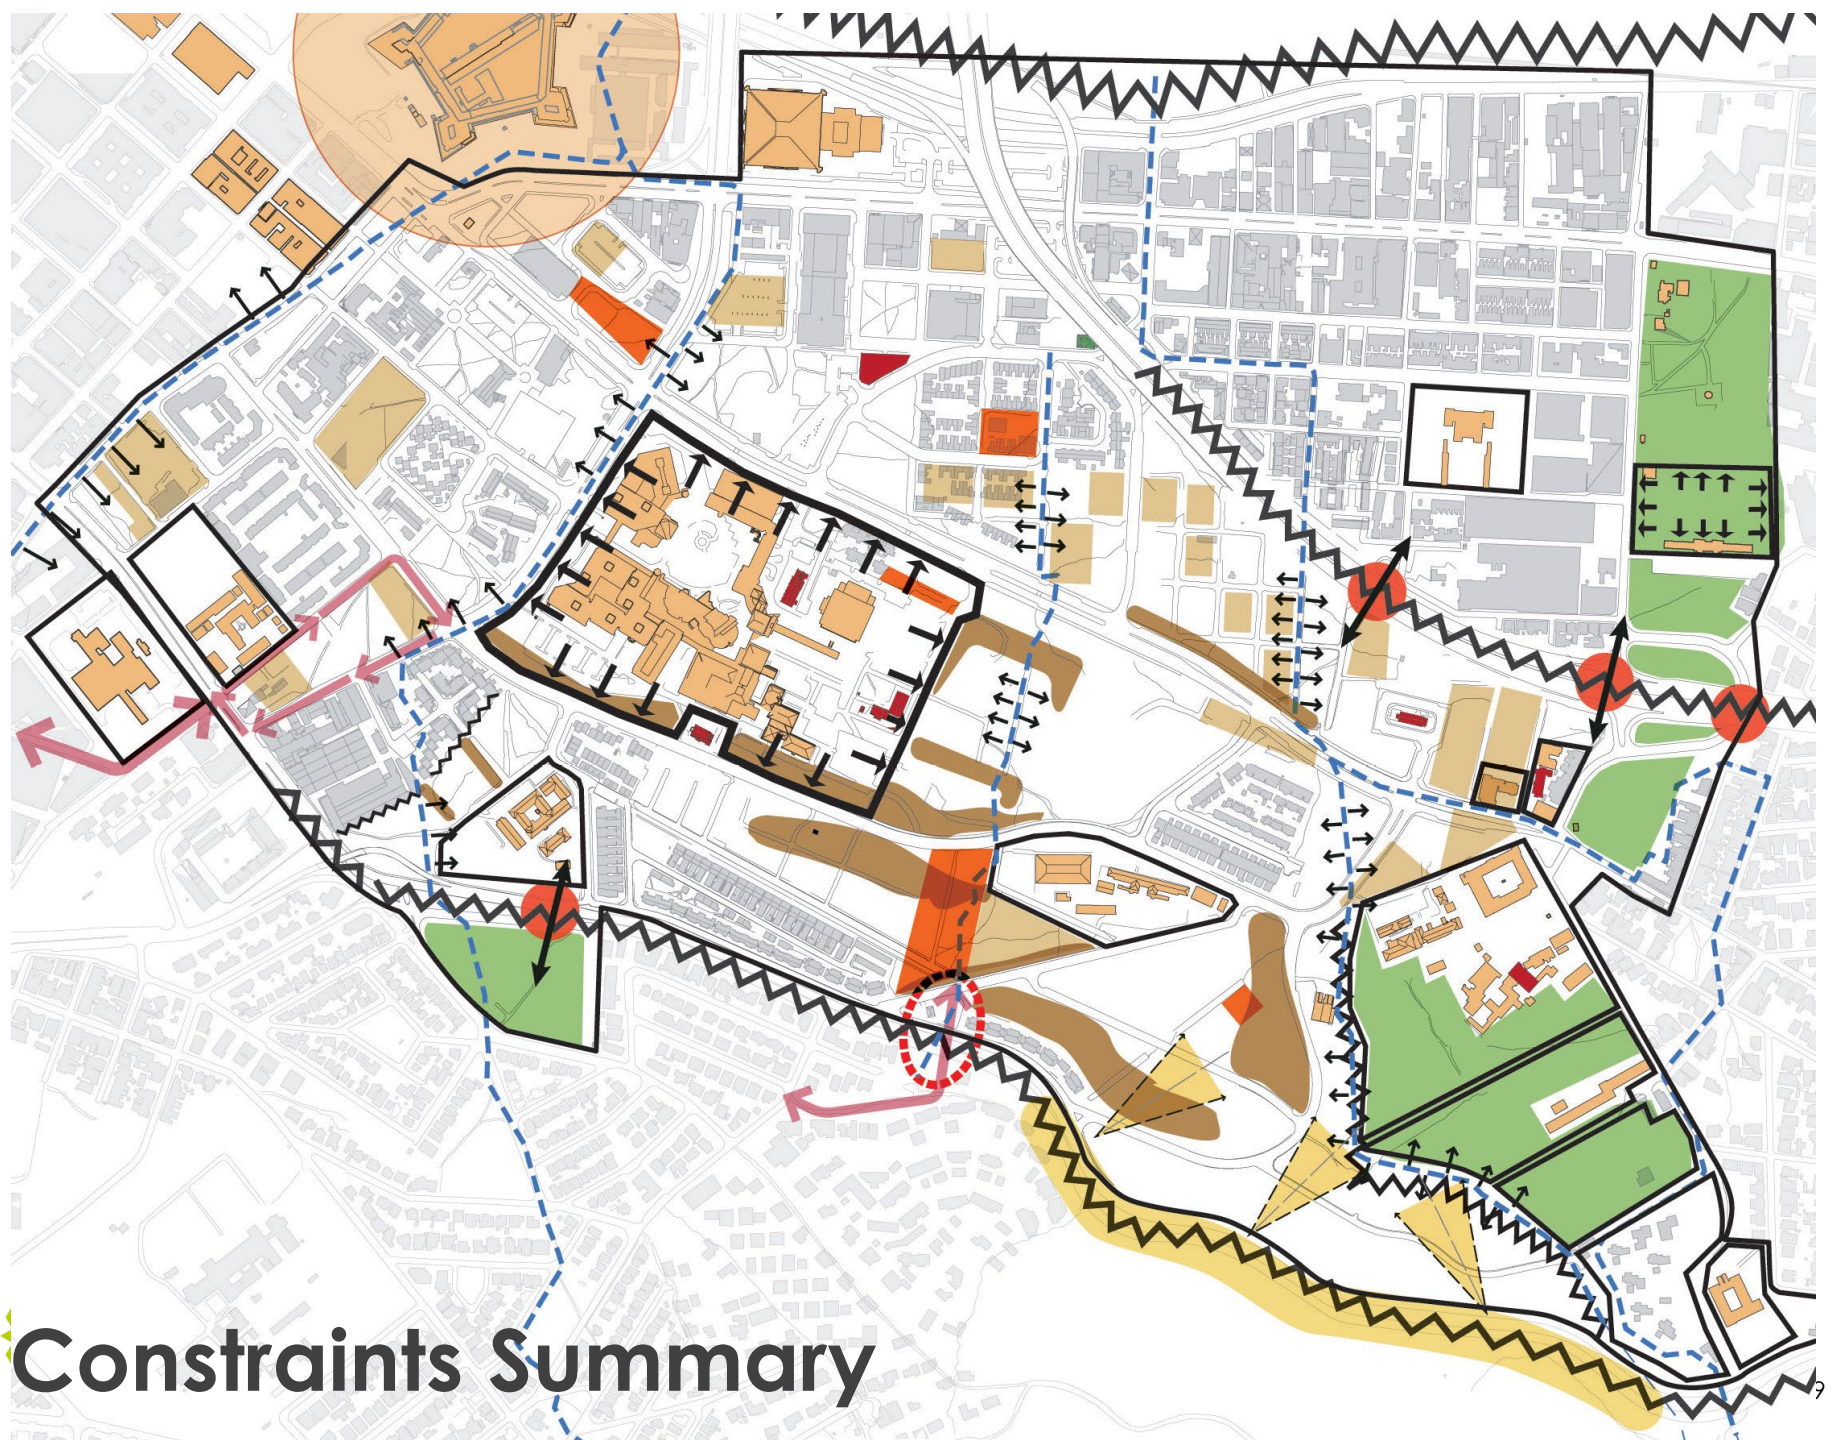

The Study Area

Spatial Issues/ Constraints

1. Consider existing buildings
2. Underground infrastructure and water courses - relocate or reinforce.
3. Heritage sites - to be retained and enhanced (Castle and Grande Parade)
4. Barriers to movement and access, e.g. facilities, roads, etc.
5. Road widening schemes
6. M3 = Scenic route and Views
7. Public Open Spaces- safeguard and improve
8. Archaeological sensitive sites - safeguarded and integrated into the urban development

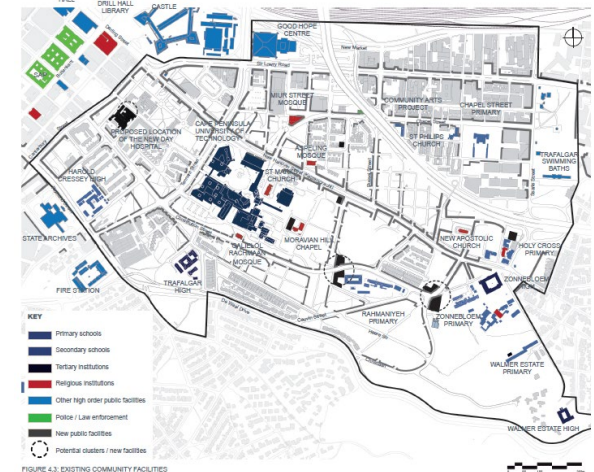

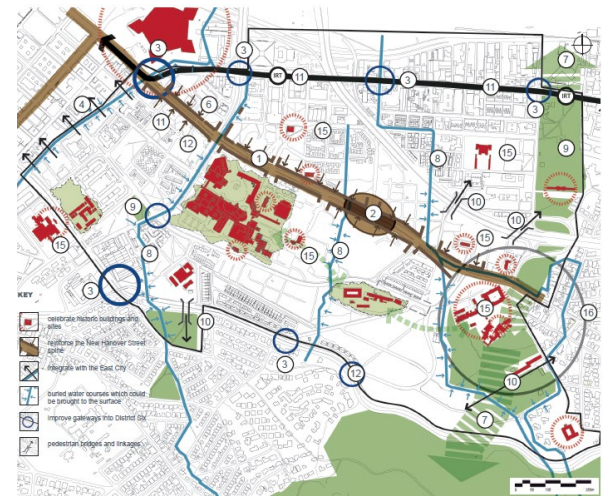

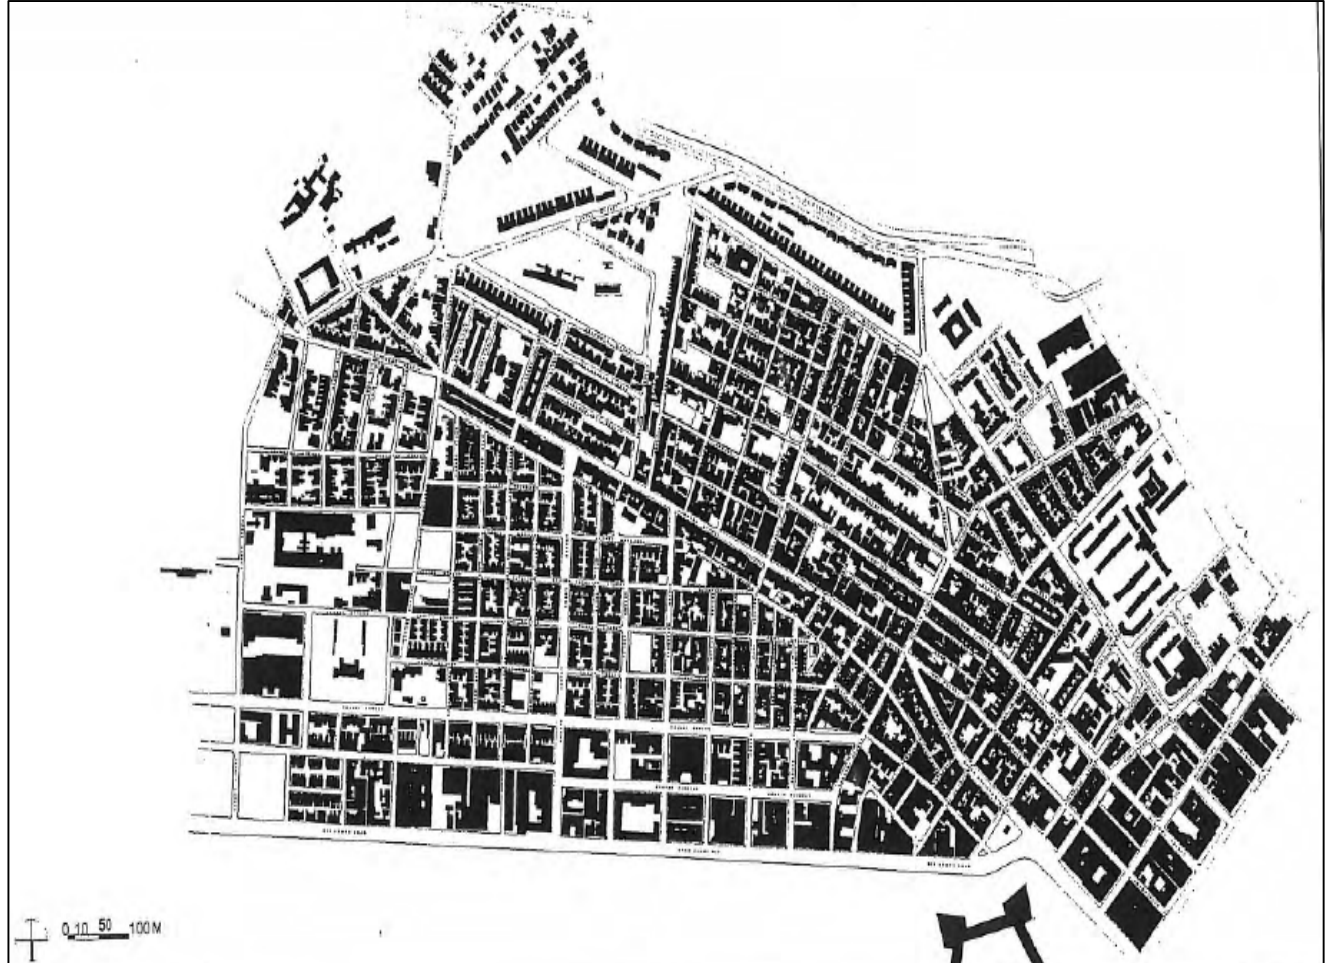

Constraints Summary

Spatial Opportunities

1. Assets such as heritage features, natural systems, inner city location
2. New Hanover / Keizersgracht streets
3. Linkages to East City, CBD and other areas Woodstock, Vredehoek, mtns.
4. Gateways to be celebrated
5. Underutilized open spaces, linkages to mountain
6. Existing educational facilities
7. Planned public transport systems
8. Existing bulk services
9. Opportunity for about 5000 units → residences into the city
10. Appreciation as a “special site”
11. Tangible demonstration of healing

Informants and Structuring Elements *(gives structure to space)*

1. Historic street grid → memory of District Six.
2. Historically significant sites → anchor points-memory of past
3. Historic and existing institutions → structure of the urban form
4. Slope, topography and level changes → creativity in layout
5. Views and visual connections
6. Micro climate of the site,
7. Buried water courses → open space network.
8. Green and blue mountain to sea linkages
9. Noise and air pollution from highways → mitigate
10. Scale and massing of the existing built fabric → first point of reference
11. Gateways – entrances to the area
12. Consider court case outcome and previous developments - impact on plan and future needs
