About

Neighbourhood watch: Empowering Communities for Safety

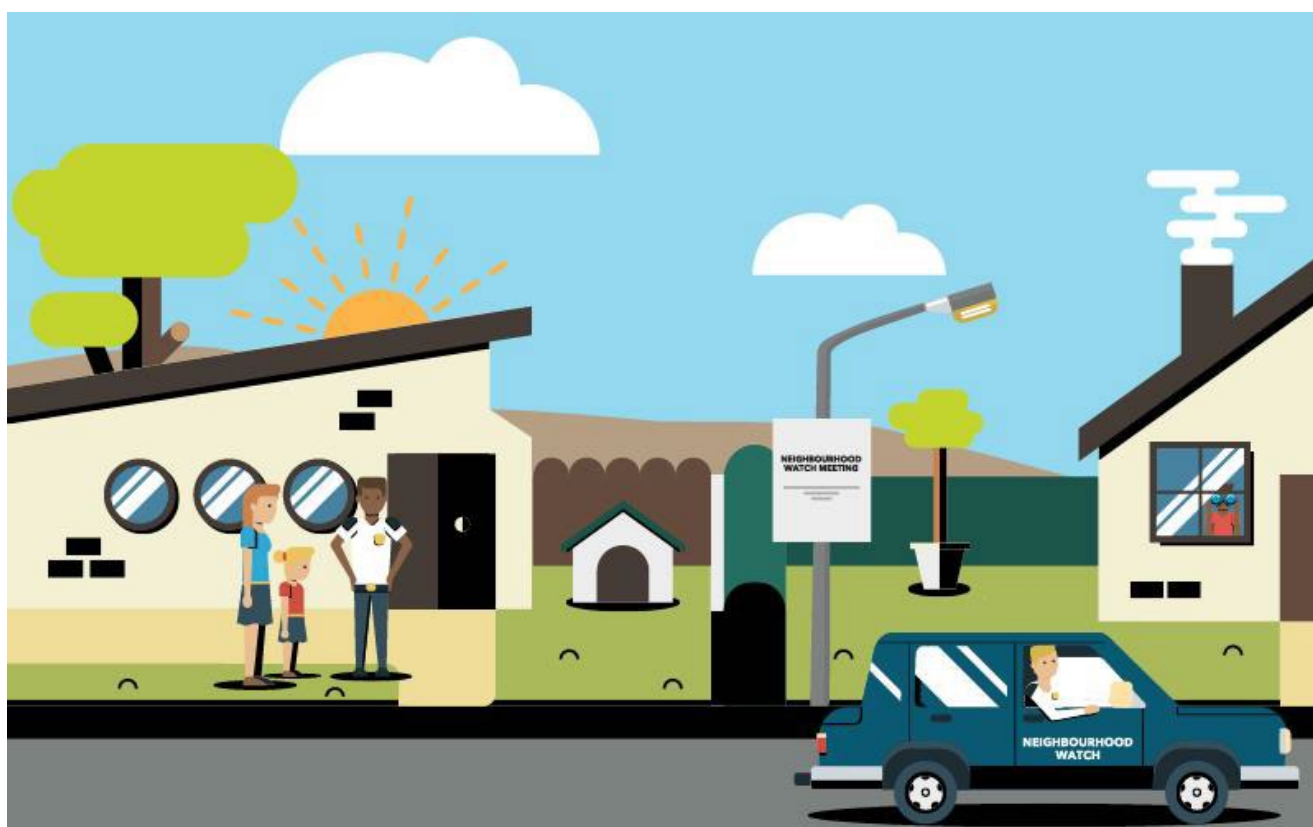

No matter where you live, crime is an issue; whether its domestic violence, abandoned cars, vacant plots filled with rubbish, or drugs and gang activity.

A Neighbourhood Watch (NW) is a voluntary organisation involving residents who work together to improve safety in their area. They collaborate closely with law enforcement agencies to prevent crime and build community resilience.

Neighbourhood Watches play a crucial role in creating safer communities.

No one is in a better position than locals to find the source of illegal and dangerous activities in their communities, and this is why neighbourhood watches are so important.

Neighbourhood Watch Awards

Every year, the City honours accredited Neighbourhood Watch volunteers who have provided exceptional services to their community.

You can nominate an individual Neighbourhood Watch member or an entire Neighbourhood Watch. You can also nominate the same person or Neighbourhood Watch for more than one award category, but you will need to submit separate nominations for each.
