City of Cape Town Winter Readiness Programme 2026

The City of Cape Town recognises the plight of people sleeping rough on the street. In its efforts to reduce the number of people sleeping rough on the street, the City supports non-profit organisations (NPO'S) and public benefit organisation (PBO's) by supplementing their existing resources. Through its Winter Readiness Programme, the City supports organisations to increase their bed capacity, particularly during the harsh winter months and aim to strengthen shelter's operational capacity without necessarily increasing bed spaces.

The programme will be implemented between 4 May to 30 October 2026 through the provision of mattresses, bedding, hygiene packs and dry food ingredients. Our partner organisations will not be expected to create any permanent accommodation.

Please complete the application form and submit to Chantal.Krull@capetown.gov.za by Tuesday, 31 March 2026.

APPLICATION FORM

Name of the Shelter / Organisation:

Manager: Cell No:

Office No:

Chairperson: Cell No:
