

USE THE CAPE TOWN GREEN MAP TO MAKE GREENER LIFESTYLE CHOICES AND EXPERIENCE THE MOTHER CITY'S WEALTH OF SUSTAINABLE RESOURCES

2ND EDITION

This printed **Green Map** presents a selection of options – for a more complete listing, further information and current news and updates please visit www.capetowngreenmap.co.za

The Cape Town Green Map is a project of Host City Cape Town Green Goal 2010, the environmental programme for the 2010 FIFA World Cup™.

It is a legacy project that will continue post 2010 as an invaluable source of green information for visitors, residents and businesses. The map encourages people to live more sustainably and to make "greener" lifestyle choices. All sites are listed free and are selected from www.capetowngreenmap.co.za.

If you meet the criteria, please submit your information online and stand the chance of being featured on the website and in future print editions.

VISIT, ENJOY & SCORE YOUR OWN GREEN GOALS BY LEAVING A LIGHTER FOOTPRINT

With unique global icons and adaptable tools, Green Map System has engaged over 600 communities in 55 countries in mapping green living, nature and cultural resources since 1995. Green Maps chart a sustainable future!

Visit www.greenmap.org for more information.

Find out more about Cape Town's commitment to implementing Green Goal 2010, a programme aimed at making the 2010 FIFA World Cup™ event as environmentally friendly as possible. The action plan includes 41 projects relating to energy, waste, water, transport, hospitality and sustainable lifestyles.

THE GREAT GREEN OUTDOORS

As one of the few cities in the world with a national park and two World Heritage Sites (Table Mountain National Park and Robben Island) contained within its boundaries, Cape Town is surrounded by incredible outdoor options. The "Mother City" is also located in a "Biodiversity Hotspot", the Cape Floristic Region, and is recognised globally for its extraordinarily rich, diverse and unique fauna and flora. The city offers many ways to experience the great green outdoors.

CITY NATURE RESERVES

Cape Town has one of the highest densities of threatened species in any metropolitan area on earth. The City of Cape Town's nature reserves and conservation areas are conserving critically endangered ecosystems. This globally important biodiversity is a valuable part of our heritage and also plays an important role in underpinning a healthy and sustainable urban environment.

For the complete list and information on the City's more than 30 nature reserves visit: www.capetown.gov.za/environment
You can also download the City of Cape Town Nature Reserves booklet.

WASTE & RECYCLING

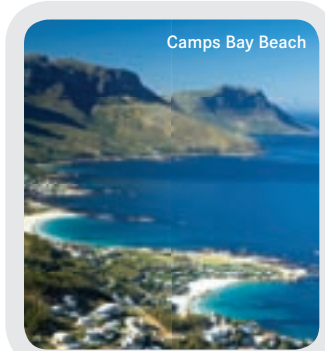

Waste minimisation is a key focus of the City of Cape Town. Drop-off facilities help citizens practice 'reduce, reuse and recycle' principles. All it takes is a new mindset - think twice. Separation at source is the key. Many City of Cape Town drop-off facilities accept the following waste items: Garden waste, motor oil, cans and metal, paper, cardboard, glass, plastic, builder's rubble, e-waste and polystyrene. Specific recyclables accepted vary per site.

For a downloadable map of the City of Cape Town's drop-off facilities and details of the City's 'Think Twice' recycling collection programme, and private recycling services, visit: www.capetowngreenmap.co.za/recycling

FRIENDS OF NATURE

Many City nature reserves and public open spaces listed on the map have "Friends" groups affiliated to the Wildlife and Environment Society of SA (WESSA) and consist of community members who have banded together to conserve, promote and raise funds for a specific natural area.

View details of these groups and their websites at www.wessa.org.za
